VÍNO ZE SVAHŮ DEVÍTI ÚDOLÍ

We do not use the name claret or blanc de noirs, we simply named the wine White Blaufränkisch. Yes, this is the same variety from which we make our Rosé Trkmanska, Fonkovka, Sexta, Verjus, Blaufränkisch, Karmazin or Reserva. We only limited the contact of the skin with the must in the technology so that the leaching of the dye was minimal. Technologically not very simple, but we enjoy the result immensely.
