

AQUABASE

BUILDING A BETTER CLIMATE

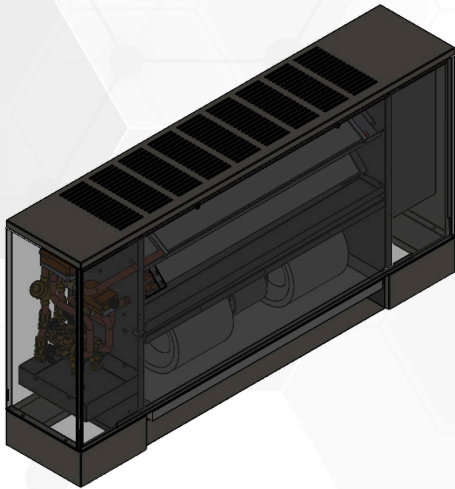

Advanced Solutions for Heating and Cooling.

Versatile Fan Coil and Cabinet Unit Heater Solutions

VISTA

Efficient airflow ranging from 200 to 1200 CFM

*Tailored to meet diverse building requirements
Compliant with green certifications like LEED and AHRI*

Cooling

Heating

Transportation Hubs

Commercial Buildings

Residential Applications

Healthcare Facilities

Schools and Universities

Conference Centers

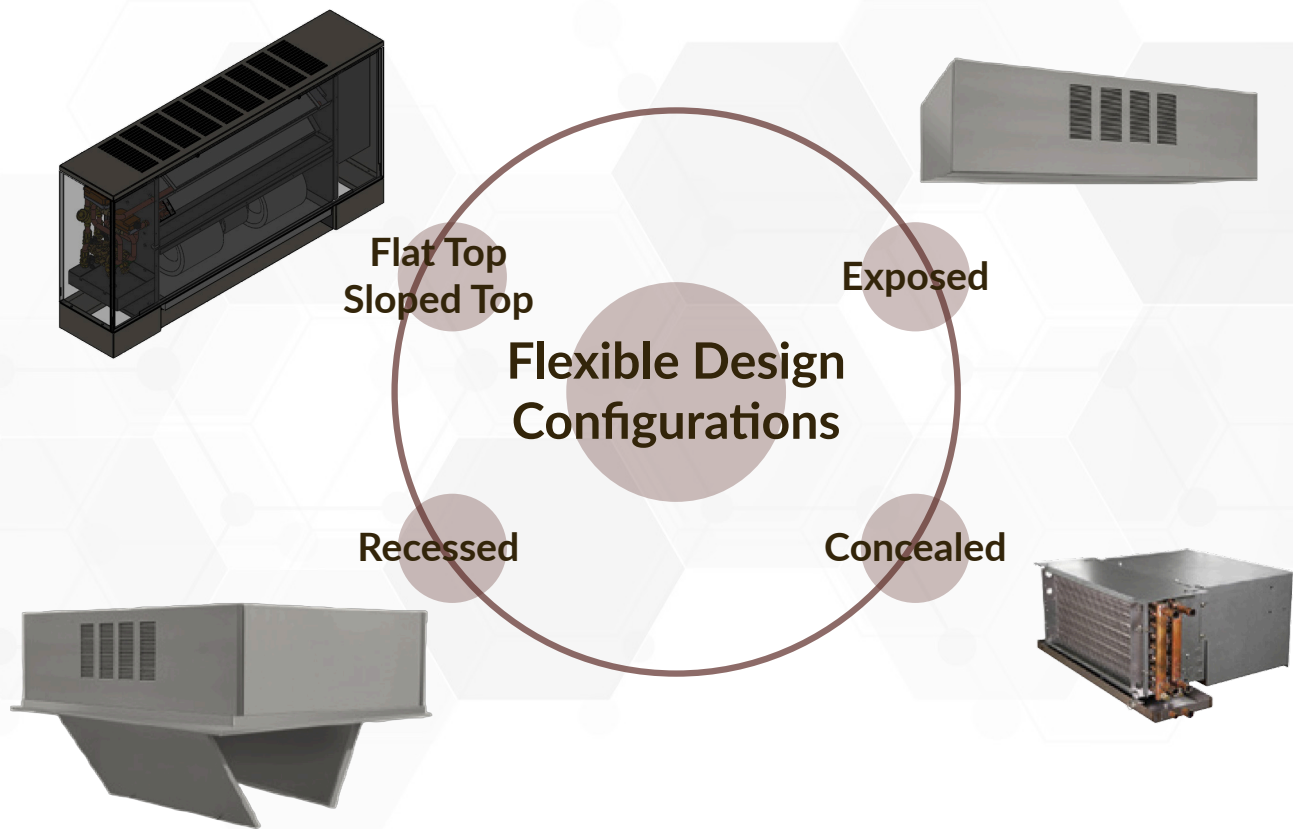

BUILDING
A BETTER CLIMATE

INNOVATIVE HVAC SOLUTIONS FOR MODERN SPACES

Key Features

- **Quiet, Reliable ECM Motor:** Energy-efficient and dependable performance.
- **Versatile Sizes:** From 200 to 1200 CFM to suit your project needs.
- **Compact & Space-Saving:** Perfect for ceilings and walls in tight spaces.
- **Improved Air Quality:** Consistent airflow with advanced filtration.
- **Customizable:** Tailored to meet your building's unique needs.

**Smart Control, Low-Temp
Heating, Energy Efficiency,
Carbon Footprint Reduction**

Coil Options:

Choose from 2, 3, or 4-row main coils and 1 or 2-row preheat/reheat coils.

Valve and Piping Pkg:

Factory-assembled and tested for faster installation.

Piping Packages:

Basic (PPB), Advanced (PPA) with strainer, Premium (PPP) with circuit setters, or Elite (PPE) with strainer and blow-off valve.

Fan Motors:

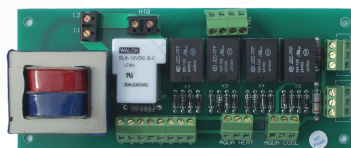

High-efficiency ECM motors or standard PSC motors available.

Electric Heating:

Auxiliary or full heating options with single-point power connections.

Drain Pans:

