In this stage of the Long Term Athletic Development Plan participants develop and/or refine agility, balance, coordination and flexibility. Posture, core strength, shaping and physical preparation is key at this stage to ensure successful, ongoing and progressive participation in gymnastics. Participants with the ability, will, and desire, will be given the opportunity to achieve their highest individual potential in a safe and positive learning environment. In addition to physical development and proper progressions, we also work toward self-confidence, self-image, responsibility, communication, relationships and leadership.
