

### Core Competencies:

- Fixing Common Wastewater Problems.
- Wastewater Processes & Process Development.
- Sewer & Treatment Plant Cleanup.
- Sewer & Treatment Plant Compliance Remediation.
- Incident Response Support for Wastewater Crises.
- Reducing Fats, Oils, & Greases (FOG); Sanitary Sewer Overflows (SSOs); FOG-Clogged lines.
- Reducing nutrient loading in discharged effluent to **achieve environmental compliance.**
- Reducing & Removing Foul, Nuisance, **Odors.**
- Reducing **Hydrogen sulfide** (H<sub>2</sub>S) & Corrosion.
- Simplifying sewer maintenance + **lowering costs.**
- Green Products that protect flora & fauna.
- Improving Infrastructure Longevity.
- Improved Operator Safety. Reducing risks & complexity. Reducing resource requirements.
- Product T & E, Manufacturing.
- Applications Research & Field Testing.
- Environmental Sciences.
- Disadvantage Adult Workforce Development.
- Disruptive Technologies/Innovative Research.

### Differentiators:

- Non-toxic, Green & Clean Wastewater Technologies.
- Win Criteria: Performance, Safety, Price.
- On-demand, Immediately Observable Results.
- Improved Operator Safety; Risk Reduction.
- Reduced Operational Complexity. Lower Costs.
- Small Business – SBA Registered.
- Made in USA. US-ONLY supply chain.
- Safe, Simple, & Easy to Use Products.
- Non-toxic. Non-corrosive. Non-Flammable.
- Unprecedented Performance – WOW Factor!
- Ruggedly Reliable Products. Consistent Results.
- Kationx Products are approved & listed on State Contract by, Louisiana Office of State Procurement.
- Proprietary, Unique, Kationx Technology.
- Kationx is a Single Source Supplier.

### Snapshot:

- Made-in-USA Products. US-ONLY Supply Chain.
- Geoscientist, Chemist, Engineers, Operators.
- Patented & Pending Novel Unique Technologies.
- Field-Tested Products – Customer Proven.
- Nationwide Availability – Direct & via Distributors.
- Founded 2018. In revenue since 2019.
- Industrial, Commercial & Retail Products.
- Innovative, Disruptive, Applied Science.

### Company Information:

### Kationx Product Design Concept

- ✓ Green, Non-toxic, solutions.
- ✓ Safety & Simplicity are paramount.
- ✓ Non-reactive Chemistries. No new molecules.
- ✓ Focus on immediately observable results.
- ✓ Minimal Environmental Impact.
- ✓ Made in USA using a US-ONLY Supply Chain.

## Customers:

City & County Utilities, Package Plants, Commercial Plumbers, Universities, ISDs, Property Managers, Janitorial Services, Jails, Zoos, MROs, Haulers, HAZMAT Responders, Spill Incident Responders.

## Common Wastewater Problems Kationx Fixes!

- FOG emulsification, mobilization & elimination.
- H<sub>2</sub>S & VOC scavenging.
- ODOR reduction & removal.
- Biosolids & Sludge settling.
- Reduced nutrient loading.
- Supernatant polishing.

- Reduced Hauling.
- Improved Safety.
- Reduced Complexity.
- Direct & Indirect Cost Savings.
- Improved Infrastructure Longevity.
- Reduced Maintenance.

**Results: Before** (Thick, Dried-out FOG Mat)

&

**AFTER** (just 5 minutes later. Clean Well)

Conventional settling (turbid, unconsolidated) vs 5 minutes with Kationx.

For Treatment Plants, Kationx Delivers (1) clean, clear, water; (2) With less nutrient loading; (3) Better packed solids that Are easier to dewater; while also, (4) Reducing hauling & Associated disposal fees. Kationx flocculants are less Expensive, non-toxic, and Non-corrosive! Simple to store and handle. Effectively Unlimited shelf lives, too!
