OLIVE AND MALLOW FACE MASK

PRODUCT INFORMATION SHEET

INFORMAZIONI GENERALI

Descrizione prodotto: Support in TNT soaked in fluid

Azienda produttrice: PDT cosmetici s.r.l. viale Cavalieri del Lavoro, 45-47 70017 Putignano (BA)

Numero telefonico: T. +39 080 4931509

Ingredients: Aqua [Water], Propanediol, Polyglyceryl-4 caprate, Saccharide isomerate, Olea europaea fruit extract (*) [Olea europaea (Olive) fruit extract (*)], Malva sylvestris leaf extract [Malva sylvestris (Mallow) leaf extract], Glycerin, Hydrolyzed jojoba esters, Hydrolyzed hyaluronic acid, Parfum [Fragrance], Phenethyl alcohol, 1,2-Hexanediol, Citric acid, Caprylyl glycol, Tetrasodium glutamate diacetate, Sodium citrate, Sodium benzoate, Potassium sorbate.
*organic

USE: apply an even layer of the mask to face and leave on for 15 minutes. Remove the mask and massage until all the residual liquid has been absorbed.

FUNCTIONAL SUBSTANCES:

SACCHARIDE ISOMERATE: it regulates skin hydration with plant-derived sugars present in similar form in the superficial layer of the skin. They bind water molecules ensuring constant skin hydration.

MALLOW EXTRACT: mucilage from leaves and flowers mainly consists of L-rhamnose, L-arbinose, L-galactose, D-glucose and galacturonic acid. Together with anthocyanins (malvine and malvidin), vitamins A, B1 and C, they are the active ingredients of this plant. Thanks to its high content of mucilage, it has moisturizing and emollient action and reduces skin redness. It has decongestive and soothing

effects on mucous membranes. It is also used in shampoo, bubble bath and intimate wash, where mucilage limits the irritant action of the foaming base.

OLIVE EXTRACT: rich in polyunsaturated fatty acids such as oleic, linoleic, palmitoleic and myristic acids, it has protective, anti-wrinkle and refatting action, as well as important effects on skin trophism, stimulating the restoration of epidermis and dermis. Thanks to vitamin E and carotenoids, it has antioxidant properties, protects the skin from the harmful effects of free radicals and prevents the effects of skin aging. It deeply nourishes the skin and regulates its natural hydration. It has soothing action on skin redness and irritation and is well tolerated by very sensitive skin.

HYDROLYZED HYALURONIC ACID: obtained from the hydrolysis of high molecular weight hyaluronic acid with a higher level of solubility

OLIVE AND MALLOW FACE MASK

PRODUCT INFORMATION SHEET

and absorption properties. Thanks to its small size, it reaches the deepest layers of the skin and ensures better hydration, increasing the biomechanical properties of the skin.

Therefore, it facilitates an increase in skin elasticity and tone and a reduction of the micro-ridge (anti-wrinkle action) with filling and plumping effects.

WARNINGS:

- Keep out of reach of children.
- Keep away from heat and direct sunlight.
- Avoid direct contact with eyes and mucous membranes.
- Do not disperse the container into the environment.

STORAGE

Optimum conditions: store the product in well-ventilated and dry place, away from light and heat sources, at temperatures between 15 °C and 25 °C.

TRANSPORT

Optimum conditions: the product should be carried at temperatures between 15 °C and 25 °C, away from light and heat sources.

ACCIDENTAL CONTACT OR MISUSE MEASURES

Eye contact: in case of accidental contact, rinse with plenty of water. If eye irritation persists, seek medical advice.

Ingestion: in case of ingestion of excessive amounts of product, seek medical advice.

DISPOSAL CONSIDERATIONS

Empty containers may be disposed of after use in accordance with the labelled instructions.

OTHER INFORMATION

The information and instructions above are based on our knowledge at the time of preparation of this sheet.
