## VITAMIN C MASK WITH ALGINATES

### PRODUCT INFORMATION SHEET

#### GENERAL INFORMATION

**Product description:** liquid activator + powder alginates

**Manufacturer:** PDT cosmetici s.r.l. - Viale Cavalieri del Lavoro, 45-47 - 70017 Putignano (BA)

**Telephone number:** T. +39 080 4931509

#### Ingredients:

##### Activator

Aqua [Water], Glycerin, Panthenol, Citrus aurantium amara flower water [Citrus aurantium amara (Bitter orange) flower water], Sodium ascorbyl phosphate, Cucumis melo fruit extract [Cucumis melo (Melon) fruit extract], Hydrolyzed elastin, Parfum [Fragrance], Deceth-7, Lactic acid, Calcium chloride, Disodium EDTA, PPG-26-buteth-26, Ethylhexylglycerin, Pentylene glycol, Limonene, CI 19140 [Yellow 5], CI 16255 [Acid Red 18], Linalool, Citral, Hexyl cinnamal, Hydroxycitronellal, Phenoxyethanol, PEG-40 hydrogenated castor oil, PEG/PPG-22/24 dimethicone, Propylene glycol.

**Alginate** Algin

**USE:** Pour the activator into the container with alginate and mix until you obtain a smooth mixture with no lumps. Apply the mask to face and leave on for about 10 minutes until completely dry. Gently remove the mask starting from the bottom.

#### FUNCTIONAL SUBSTANCES:

**VITAMINA C:** also known as ascorbic acid, it is a water-soluble vitamin and a powerful antioxidant which is able to counteract the effects of skin aging thanks to its photoprotective properties. With its whitening action, it inhibits tyrosine synthesis, which is a precursor to melanin. It has anti-inflammatory properties especially in case of erythema due to excessive sun exposure. Vitamin C keeps the optimal collagen density in the dermis. Some biochemical studies have shown that vitamin C acts as co-factor for lysine and prolyl

hydroxylase, two enzymes which are essential for collagen biosynthesis.

**BITTER ORANGE FLOWER WATER:** restoring and revitalizing.

**MELON G. E.:** thanks to vitamin A and vitamin E, it has antioxidant properties.

**PANTHENOL:** it is converted into pantothenic acid in the skin and has strong moisturizing, soothing, restructuring and energizing effects. It promotes the energy metabolism of skin cells and their optimum nutrition. Thanks to its soothing action, it is featured in emollient products, because it reduces both erythema and dermatitis.

**ELASTIN:** it has film-forming properties and moisturizing action. It's very rich in amino acids and provides a significant increase in skin hydration, elasticity and turgor.

**GLYCERIN:** humectant, it retains water into the epidermis while reducing dehydration.
