The contractor of this project had many excuses on to why certain item were not complete with the engineer backing up the contractor. The sidewalks were to be 4 inches, with the contractor stating that at sections the sidewalk will widen out. Mr. Light went and spoke to workers that were doing the work, some of them had attitude with him. This project was not done the way Mr. Light would have completed it or to the plans. The trees need to be trimmed by the sidewalk. The 4 inches were the turn is was supposed to be 8 inches so semis would not destroy, semis are already tearing up this section. Paul Skaff asked what the specs for this project was as the contractor would have had to correctly bid on the project. Mayor Nagy thanked Mr. Light for all he had done with this project.
