## HYALURONIC ACID AND GLYCOSAMINOGLYCANS

### PRODUCT INFORMATION SHEET

#### GENERAL INFORMATION

**Product description:** Fluid emulsion

**Manufacturer:** PDT cosmetici s.r.l. viale Cavalieri del Lavoro, 45-47 70017 Putignano (BA)

**Telephone number:** T. +39 080 4931509

**Ingredients:** Aqua [Water], Propanediol, Hydrolyzed glycosaminoglycans, Sodium hyaluronate, Hydrolyzed hyaluronic acid, Parfum [Fragrance], Phenethyl alcohol, Cellulose gum, Sodium citrate, 1,2-Hexanediol, Algin, Caprylyl glycol, Tetrasodium glutamate diacetate, Citric acid.

**Formulated with 96% of naturally derived ingredients**

**USE:** apply the product to face in the morning and in the evening and pat until completely absorbed.

#### FUNCTIONAL SUBSTANCES

##### HYALURONIC ACID WITH 3 MOLECULAR

**WEIGHTS:** with excellent moisturizing properties, against dry skin and cracking. It is featured into the dermis, where it binds many water molecules, ensuring turgor and proper hydration. After application to the skin, it creates a macromolecular layer on the stratum corneum which reduces TEWL, thus keeping the skin moisturized. Hyaluronic acid with high, low and medium molecular weight has triple action:

- It creates a film on the skin, avoiding water loss and increasing hydration.
- It has deeply moisturizing action, enhancing both firmness and skin elasticity.
- It holds water into medium/superficial layers of the epidermis in synergy with hyaluronic acid with high and low molecular weight.

**HYDROLYZED HYALURONIC ACID:** obtained from the hydrolysis of high molecular weight hyaluronic acid with higher level of solubility and absorption properties. Thanks to its small size, it reaches the deepest layers of the skin and ensures better hydration, increasing the biomechanical properties of the skin. Therefore, it facilitates an increase in skin elasticity and firmness and a reduction of the microrelief (anti-wrinkle action) with filling and plumping effects.

**GLYCOSAMINOGLYCANS:** glycosaminoglycans (GAGs) are mucopolysaccharides and a component of connective tissue ground substance which regulates the amount of water in the skin and has a support function, maintaining turgor, hydration and elasticity.

## HYALURONIC ACID AND GLYCOSAMINOGLYCANS

### PRODUCT INFORMATION SHEET

#### WARNINGS:

- Keep out of reach of children.
- Keep away from heat and direct sunlight.
- Avoid direct contact with eyes and mucous membranes.
- Close the container after use.
- Do not disperse the container into the environment.

#### STORAGE

**Optimum conditions:** store the product in well-ventilated and dry place, away from light and heat sources, at temperatures between 15 °C and 25 °C.

#### TRANSPORT

**Optimum conditions:** the product should be carried at temperatures between 15 °C and 25 °C, away from light and heat sources.

#### ACCIDENTAL CONTACT OR MISUSE MEASURES

**Eye contact:** in case of accidental contact, rinse with plenty of water. If eye irritation persists, seek medical advice.

**Ingestion:** in case of ingestion of excessive amounts of product, seek medical advice.

#### DISPOSAL CONSIDERATIONS

Empty containers may be disposed of after use in accordance with the labelled instructions.

#### OTHER INFORMATION

The information and instructions above are based on our knowledge at the time of preparation of this sheet.
