Screw less Lever lid® Connector

The fastest way to connect up to **10A 230V**

Takes any 3 core or 2 flex and twin & earth

The Lever lid makes the connector completely screw less- it has colour terminals and clear lid for fast fitting & inspection. With 2 Loop connections it can be used as a junction box, plus a load connection done on the floor. There are 3 poles all colour coded

Male + Female plug & play IP50 connector that doesn't require enclosure.

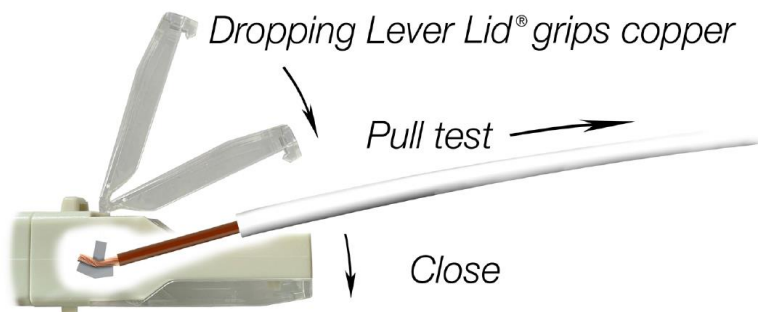

FAST Lever lid®
