ASSOCIATION, INC.**

RECITALS

A. The Cortina Property Owners Association (the “Corporation”) is a Colorado nonprofit Corporation, duly formed under the laws of the State of Colorado.

B. The Corporation was established by the Articles of Incorporation of Cortina Property Owners Association, Inc., filed with the State of Colorado on January 28, 1974, to be the homeowners association for the Mesa Cortina West Filing No. 1, Cortina Filing No. 1, and Mesa Cortina Filing No. 1 Subdivisions (the “Community”), to administer and enforce the Declarations of Protective Covenants for the Community (the “Declarations”), including (i) exercising architectural and landscaping control, (ii) preserving water and other resources, (iii) negotiating as necessary for improved or expanded services for the Community, (iv) acting to preserve the intrinsic and natural beauty of the land and to act, and (v) generally promoting and protecting the health, safety, welfare, and common benefit of the Members as residents of the Community.

C. Any person on becoming an owner of a Lot or building site (as defined in the Declarations) within the Community shall automatically be a Member of the Corporation, and be subject to these Bylaws. Individual Members are referred to herein as “Members” or owners, and all Members may be referred to as the “Membership.” Members will be considered to be Members in good standing if and only if all of the dues/assessments/or fines levied by the Board of Directors of the Corporation are paid by the Member in full.

D. These Bylaws (the “Bylaws”) are Amended and Restated in order (i) to reflect the Members’ acknowledgement and understanding that expanding Board membership will allow more participation by Members in the community; (ii) to clarify and expand the process available to keep Members informed of Corporate matters; (iii) to clarify the process afforded Members of the Corporation at meetings and to encourage Member participation in all Corporate matters (including attendance at Member meetings and Board meetings); (iv) to clarify and enumerate the powers of the Board; to (v) to eliminate historic references that no longer apply to the ongoing operation of the Corporation; and (vi) to ensure current Board of Director practice is consistent with the Declarations, as it may be amended from time to time.

E. These replace all versions of the Bylaws adopted or amended prior to the date of this version of the Bylaws.

ARTICLE 1 DIRECTORS

Section 1. BOARD COMPOSITION

The Board of Directors shall consist of no less than five (5) or more than nine (9) members. The Board of Directors may be referred to collectively herein as the “Board” and individual Board members referred to as “Directors”.

Section 2. BOARD DUTIES AND AUTHORITY

It shall be the duty of the Board to exercise the general supervision over and management of the affairs of the Corporation and to receive and pass upon the reports of the Corporation president, secretary and treasurer, to audit all bills and accounts against the Corporation and direct the president and other officers thereof in the general conduct and business of the Corporation as follows:

- (a) To administer and enforce the covenants, conditions, restrictions, easements, uses, limitations, obligations and all other provisions set forth in the Declarations, the Articles of Incorporation, and these Bylaws;
- (b) To expend Corporation funds to keep in good order, condition and repair the Community and the real property located adjacent to the Community, and items of personal property, if any, used in the enjoyment of the entire Community. The Board may expend funds to address issues unique to the mountain community, including without limitation expenditures to mitigate the impact of forest infestation of pine beetles, expenditures related to the control and mitigation of the impacts of noxious weeds; expenditures to control and mitigate natural hazards (e.g., forest fires, or slash removal after severe windstorms) for the Community and for immediately adjacent lands, and expenditures to purchase, maintain, enhance or preserve open space located adjacent to the Community, and such other expenditures the Association determines appropriate to enhance and preserve the natural beauty and ambiance of the Mesa Cortina Community;
- (c) To obtain and maintain to the extent obtainable all necessary policies of insurance;
- (d) To levy and collect the Corporate dues and to refund, at the Board’s discretion, any excess dues to the Members and to levy and collect additional assessments when the Board determines necessary to do so in order to meet increased operating or maintenance expenses or costs, or additional capital expenses, or because of emergencies;
- (e) To impose penalties and collect dues in default by suit or otherwise and to enjoin or seek damages from a Member. Any dues or assessments which are not paid within thirty (30) days after its due date shall be delinquent. If an assessment or dues becomes delinquent, the Board, in its sole discretion, may take any or all of the following actions:

- (i) Assess an interest charge from the date of delinquency at the yearly rate as the Board may establish, not to exceed twenty-one percent (21%) per annum on all outstanding balances;
- (ii) Bring an action at law against any Owner personally obligated to pay the delinquent Assessments; and
- (iii) Once a legal judgment was awarded to the Association, file a statement of lien with respect to the Lot and proceed with foreclosure. In the event of a foreclosure, the Owner shall be liable for the amount of unpaid Assessments, any penalties and interest thereon, the cost and expenses of such proceedings, the cost and expenses for filing the notice of the claim and lien, and all reasonable attorney's fees incurred in connection with the enforcement of the lien.
- (f) To protect and defend the Community from loss and damage by suit or otherwise;

Section 3. ELECTION OF BOARD MEMBERS

The Board of Directors shall be elected from Members in good standing of the Corporation. The election of a member to the Board of Directors can occur at any regular meeting of the Corporation. A full Board of nine (9) Directors shall be elected if there are a sufficient number of candidates. Each Member in good standing shall be entitled to one vote for each vacancy on the Board of Directors. The term for each elected Director shall be two years with the exception that a director can be elected to a shorter term if that is helpful to maintain staggered terms among the directors. Directors elected to fill a vacated position shall be elected either for a term of one (1) year or for a term until the next owners' meeting.

