Points are as follows:

1 st Place.....	4 points
2 nd Place.....	3 points
3 rd Place.....	2 points

Competitors

Each player must present him or herself to the event in proper attired and physically and mentally prepared to compete. Finger and toe nails must be cut properly or covered to prevent possible injury to the opponent. It is the responsibility of the player to be ready to compete as deemed by the referee. The player will have five (5) minutes to make any required changes or risk being penalized for “Delay of Contest”.

Legal Age:

Applies only to Players competing for Kaizen Points.

Player may compete at the age they are on January 1st of the competition year or the age they will become during the competition year and must compete at that age for the entire competition year.

Rank:

A competitor must compete at the highest belt level that they have attained in the martial arts. Once a competitor competes at a rank, they are not allowed to compete in lower ranking divisions. We also do not encourage a competitor to compete up in a higher level.

Definition of Rank:

The color of the belt may sometimes be confusing due to the fact that different systems of martial arts may use different colors of belt to represent ranking. We will always look to solve this issue. The tournament arbitrator will make decisions, if there is a complaint. The following is a basic format of most ranking systems.

Amount of UBB ranks of style/school	Rank split for 2 Divisions:		Rank split for 3 Divisions:			Rank split for 4 Divisions:			
	Nov	Adv	Nov	Int	Adv	Beg	Nov	Int	Adv
3	1	2	1	1	1	0	1	1	1

5	2	3	1	2	2	1	1	1	2
6	3	3	2	2	2	1	1	2	2
7	3	4	2	2	3	1	2	2	2
8	4	4	2	3	3	2	2	2	2

No Contact:

Technique within a four (4) inch zone. A technique within the 4” zone must have the potential to strike the intended target to be valid

Light Contact:

Beginner Divisions:

Light or Touch contact is allowed to the side or forehead of the head gear, excluding the top of the head regardless of protection. Light or “Touch” contact is NO penetration or movement of the struck target. Face contact (even if the opponent has a shield) is not allowed in any division. Light Body contact is allowed.

Disqualification Due to Injury, Bruising, or Bleeding:

A majority of the judges must see a technique “thrown” to the injured area which may have caused the injury in order to justify disqualification. Majority of the judges must agree on the call of Excessive Contact. Automatic Disqualification if technique draws blood.

Disqualified Players are only considered the loser of that match and if qualified may continue to compete in subsequent matches.

Contact Due to Player Negligence:

Heavy or excessive contact may or may not be considered a contact infraction if the Officials deem that the offended Player’s action was a negligent or risky action which was a contributing factor for the contact.

The Officials should take under consideration whether the offending Player’s contact was intentional or was there an attempt to control or “pull” their technique in order to lessen or stop the technique from striking their opponent. It is recommended to have the Arbitrator present during the Official’s discussion. The Medical personnel shall be the final arbiter as to whether the injured Player shall or can continue. The Player’s Instructor, Coach, Parent(s)/Guardian, or the Player themselves may also remove the Player/themselves from completing the match or division.

Penalty:

Possible Negligent/Risky Actions:

Cartwheel Kicks; “Superman” Punch; “Blitzing”; Running or Falling to Avoid the Fight; Intentionally turning the back; and other actions which the Officials rule as Negligent or Risky.

Head Contact:

Competitors may only use light or touch contact to side or forehead of head gear.

Out of Bounds:

An Out of Bounds player cannot score on an In-Bounds player. There is no such thing as fighting out of bounds. It’s the player’s responsibility to know where he/she is at all times. If a player is in the ring and his competitor has even one foot out of bounds and scores before the officials call the break, the player outside the ring should be issued a warning for being outside the ring and the other player given the score for the technique landing before the officials called break. A player with one foot in-bounds will be considered “out” as soon as the in-bound foot is lifted to either step or kick. Players “throwing” a jumping technique which causes neither foot to be “on the ground” must land in-bounds for the technique to be considered valid and scorable. An out of bounds player must first have one foot in-bounds before they can execute a valid, scorable technique.

Penalty:

Warning for 1st infraction; one (1) penalty point for 2nd and subsequent infractions. A player who intentionally forces their opponent “out of bounds” by pushing, shall incur one (1) penalty point.

Down players have 3 seconds to either “stand” or defend before play is stopped. Both players have three seconds to score to any legal target when either player is down. The four (4)-inch rule is also applicable.

Scoring on or by a Down Player: During the 3 second rule, a “Down” player may score to any legal target on the “Standing” player using any legal, controlled technique. A “Standing” player can score on a “Down” player using any legal, controlled technique. with the exception of No Kicking Motions to the Head of a “Down” player and No Contact to the Head of a “Down” player is allowed. When either player is down, the (3 second rule) is in effect.

Sweeps:

Controlled Techniques Only. If a player has swept his/her opponent, the strike technique must be immediate to their opponent (Three (3) second rule applies).

