

EXFOLIANT TONER

PRODUCT INFORMATION SHEET

GENERAL INFORMATION

Product description: Using a toner is a key step between cleansing and hydration. This product completes the cleansing of the skin and thoroughly preps skin for other treatments. Formulated with 5% Gluconolactone, a particular type of exfoliator that belongs to the category of polyhydroxy acids (PHAs). They have larger molecules than alpha-hydroxy acids. Therefore, they act on the most superficial layers of the epidermis with mildly irritating action and are suitable for sensitive skin. The action of PHAs facilitates the absorption of other active ingredients applied shortly after. Enriched with Regenine, a mix of fruit acids, and natural propanediol. Perfectly suitable as a maintenance product to be used at home after professional exfoliating treatments.

Manufacturer: PDT cosmetici s.r.l. viale Cavalieri del Lavoro, 45-47 70017 Putignano (BA)

Telephone number: T. +39 080 4931509

Ingredients: Aqua [Water], Gluconolactone, Propanediol, Pyrus malus fruit extract [Pyrus malus (Apple) fruit extract], Tartaric acid, Citric acid, Citrus limon fruit extract [Citrus medica limonum (Lemon) fruit extract], Triticum vulgare bran extract [Triticum vulgare (Wheat) bran extract], Vitis vinifera skin extract [Vitis vinifera (Grape) skin extract], Phenethyl alcohol, 1,2-Hexanediol, Caprylyl glycol, Tetrasodium glutamate diacetate, Sodium hydroxide, Sodium benzoate, Potassium sorbate.

USE: Once or twice a week after facial cleansing in the evening, pour on a wool pad and gently dab the skin. Leave on and apply a moisturizer. It is recommended to carry out a preliminary test on a limited area to evaluate personal sensitivity.

FUNCTIONAL SUBSTANCES

GLUCONOLACTONE: polyhydroxy acid (PHA) with much more delicated exfoliating properties than alpha-hydroxy acids, because they have much larger molecule. It is considered to be

safe for most skin types, including sensitive skin, beacuse they have action on the most superficial layers of the epidermis.

PROPANEDIOL: It is a natural ingredient that comes from the fermentation of glucose; it has solvent, emollient and humectant properties. **REGENINE:** Ingredient bioliquefied by a mix of fruit acids (Apple, lemon, grapes) and wheat bran. In vivo and in vitro tests show that this active ingredient promotes skin renewal (55% in three days and 83% in six days) able to softly remove the cornecitis by the stratum corneum.

EXFOLIANT TONER

PRODUCT INFORMATION SHEET

WARNINGS:

- Keep out of reach of children and away from heat and direct sunlight.
- Avoid direct contact with eyes and mucous membranes.
- In case of burning or itching, discontinue treatment and rinse with water.