If there are more nominees than Board vacancies, a vote will be taken by either a ballot distributed to those present or a show of hands. Each owner can cast votes for distinct candidates with no more than one vote for any candidate and with the total number of candidates voted for being no more than the number of vacancies. The candidates with the most votes shall be elected to fill the vacancies. If the number of nominees is smaller than the number of vacancies, then there will be a yes/no vote on each candidate individually.

Section 4. BOARD VACANCIES

If a vacancy shall occur in the Board which would reduce Board membership to less than five (5), the Board shall fill such vacancy through the appointment of a Member willing to serve on the Board until the next regular meeting of the Corporation. All vacancies, temporarily filled or not, shall be filled by election of the Membership as provided in Section 3.

Section 5. BOARD MEETINGS

The Board shall meet at such time as they shall, from time to time, determine. A meeting may be called at any time by the President or any three Directors, to be held at the time and place designated in the call and notice thereof, upon two days written notice served personally, by courier, regular mail, telephone, fax, electronic mail or other generally accepted electronic methods of notice.

Section 7. BOARD QUORUM

At all meetings of the Board of Directors, a quorum for the transaction of business is established if 50% or more of the Directors are present. Proxies cannot be used at Board Meetings. A Director may attend (i) in person, or (ii) by using electronic or telephonic communication; whereby such Director may be heard by other attendees at such meeting, and may hear the deliberations of the other Directors on any matter properly brought in such meeting. If a Director attends such meeting telephonically, the vote of such Director shall be counted and the presence of such Director noted as if the Director was present in person on that particular matter.

Section 8. OPEN MEETINGS

Board of Directors meetings shall be open for attendance by all Members in the Corporation, provided the Board shall have the discretion to hold an Executive Session as provided in this Article, Section 9.

Section 9. EXECUTIVE SESSION

The Board, or any committee, may hold an executive or closed door session and may restrict attendance to Board members and such other persons requested by the Board during a regular or specially announced meeting. The Board President or committee chairperson must announce the matter of discussion for the executive session, referring to

the specific item in (a) to (e) below. No formal policy may be adopted or decided in executive session. Minutes shall indicate an executive session was held and the general subject matter of the session. Only the following matters may be discussed at such an executive session:

APPENDIX 1

ARCHITECTURAL REVIEW REQUIREMENTS AND GUIDELINES

These Site and Building Requirements and Guidelines are for construction in Cortina, Mesa Cortina and Mesa Cortina West. They implement and expand on those in Declarations of Protective Covenants. The objective is to guide homeowners in maintaining and enhancing the safety, value and environment of the Community through a fair and reasonable review process.

The requirements and guidelines are not intended to be all inclusive or exclusive but rather to serve as a guide. Where issues are not addressed, they will be reviewed on a case by case basis.

No improvements shall be constructed, erected, placed, applied or installed upon any lot unless plans and specifications have first been submitted and approved in writing by the Architectural Review Committee (ARC).

- (a) Routine maintenance (e.g. Exterior painting/staining or re-shingling of a roof) of an existing structure which does not significantly change the appearance or materials of the structure shall be deemed to have been approved by the original application to build and does not require additional approval.
- (b) Interior remodeling in an existing structure that causes no changes to the external facade and does not change the count of either bedrooms or bathrooms does not require approval by the ARC.

GENERAL REQUIREMENTS

These requirements are designed to protect the value of the properties in Cortina, Mesa Cortina and Mesa Cortina West assuring a harmonious architectural style among the dwellings currently in place and any dwellings which will be constructed. To this end, all projects will be evaluated for approval upon the following general criteria:

- (a) Relationship of proposed improvement(s) to the lot on which it will be constructed with regard to lot lines, topography, and grades.
- (b) Harmony of external design to itself and to other structures throughout the Community.
- (c) Fitness of proposed improvement(s) to climate of the area.
- (d) Proposed improvement(s) adheres to the specific structural requirements as specified, i.e. size, shape, architectural design, color, etc.
- (e) The expectation is that any improvement shall be completed and a Certificate of Occupancy obtained within 18 months of the date the project is approved unless some exception is granted in writing by the Association through the Committee. The ARC may recommend to the Board to impose a fine or

penalty up to 50% of the construction deposit if an owner has not completed construction within three years of permit issuance.

