

LINKS FOR *Lucy*

6TH ANNUAL GOLF BENEFIT

When she was 4 months old, Lucy Feltman was diagnosed with an ultra rare, genetic neuromuscular condition called Spinal Muscular Atrophy with Respiratory Distress (SMARD1). There is currently no treatment or cure for SMARD, and Lucy will need continuous breathing and motor skills support throughout her life. Proceeds will be donated to the Feltman family for Lucy's medical needs, and to smashSMARD (501(c)3 non-profit) to continue funding treatments and ultimately a cure.

• **Saturday, August 23** •