Penalty:

Kicking Motions to the Head of a “Down” player and any Contact to the Head of a “Down” player is illegal and the offending player’s penalty can be solely determined by the center referee.

Scoring:

Points are awarded by majority vote of the Judges. Judges must “see” a legal technique score to a valid target area in order to make a call for point.

Scoring Points:

- One (1) point awarded for all hand and kicking techniques to the body scoring areas
- Two (2) points awarded for any type of kicks to the head scoring areas.
- Kicks are only one (1) point when either player is down.

Points and Penalties:

A point and penalty point can be awarded to the same player.

Ties:

Players tied at the end of regulation play will result in a sudden VICTORY overtime. The player scoring the first point is declared the Winner.

Injury:

The Medical Personnel shall make the final ruling for whether an injured player may continue or not. The Medical Personnel’s opinion takes precedence over the opinion of the Arbitrator, Center Referee, Coach / Instructor, Parent or any other concerned persons.

An injured Player who “bows out” of a match due to an unintentional injury is only considered the loser of that match and if qualified, may continue to compete in subsequent matches if they sufficiently recover and if applicable, the Medical Personnel consents to their participation.

- Malicious Disqualification and possible expulsion

The Center Referee has the power to issue a two (2)-point penalty if he or she deems it necessary due to the nature of the violation and the attitude of the player involved, it is also possible for both players to be penalized and or be disqualified. If a competitor strikes the Center Referee or judge after the Center Referee or judge has stepped in to break the action, and is done intentionally, that competitor should be immediately disqualified.

Protests

Who Can Protest:

A protest can be brought forth by a player or a player’s coach. All coaches must purchase a Coach’s Identification in order to coach and / or protest. A parent cannot act as a coach unless the parent has purchased a Coach’s Identification during registration. Protests should be made immediately to the referee in a respectful manner by the competitor’s coach or competitor. Center Referees are qualified and educated on the rules and they can make the call ring side. The Center Referee should be able to consult the arbitrator. Protests concerning a match must be made at the conclusion of the match and not once the next match has begun. A Player, Coach, or Instructor may request an official be replaced if they feel the official is not perceived as “fair”. Protests must first be brought to the Center Referee’s attention and if warranted the Arbitrator may be requested.

Filing a Protest:

All protests regarding rule violations must be brought to the attention of the Center Referee, who must get the arbitrator without question. The player cannot be penalized if the arbitrator is not readily available. Requesting the arbitrator may be done by the player or player’s coach only after scores, points, or penalties pertaining to the arbitration have been awarded, but before the next match has started. After the winners are declared the player has no right to arbitration, except for scoring errors where the scores were not disclosed previously. All protests regarding proper rank for the division in which a player competing must be made before the order of performance is chosen.

Supporting Violation with Rule Book and Video:

It is the player’s responsibility to know the rules and penalties. The contesting player will be given two (2) minutes by the arbitrator to find evidence in the applicable rule book to support their protest. If the protesting player or coach cannot find evidence in the rules in the allotted time then their protest shall become null and void unless the arbitrator further processes the protest on his own. Along with evidence of a rule violation submitted from the rule book, the player may submit videotape as evidence of a rule’s violation. A judgement call can be protested.

Rules Procedural Error:

Protest of a rules procedural error which is agreed upon as a procedural error by the arbitrator requires the division to stop using the error. Once the error is caught, it must be corrected with the proper procedure immediately. The division should not be restarted, however the arbitrator has the authority and option to readjust the present situation, match or performance, to make it as fair as possible before continuing and has the option of restarting the match or performance, if deemed necessary. A procedural error that was allowed at a tournament and not discovered or corrected by that tournament arbitrator does not set a precedent for the same procedural error to be allowed in other divisions or tournaments.

Judging or the Removal of Judges:

A player or coach may ask the arbitrator to scrutinize any judge for possible removal. A player or coach may request to have one or more judges (including center referee) removed from the division from the onset. This protest should be made prior to choosing the order of the competition. Removal of judges is at the discretion of the arbitrator based on facts presented by the player or coach, judge, or any chief referee. Officials from the same school should not be used. Two or more officials from the same schools are more likely to have the same "school of thought". This could result in an unfair advantage or disadvantage. The Center Referee can replace judges as needed.

Pre selected Referees:

Pre selected Referees cannot be removed.

Scoring Protest:

Flip cards and/or scoreboards take precedence over tabulation of the scorekeeper. The Center Referee has the final decision on the score. Center Referees may consult the corner judges to render a decision.

Code of Conduct:

All attendees must agree to and are expected to conduct themselves honorably by acting in a courteous and respectful manner to all others in attendance, including the property and the community.

Breaching this Code of Conduct may result in player penalties, including disqualification and possible expulsion from both the tournament and property.
