Gentlemen:

Enclosed please find the final agreement which establishes the Florida Insurance Fraud Education Committee. The document was signed by all committee members in November.

I would like to point out that Melissa Russell who is a crime intelligence analyst in Director Poindexter's office, was very instrumental in making some additions to the agreement, those being the last three paragraphs found on page 3 and 4, which allowed the approval of the Department of Insurance legal staff, thereby, allowing Director Poindexter to sign the agreement.

I think it goes without standing that we are all very pleased and excited about the agreement and the new direction that the joint DIF/SIU seminar is taking and I truly feel that this year's seminar will be an outstanding program that we all can be proud of. I would like to thank you all for your hard work and your patience regarding bringing this agreement forward and would like to wish you all a very happy and joyous holiday season.

Sincerely,

Bill Watson
SIU Claim Specialist
State Farm Insurance Companies
Chairman, Florida Insurance Education Committee

RE: DIF/SIU Final Agreement

I would like to take this opportunity to acknowledge your contribution in procuring the Agreement between the Presidents of the Florida Chapters of the International Association of Special Investigation Units and the Division of Insurance Fraud, which formed the Florida Insurance Fraud Education Committee.

You have been instrumental in the formulation of this agreement, thus allowing the DIF/SIU seminar to take new direction. Thank you for your dedication to the Division and support of its goal to eliminate Insurance Fraud.

RP/kb
