

# The Moose Monitor

Official publication of the  
**Lil' Moose Garden Club**

Vol. I

December 2020

No. 1

## ***The Lil' Moose Garden Club is born...***

In the fall of 2020, Brynn Tavasci, WA sent an innocent picture of some moose spotted near her campground with a clever caption that they were working on a the bylaws of a new garden club.

And a few emails later the Lil' Moose Garden Club was formed. Since meetings would not be practical, this being a region-wide garden club, how about all our "dues" going to scholarship? Why, that is an excellent idea. And the rest is history!

## ***Policy Vote for the Membership's Consideration...***

**Moose Plural** — Shall multiple moose be called:

A) Moose      B) Mice      C) Meese

D) \_\_\_\_\_ (write in your vote)

Email your vote to [PRGCDirector@gmail.com](mailto:PRGCDirector@gmail.com)

## ***Up Close and Personal...***

Submitted by Barbara Horner-Miller, AK

This summer I watched a young bull moose eat out of the garden three nights in a row, commenting to my husband each night, "There's a young moose eating in the garden. On the fourth night, I looked out and commented, "Oh look Jack, he brought a date". Sure enough, he had a young female with him.

Helping with fall clean-up!

## ***Thank you...***

For caring about scholarships!  
For your support of the Pacific Region  
Garden Clubs!

We are stronger and more dynamic because of  
**YOU!**

With your generosity we have raised: **\$3450.00**

*The Moose Monitor* is the official publication of the Lil' Moose Garden Club, established in 2020. Serving members of the Lil' Moose Garden Club. Articles and pictures are welcome and appreciated. After Vol I, No. 1 issues will be emailed. Editor: Robin Pokorski. Contact the editorial staff at [CGCIRobin@gmail.com](mailto:CGCIRobin@gmail.com) Masthead photo credit: Eric Muehling

Calves grow quickly and can outrun a person by the time they are 5 days old.

*Upward membership level movement helps Pacific Region Garden Clubs offer more and bigger scholarships!*

What do you call a moose wearing a mask?

Anonymoose

A moose can dive 20 feet under water and stay under water for up to 30 seconds!
