If for any reason the mare should need to be re-bred the following season, a new, non-refundable booking fee of \$200, must be paid and received before shipment each season semen is requested.

A uterine culture is recommended if you have : an older mare that has previously bred, a mare that had a difficult birth and/or retained placenta, aborted her last pregnancy or if you have any other reasons to be suspicious of her uterine health. We expect you to follow your veterinarian's recommendation.

I understand that my mare must be examined by a licensed veterinarian between 40 and 50 days after the last day bred and Rock Solid Warmbloods(RSW) and Foxworth Farm (FF) notified of her pregnancy status at that time or all live foal guarantees are null and void. A breeding certificate will be issued after the conclusion of this breeding season.

This contract guarantees return privileges for the same mare during the course of the RSW/FF breeding season. The mare owner is guaranteed return breeding privileges for one breeding seasons following the initial breeding season. A second mare may be substituted with permission of stallion owner.

Prior permission from the stallion owner must be given for Embryo transfers. If a mare produces two embryos that result in two foals that stand and nurse, a 50% additional breeding fee will be incurred.

This contract is not transferable without written permission of stallion owner. Should the mare not produce a live foal that stands and suckles, the mare owner shall be entitled to above-mentioned return privileges.

This guarantee shall only apply if the stallion owner is notified within one week of the foal's death. A statement of details by a licensed veterinarian must follow within 10 days or the guarantee becomes null and void.

This clause is also binding in case of abortion. If a mare reabsorbs her pregnancy, RSW/FF needs written verification of this fact from a veterinarian.

I understand that the mare owner shall assume all responsibility for the condition of the mare and bear all risk of loss or damage to the mare whether by death, disease, injury, infection or otherwise, and by any cause whatsoever, and therefore agrees to hold the stallion owner, keeper or agent harmless for any and all damages associated therewith.
