

# 7K SHARE PLAN

## 1. WHAT IS A CYCLE?

For every 500 points achieved weekly on both your left and right teams, you could earn \$500 USD.

To get you started, we payout \$250 USD through a Starter Cycle of 250 points, if you're unable to hit that first 500 points.

Depending on the size of your organization and **the requirements you've met**, you could earn multiple Regular Cycles within one week.

## HOW DO I EARN POINTS?

### New preferred customer sales

- +150 Legacy
- +50 VIP
- +20 Basic

### Recurring sales from your team

- +15-20 AutoSaver Sales

**Additional points** can be earned from purchases on your e-commerce website, Coin Drops, customer benefits, & more!

## UNDERSTANDING CYCLE POINTS

After cycles are calculated, equal points are reduced in each leg for payments. Points remaining in the strong leg are maintained and continually carry over. Points in the lesser leg reset to zero after any weekly cycle(s) are achieved. Inside of a week, if you refer a new preferred customer, we allow points to roll over from the lesser leg into the next pay period.

## LOYALTY POINTS

Business Builders and preferred customers may use these to claim selected products. Starting at \$500 USD max pay, points in your lesser leg that are under your max pay potential, but fall between cycles, convert to loyalty points. You will earn 50 points by onboarding a new customer, 30 points for each of your own AutoSaver orders, and new customers receive 100 points for choosing an AutoSaver for the first time.

## 2. WHAT ARE THE REQUIREMENTS?

### Active Personal Customers

are people you brought into the organization.

### Personal Group Growth

### WHAT IS AN ACTIVE CUSTOMER?

Personal Qualifying Volume (PQV) is earned through personal product purchases, preferred customer membership sales, or e-commerce sales. Must have minimum 15 PQV every 36 days for active status. All accumulated cycle points will be forfeited if not qualified in 45-day period.