1. SITE REQUIREMENTS

(a) PARKING – Because of County mandated on-street parking prohibition, each dwelling shall provide at least 3 parking spaces on the property.

(b) SNOW STORAGE – Adequate snow storage shall be provided on each lot.

(c) LANDSCAPING – Because of the expense and availability of water, irrigation of intensive sodded lawns with sprinkler systems shall not be allowed. Disturbed land around the building site shall be reseeded with natural grasses, ground cover, or wood chips.

(d) FENCES – Fencing in general is discouraged in Mesa Cortina. These guidelines on fencing were created to preserve the open rural quality of Mesa Cortina while acknowledging that there are situations where a fence is appropriate so that residents can protect children or contain their animals. Decisions on fences are by the Architectural Review Committee (ARC) and made on a case-by-case basis. Any proposal for a fence must be submitted to the ARC and the fence can be erected only after ARC approval in writing. Any fencing shall conform to the following:

(1) A fence shall not be allowed if its purpose is to indicate the boundary of a property or serve as a division between properties. Fencing shall not extend beyond the county-mandated setbacks on any side of the property.

(2) The area of the fenced-in region shall not exceed 900 square feet and the height of the fence shall nowhere exceed six feet. Fenced-in land under a deck or overhang is not included in the 900 square feet.

(3) The fencing material and color should be consistent with the design of the house.

(4) The fence should be constructed of wood, or other materials as deemed appropriate by the ARC.

(5) A fenced-in area should be placed at the rear of the property or other location that serves to screen the enclosure from the street and neighboring homes.

(6) All fences shall start and end adjacent to the house or garage; one side of the enclosed area should coincide with a wall or walls of the house or garage. Free-standing fences are not allowed.

(7) Trees shall not be used as fence posts.

The following are prohibited:

- (i.) Chain-link, cyclone, or plastic fences.
- (ii.) Any fence with attached barbs, sharp points, or any material that could cause harm to people or animals.
- (iii.) Any fence designed to produce an electric shock, except for a temporary fence intended to train a dog wearing an electric receiver, but not directly electrified to shock on contact.

2. STRUCTURAL REQUIREMENTS.

(a) SIZE – Dwellings shall be a minimum of 1,800 square feet of living space, with a minimum of 900 square feet on the main level exclusive of basements, porches, and garages.

(b) ROOF LINES – There shall be multiple roof lines with functional offsets in the walls. It is recommended that the main roof slopes be a minimum of 5/12. Variations may be approved on a case-by-case basis.

(c) EXTERIOR SIDING AND TRIM – The use of contrasting or accent material is encouraged. The following exterior finishes are prohibited: exposed unfinished concrete, T1-11 manufactured siding, aluminum siding, vinyl siding, or materials of similar composition to the preceding.

(d) EXTERNAL COLOR – Exterior colors of the roof, siding, trim, window frames, skylight frames, doors, gutters, and so on shall be tones that blend with the natural environment.

(e) GARAGE(S) – Each dwelling will have a minimum of one (1) attached, single car garage. Detached garages will be considered on a case by case basis in cases where an attached garage may be problematic. Garages shall be integrated into the home's existing architecture.

(g) DECK(S) – Each dwelling shall have at least one (1) exterior deck or patio (walkways, porches, etc.) with an area totaling not less than ten percent (10%) of the square footage of the interior living space.

(h) WINDOWS AND PATIO DOORS – Large windows and interesting window shapes are encouraged. Mill finished aluminum windows are prohibited.

(i) SOLAR – Passive solar applications using greenhouses, atria, skylights, airlock entries, etc. are encouraged. Active solar panels may be permitted if mounted flush to the roof or used as accents such as solar awnings. Alternative configurations can be approved with reasonable aesthetic provisions.

(j) WIND TURBINES – Wind turbines are prohibited.

(k) FACTORY COMPONENTS – The use of "manufactured", modular, or factory produced structures is generally prohibited in Cortina, Mesa Cortina and Mesa Cortina West. The Architectural Review Committee may approve the use of these components if the exterior design meets the criteria set forth herein. Components must be placed on the foundation within 72 hours after arrival at the site.

(1) Before the Committee approves the use of any manufactured, modular, or factory components, they shall receive from the owner a construction schedule showing the projected date of the foundation inspection and the anticipated delivery date of the factory component(s).

(2) Factory components may be stored only on the owner's lot, not on open space or streets within the Community.

(3) To assure compliance with all requirements, an additional deposit of \$5000.00 is required. This is in addition to the initial construction deposit as outlined in Appendix 2. Upon the timely installation of factory components, this additional \$5,000 deposit shall be returned. The initial construction deposit as outlined in Appendix 2 shall remain on deposit until the completion of the project and the verification by the ARC that the property was completed as submitted.

(l) EXTERIOR LIGHTING – Any exterior lighting must use dark-sky compliant fixtures.
