 COLLAGENILUSA

Collagenil Resurfacing is an advanced formulation for home use. Designed to dramatically reduce fine lines and wrinkles of the face and neckline, to make the skin radiant and toned, made with combined acid exfoliants and antioxidants (Alpha Hydroxy Acid + DMAE) designed especially to expedite cell turnover. Created specifically to be a one-step booster to the daily beauty routine, it is a targeted and comprehensive skin care solution formulated from sophisticated, active ingredients and complex molecules selected after careful research.

- **Efficacy of combined peels with Mandelic Acid and Glycolic Acid on skin luminosity and texture.**

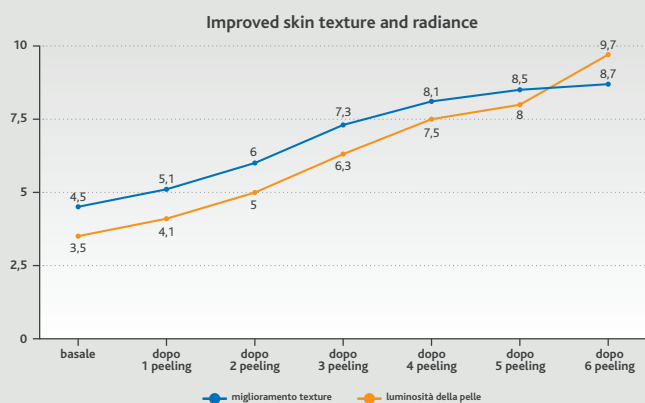

TEST PERFORMED ON

50 women

Presence of fine lines and dull complexion

Age between 25 and 65 years old

T0 vs T1, T2, T3, T4, T5, T6.
