A few things to note:

- **THERE IS NO CODE NEEDED!**
- If there are multiple grades of a coin, you'll need to select the one you want. Make sure it's highlighted. The system defaults to the PF or MS69, so if you want the PF or MS70, you need to select it.

What do you get when you combine steam engines, mechanical gears, and Victorian fashion? Steampunk, of course! Inspired by science fiction and first mentioned in the 1980's, Steampunk is basically what people 200 years ago envisioned the future to look like. It's a cultural phenomenon that has influenced art, film, fashion and more. Not to mention, it's just plain cool. And this coin is no exception. I WANT ONE

- You need to act FAST! The reason we do coin drops is because so many people want a limited number of coins. This is the fairest way we have found to offer these coins. If you see the button underneath a coin flickering between "I Want One" and "Sold Out" it's because people are claiming and then changing their minds about the last few coins.

The screenshot shows a coin drop interface. At the top left, there is a coin icon with the number '0' and a timer showing '59m 52s'. In the center, the '7k' logo is displayed above two small thumbnail images of the gold notes. At the top right, there is a circular profile picture of a person with sunglasses. Below the thumbnails, the title reads '7 Pillars of Humanity UNCUT 7/200th oz Gold Notes in Gold Frame Signed By Tom Holdman'. The price is listed as '\$1,199.99' with '15 Points' underneath. A large, detailed image of the gold notes in a gold frame is shown below the price. At the bottom, a red button with a sad face emoji and the text 'SOLD OUT' is visible.

😞 **SOLD OUT**

- **PRO TIP:** People continue to "unshop" throughout the duration of the coin drop. Don't give up if the coin you want sells out in minutes (or seconds!). People will grab them and then change their minds so coins often become available all throughout the drop. KEEP TRYING!
