

MESA CORTINA WATER AND SANITATION DISTRICT RESIDENTIAL ¾" AND 1" METER ASSEMBLY

PARTS SUPPLIED: (1) water meter, (1) transponder and (1) meter yoke

CUSTOMER SUPPLIES: (2) ball valves, (1) pressure reducing valve (PRV),
#6 solid strand copper continuity wire and grounding
clamps

The water meter shall be the same size as the service line that enters the building. The water meter shall be installed immediately after the service line enters the building. The water meter will be installed in an accessible, heated and lighted location that protects the meter from freezing. The meter shall be installed in a horizontal position.

To schedule an inspection or to ask questions regarding the installation of the water meter assembly please call the District Manager at 970-389-0109.

Inspections require 48 hours prior notice.
