

## **Mrs. Jessica Second Saturday GO Event Recap – November 8**

So two days later, we had our Second Saturday GO event at Mrs. Jessica's home. Mrs. Jessica came to us through the roof repair program we are part of, helping those who have hurricane damage as a Hurricane Helene survivor. Everyone did a great job, and it looked like everybody was having a great fellowship serving her. A couple of guys were able to replace the balusters on the steps to the first landing right inside her front door, which the dog had turned into a chew bone! She was very excited about that repair. We had four ladies who did a garage cleanup and reorganization project, and she was so happy to be able to get to the things she needs and unload some of the things she didn't need any longer. There were so many more things that got done, and we also had a pair that repaired the front window sill where the doggie chew team had worked hard to devour that sill — it looked great when completed. We thank everyone who joined in. It was great to see so many people join us for lunch and hang out afterwards, and thanks to the cook team back at the shop who made an awesome lunch again!

So last month Mrs. Jessica got a new roof, and this month we were able to help her through Second Saturday's GO event. There's still some additional hurricane repair work that we'll contract out. And for each blessing she received, Second Saturday was just as blessed to be able to help with the resources God has provided. Thank you to everyone who served!
