

CLEANSING GEL

PRODUCT INFORMATION SHEET

GENERAL INFORMATION

Product description: Cleansing gel formulated with non-foaming, gentle and biodegradable surfactants. The combined action of glycolic acid, lactic acid and **Regenine**, a mix of fruit acids, ensures thorough cleansing in order to prepare the skin for exfoliation treatments. Enriched with pro-vitamin B5 and Saccharide isomerate, with softening and moisturizing properties.

Manufacturer: PDT cosmetici s.r.l. viale Cavalieri del Lavoro, 45-47 70017 Putignano (BA)

Telephone number: T. +39 080 4931509

Ingredients: Aqua [Water], Polyglyceryl-4 caprate, Lauryl glucoside, Glycerin, Panthenol, Saccharide isomerate, Lactic acid, Glycolic acid, Citric acid, Pyrus malus fruit extract [Pyrus malus (Apple) fruit extract], Tartaric acid, Citrus limon fruit extract [Citrus medica limonum (Lemon) fruit extract], Triticum vulgare bran extract [Triticum vulgare (Wheat) bran extract], Vitis vinifera skin extract [Vitis vinifera (Grape) skin extract], Benzyl alcohol, Acrylates/C10-30 alkyl acrylate crosspolymer, Sodium hydroxide, Parfum [Fragrance], Salicylic acid, Tetrasodium glutamate diacetate, Sorbic acid, Sodium citrate, Sodium benzoate, Potassium sorbate.

USE: Apply, morning and evening, to previously moistened face and massage with circular motion. Rinse thoroughly with lukewarm water.

FUNCTIONAL SUBSTANCES

SACCHARIDE ISOMERATE: It is a regulator of skin hydration based on sugars of plant origin that form complexes similar to those present in the surface layer of the epidermis. These substances bind water molecules ensuring a constant rate of hydration in the skin.

PANTHENOL (pro-vitamin B5): In the skin it becomes pantothenic acid and has a strong moisturizing, soothing, restructuring and energizing action. It promotes the energy metabolism of skin cells and their optimal nutrition.

GLYCOLIC ACID: It belongs to the category of

alpha hydroxy acids. Thanks to its small size it is able to penetrate the epidermis and act by exfoliating the skin, promoting, in this way, cell renewal.

LACTIC ACID: Lactic acid is an acid belonging to the category of alpha hydroxy acids, substances able to break bonds that are created between keratinocytes, helping skin peeling and cellular tournover. It is also an excellent moisturizer. Also suitable for skin that tends to redden easily.

REGENINE: Ingredient bioliquefied by a mix of fruit acids (Apple, lemon, grapes) and wheat bran. In vivo and in vitro tests show that this active ingredient promotes skin renewal (55% in three days and 83% in six days) able to softly remove the cornecitis by the stratum corneum.

CLEANSING GEL

PRODUCT INFORMATION SHEET

WARNINGS:

- Keep out of reach of children and away from heat and direct sunlight.
- Avoid direct contact with eyes and mucous membranes.
- Not suitable for children under 3 years of age.
- It is advisable to carry out a preliminary test on a limited area to evaluate personal sensitivity. Any itching sensations may be due to the intrinsic characteristics of the product; if it is persistent, suspend the application and remove with plenty of cold water.
- Close the container after use.

STORAGE

Optimum conditions: store the product in well-ventilated and dry place, away from light and heat sources, at temperatures between 15 °C and 25 °C

TRANSPORT

Optimum conditions: the product should be carried at temperatures between 15 °C and 25 °C, away from light and heat sources.

Special provisions: the product is not classified as dangerous. Therefore, transport does not have to follow the provisions of ADR (road), RID (rail), IMO (sea), ICAO / IATA (air).

(For cosmetic products that can be classified as dangerous - e.g. flammable perfumes, aerosol products, hair dye products, hair removal products, etc. - transport must be carried out by authorized companies, in accordance with ADR / RID / IMO / ICAO / IATA provisions. In these cases, the product must be transported in suitable containers of compatible material. The staff must also be trained at a level matching their duties and responsibilities in accordance with regulations relating to the transport of dangerous goods.)

ACCIDENTAL CONTACT OR MISUSE MEASURES

Eye contact: in case of accidental contact, rinse with plenty of water. If eye irritation persists, seek medical advice.

Ingestion: in case of ingestion of excessive amounts of product, seek medical advice.

DISPOSAL CONSIDERATIONS

Empty containers may be disposed of after use in accordance with the labelled instructions.

OTHER INFORMATION

Unless otherwise specified, the list of ingredients is not intended to be definitive for the preparation of the label.

The information and instructions above are based on our knowledge at the time of preparation of this sheet.
