## MICELLAR WATER - Anti-pollution

Every day we expose ourselves to factors such as pollution, UV rays and artificial light that accumulate on the skin leaving it dirty; being able to cause dehydration, lack of firmness, loss of luminosity, spots, blemishes...

The secret to healthy-looking and radiant skin is: daily cleansing.

### What if you could protect your skin at the same time that you cleanse it?

CASMARA presents **UrbanProtect Micellar Water**, an exclusive formula that **cleanses** and **protects** your skin. Its innovative anti-pollution active, protects the skin and creates a shield that reinforces the protective barrier of the skin. At the same time, micelles act as magnets trapping superficial dead cells, contaminating particles, makeup and excess sebum. The result, skin **free of impurities and soft**.

### ACTION

- Creates a **protective shield** against the 3 main types of pollution (ultraviolet light, atmospheric pollution and chemical agents).
- **Cleanses** and **removes make-up** from eyes, face and neck without rinsing.
- **Strengthens** the protective barrier of the skin.
- Helps **moisturize** and **balance** the pH of the skin.

### RESULTS

- ☒ Fresh and soft skin, free of impurities.
- ☒ Protected and balanced complexion.
- ☒ Toned and glowing skin.

### WHO IS IT FOR?

Its non-alcoholic, mild and non-irritating formula is ideal for daily use on all skin types, even the most sensitive. Unisex formula.

### MAIN ACTIVE INGREDIENTS

**POLLU-BLOCK:** natural active ingredient that creates a **protective shield** on your skin against three types of pollutants: ultraviolet light, atmospheric pollution and chemical agents.

**MICELLES:** they trap **impurities** that accumulate on the skin day by day, providing a thorough cleanse.
