

OSYRIS

HF 5000

OSYRIS HF 5000

High performance rust preventive specifically developed to avoid evaporation losses and avoid issues due to ingress of Moisture our emulsion. Special additives ensure low film thickness with Optimum protection

Major Feature:

- High flash point
- No MTO Odor
- Low viscosity
- Fast Emulsion separation
- Thin film

Application

- Large dipping tanks for tubes
- Short term protection of Auto components
- Components requiring thin film

Other Products

- **LACTUCA 2614 CR** – Coil & Tube rolling oil
- **LACTUCA 3000** – Cutting oil
- **AZOLLA ZS** – Super-clean Hydraulic Oil
- **DROSERA MS** – Superior lubricating oil for Slide-ways

Typical properties

Flash Point (°C)	88
Viscosity @ 40°C	2.1
Film Thickness (μ)	0.91
Emulsion Separation (Mins)	2.5
Rust Protection (Months): Indoor	3-4
Outdoor (Covered)	1
Coverage (m ² /Ltr)	270

CUSTOMER BENEFITS

- Reduced consumption
- Consistent rust protection
- Non dripping film after drying
