

PHOTO PHUNDRAISER

The results are in!

Thank you to those that participated!
I sure hope you had phun with this contest!

BEST IN SHOW

Congratulations JAMES LITTLE

Los Osos Valley GC - California

Judge's Comments -Insects - Color: BEST IN SHOW: Perfect focus and exposure. The blue and pink flower with the muted yellow of the bee against the blurred blue background makes for a wonderful color palette and composition.

1ST PLACE - DIRECTOR'S CHOICE - MOOSE

Congratulations BECKY HASSEBROEK

Fairbanks GC - Alaska

1ST PLACE - ANIMALS (color)

Congratulations NOELLA BALLENGER

Burbank-Valley GC - California

Judge's Comments - Animals - Color: Action and intimacy are both on display and captured in this wonderful image. The mother and child story is told well by the gazes of each. It could be playing or fishing but either way it shows a connection between them. Is that a smile on the mother?

1ST PLACE - ANIMALS (black/white)

Congratulations DENNY BRUNO

Grants Pass GC - Oregon

Judge's Comments - Animals - B&W: Well composed image that captures the essence of cat playfulness.

1ST PLACE - BIRDS (color)

Congratulations JOYCE ROWLEY

Las Vegas Flower Arrangers Guild - Nevada

Judge's Comments - Birds - Color: Wonderful capture of nature being nature. Strong story of survival reflected in this image and the handsome bird's gaze directly into the camera adds an exclamation point.

1ST PLACE - BIRDS (black/white)

Congratulations DEANNA REYNOLDS

Port Angeles GC - Washington

Judge's Comments - Birds - B&W: An even score of Canada Geese goslings tells a story right there. As with other entries, the theme of parent and child always adds interest.

1ST PLACE - INSECTS (black/white)

Congratulations DENNY BRUNO

Grants Pass GC - Oregon

Judge's Comments - Insects - B&W: Darks and lights on the giant flower highlight the tiny bee in the middle.

1ST PLACE - LANDSCAPES/GARDENS (color)

Congratulations TRISH SCHOOLEY

Naples Islands GC - California

Judge's Comments - Landscapes/ Gardens - Color: The eyes wander through the trees and one wonders what is in the mist at the end. Wonderful mood established in this image.

1ST PLACE - LANDSCAPES/GARDENS (black/white)

Congratulations PATTY BOYNTON

Eugene GC - Oregon

Judge's Comments - Landscapes/ Gardens - B&W: Good use of B&W to highlight the textures and the profile of the beach walkers. Stormy winter weather off the coast brings big waves and foamy surf, well captured in this image.

1ST PLACE - SINGLE BLOOM (color)

Congratulations KAREN BOWEN

MGM GC - Arizona

Judge's Comments - Single Bloom - Color: The bloom is the star of this image and the way that it's luminescence is captured is nothing short of wonderful.

1ST PLACE - SINGLE BLOOM (black/white)

Congratulations KIM DISHER

Dallas GC - Oregon

Judge's Comments - Single Bloom - B&W: This monochrome take on the hibiscus shows off its structure more than its normal attention-grabbing color.

DIRECTOR'S SPECIAL MENTION

Congratulations RENATE FEARONCE

Scottsdale GC - Arizona

Director's comment – I just like the way he looked!

Results

Directors Choice - Moose-Color	Club	State
1st - Becky Hassebroek	Fairbanks GC	AK

MANY THANKS to our

Photo Phundraiser Contest Chairmen:

Karen and Paul Ramsey

For sorting through 400+ entries and keeping the bookkeeping straight! YOU are amazing!!!!

SPECIAL THANKS to our Photo Phundraiser Contest judge:

Frank Delargy

Photographic Specialty/Style:

Photography for me has always been about being outdoors and experiencing the world. So it is natural that my photographic style would fall into the landscapes, nature and travel categories. I am not a documentary photographer and I look at each scene for its beauty, real or potential, and usually have a vision in mind. With that in mind I will use techniques like long exposure and focus and focal length stacking during shooting. I also try to think about how I will be processing the image.

Short Bio:

I was born in Scotland and grew up in Scotland, Canada and Southern California. Growing up, my father loved to take family photos with the Kodak Brownie he had and I often ended up behind the camera rather in front of it. During my high school years in California I got myself a 35mm camera and started carrying a camera with me whenever I went somewhere. Film was not cheap, especially for a high school student, so you quickly learn how to discriminate about what you take a picture of. After graduating with an engineering degree I went with a couple of friends on a trip to Europe and Africa. I ended up staying in Scotland for a while and got a job with Polaroid and eventually ended up becoming part of the photographic technical team as an engineer, not as a photographer. My interest in photography waned a bit during my working days at Polaroid but I always considered photography as an integral element of any trip that I took and for years would always have the mid-level point and shoot camera as my gear and eventually worked up to entry level DSLR. I retired 6 years ago and set out a retirement goal to learn about and improve my photography as much as possible. Along with that came a step up in commitment to photography and I pursued learning opportunities and jumped significantly in the level of the gear that I use. I am still on that learning journey.

Awards

Best in Class - 2015 Florida Master Naturalist Photo Contest.

Popular Photography 2015 U.S.A. Landscape Photographer of the Year Runner Up.
