

## Vanity & Closets

The lady's vanity and closet are a vision of elegance, with hickory floors, chandeliers, and chandelier sconces creating a luxurious ambiance. The vanity includes a Brown luxury safe with LED lighting and a custom drawer layout to protect your most valuable items. Thoughtful details, like a dedicated drawer with built-in outlets for blow dryers, flat irons, and curling irons, keep everything organized and out of sight.

The custom woman's closet is a dream come true, featuring glass doors to beautifully display your wardrobe, purses, and accessories. Dedicated spaces for shoes, scarves, and belts, along with drawers for lingerie, sweaters, and jeans, ensure every item has its place. Ladders on either side of the closet provide easy access to additional storage above the doors.

The man's closet exudes a warm, masculine charm with knotty alder wood adorning the dresser, shelves, and walls. Hickory flooring ties the space together, creating a refined yet functional area for organizing and storing wardrobe essentials.
