WEALTH MANAGEMENT

PRIVATE BANKING

INTRODUCTION

Wealth Management is an investment advisory discipline that incorporates Wealth Advisory, Financial Planning, Investment Portfolio Management and a number of grouped financial services. High Net-Worth Individuals (HNWIs), small business owners and families who desire the assistance of a qualified financial advisory specialist seek the services of “Wealth Managers” to coordinate Retail Banking, Investment Management, Estate Planning, Legal Resources and Tax Professionals. Wealth Managers can be an independent person or institutional or any qualified professional money manager who works to enhance the income, growth and tax favoured treatment of long-term investors.

The number of Ultra Affluent Individuals have been rising at a fast rate in India in fact there are over 1500 individuals with more than US 50 Million (Rs. 250 Crores of Personal Wealth) and over 700 of US 100 Million (Rs. 500 Crores). Credit Suisse Research Institute in its Global Wealth Report 2012 in a survey estimated that there are 1,58,000 millionaires in India which are likely to rise to 2,42,000 by 2017. It is estimated that individual wealth would double in the next 4 years.

The investor today is not only looking for a financial product in isolation but in a holistic manner "ONE STOP SHOP" for meeting his/her life goals and risk factors.

This important executive education program, CWM[®] Certification has been extensively remodeled for India and is designed to equip you with the skill and expertise to take your wealth management activities to the next level of professionalism.

PRIVATE BANKING / WEALTH MANAGEMENT

Wealth Management Industry one of the fastest growing disciplines of the Financial Services Sector and India is one of the fastest growing wealth management markets presently. The total HNWI population is growing at over 20% CAGR, and the value of liquid assets is expected to grow at 19.8% CAGR. The high growth rate and the prediction that India will be the third largest economy in the world by the year 2030 makes India an attractive market.

All this growth in the wealth and wealthy has generated a strong interest in the Indian Wealth Management Industry by both domestic and foreign players in the market.

Private Banking / Wealth Management is a specialized services providing one-stop shopping including highly customized and sophisticated investment management and wealth advisory services delivered to High Net-Worth Investors having liquid assets of more than USD 1 Million. Private Wealth Managers maintain a higher degree of professional knowledge advising on other than basic financial instruments like use of trusts and other estate planning vehicles, business succession or stock option planning, private equity, taxation and the use of hedging derivatives for large blocks of stock.

The wealthiest retail clients of investment firms demand a greater level of service, sophisticated product offerings and better trained front end employees than that demanded by the average clients. India's Household wealth has been steadily rising at over 8% per annum on an average since 2000. Similar to most of the developed countries the Indian Wealth is majorly invested in real assets and property. It is estimated that 85% of the wealth is invested in these assets.