Durable options include sloped stainless steel & Auxiliary Drain Pan.

Controllers:

Programmable thermostat, PCB with PWM, optional sensors, bipolar ionizer, and more for precise control and performance.

Optional Features:

Custom Finish

Tailored finishes to match any decor for a sleek, personalized look.

Wall Plate

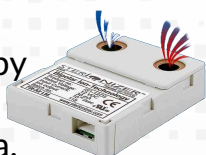

Stylish, decorative wall plates to complement your space.

Condensate Switch

Automatically manages condensate drainage for efficient operation.

Bipolar Ionizer

Improves air quality by neutralizing airborne particles and bacteria.

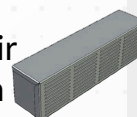

Thermostat

Provides precise temperature control for enhanced comfort.

Fresh Air Box

Seamlessly adds fresh air for improved ventilation and air quality.

TECHNICAL SPECIFICATION

MODEL	Coil Row	SCFM	Water Flow Rate	Total Cooling Capacity	Sensible Cooling Capacity	Total Heating Capacity
			GPM	BTU/h	BTU/h	BTU/h
VFC02	3	209	1.3	5860	4538	17398
	4	200	1.4	6932	5009	19650

	4	1020	6.8	40199	27446	101763

Why Choose Vista Fan Coil Units?

- Energy Efficiency: Low operating costs with advanced motor technology.
- Quiet Performance: Ideal for noise-sensitive environments like hotels and hospitals.
- Sustainability: Supports green initiatives and certifications.
- Ease of Maintenance: Simplified access for servicing and long-lasting components.
- Application Flexibility: Perfect for residential, commercial, and institutional spaces.

Advantages of Choosing Aquabase Products:

Customization | Improved ROI | New Builds & Retrofits | After-Sales Support
| High Quality & Price
