**200 by
2030**

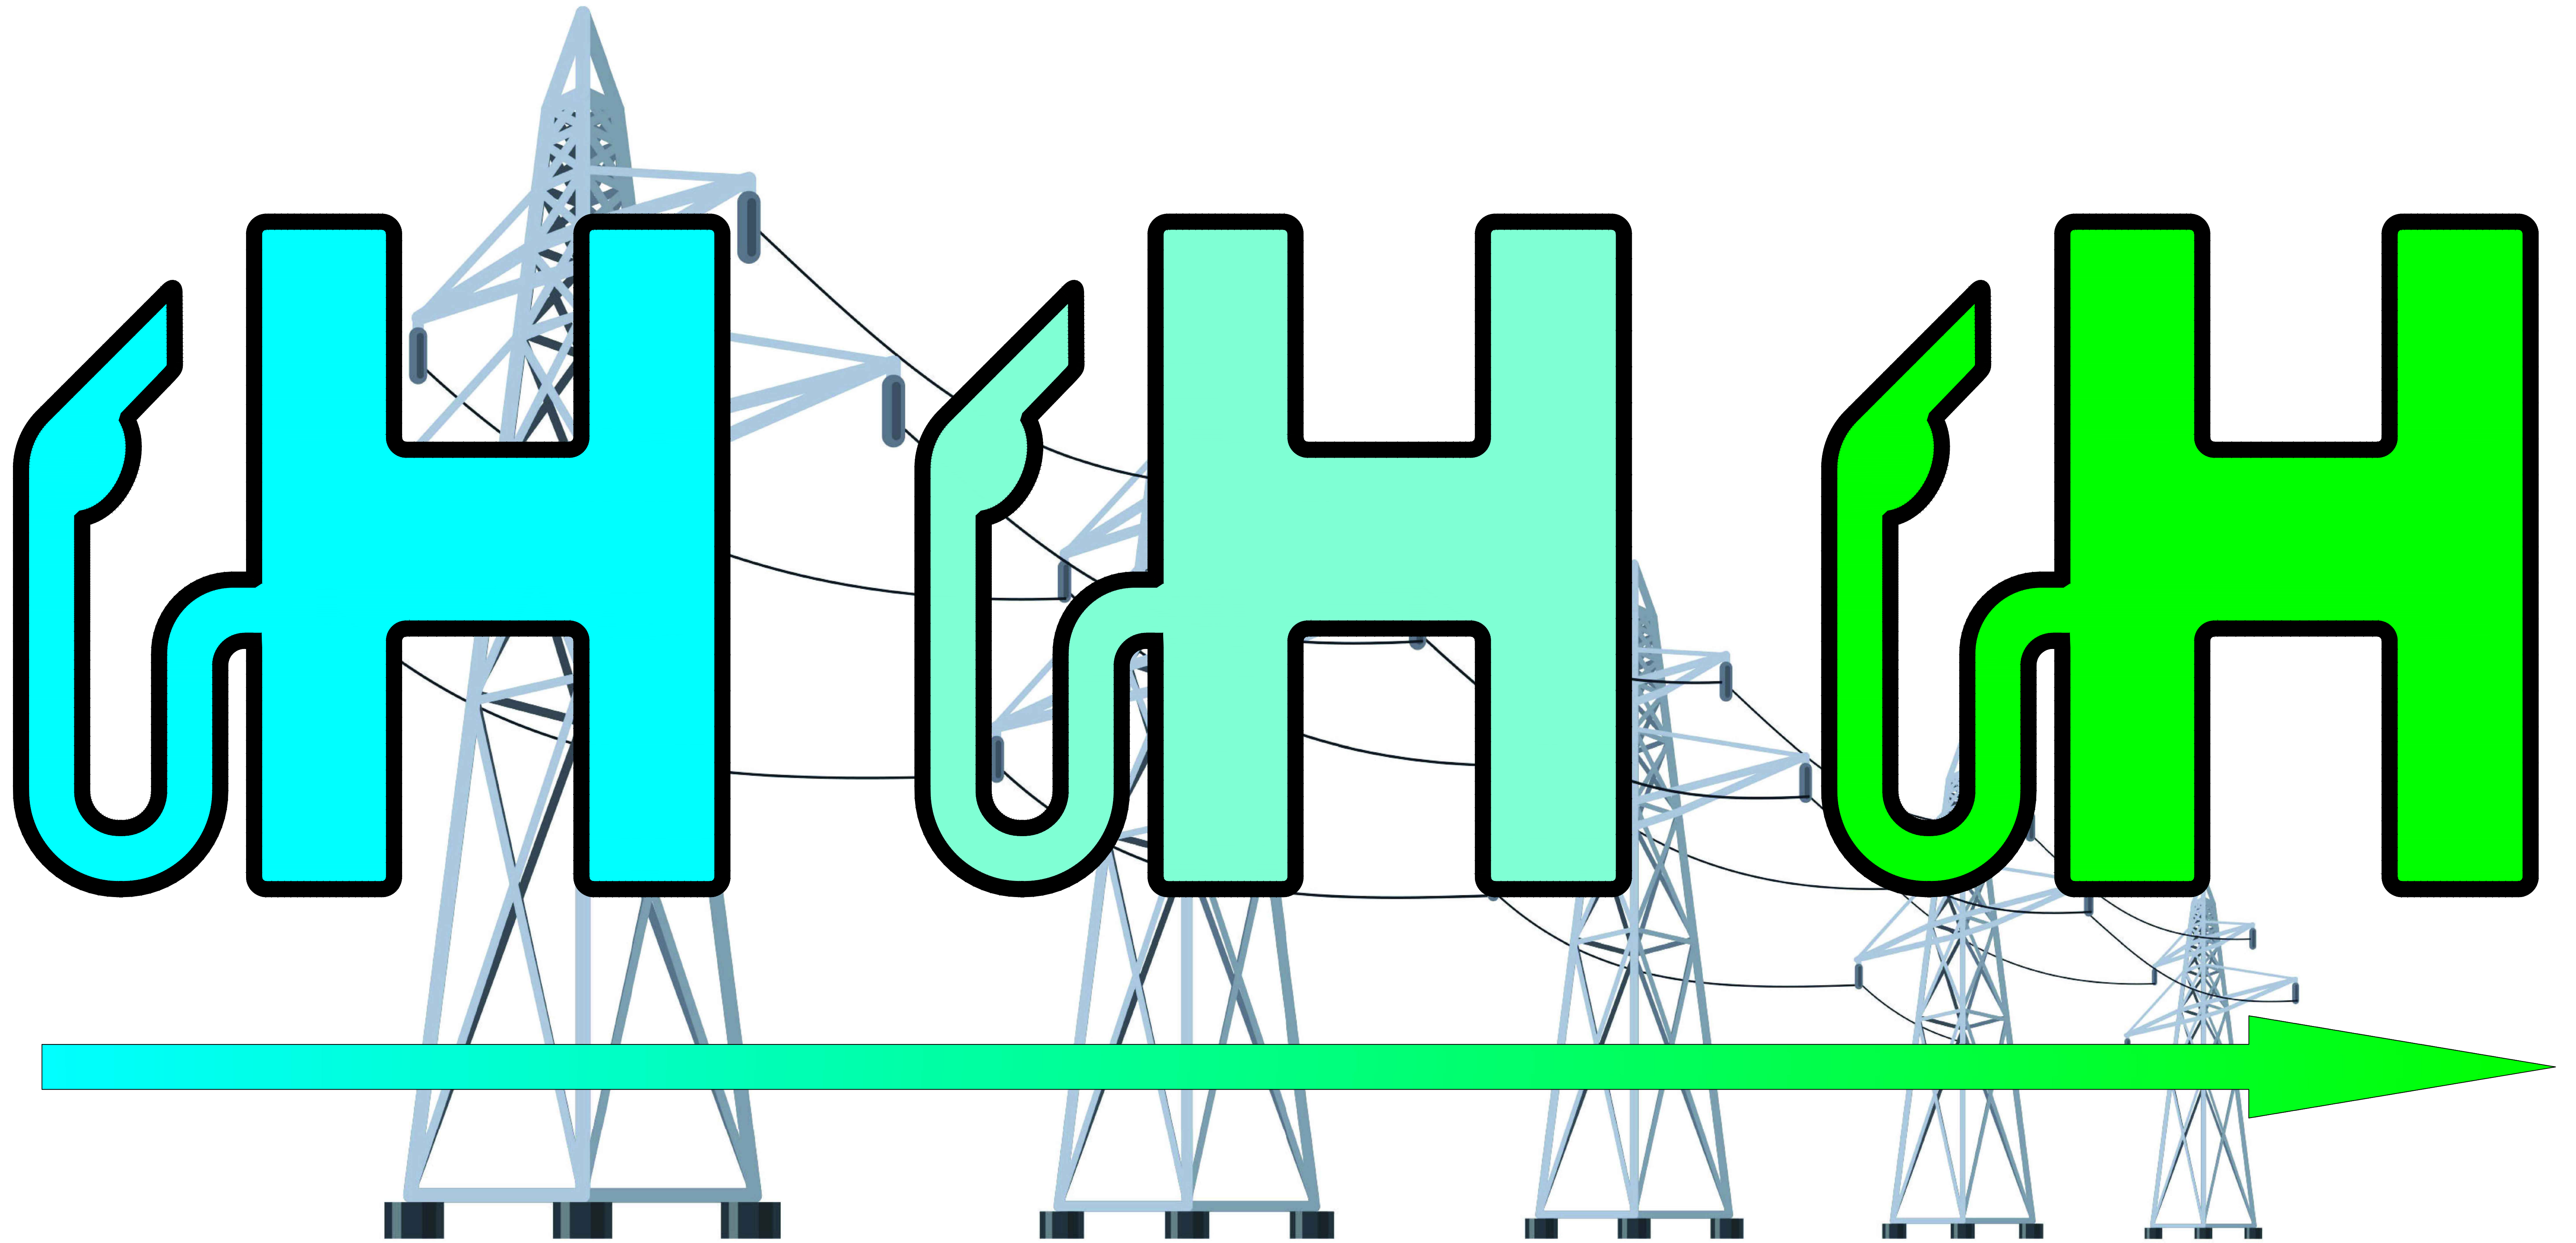

Steadfast and Visionary Goal:
At least 1,400 light-duty stations by 2045. The purpose of this goal is to provide market confidence to manufacturers and station developers.

Major Milestone:
At least 200 light-duty stations by 2030. By achieving this milestone, we provide hope to current and future FCEV drivers.

Where we are:
