EXPLORE SANTA FE

A Staycation Retreat for Women Navigating Cancer

About Your Guide

Hi, I'm Jessica. I was diagnosed with breast cancer in 2013 and later with metastatic breast cancer in 2022. ChimaSol Journeys was born from my own lived experience and my desire to walk alongside women who want rest, connection, and beauty with someone who truly understands.

A few days designed for deep rest, gentle connection, and meaningful moments – without travel, pressure, or planning.

What to Expect

This retreat includes guided exploration and reflection, shared meals, gentle movement, sound bath meditation, and restorative soaking – with plenty of time to rest, breathe, and simply be.

Who this is For

Open to women living with cancer – whether you are in treatment, in remission, or navigating advanced illness – who are physically able to travel and seeking rest, connection, and understanding in a supportive, intimate setting.
