

PEELING GEL

MANDELIC ACID

PRODUCT INFORMATION SHEET

GENERAL INFORMATION

Product description: Peeling gel for gentle skin exfoliation thanks to mandelic acid, an alpha-hydroxy acid extracted from bitter almonds with great skin tolerance. Its larger size compared to other alpha-hydroxy acids (glycolic and lactic) makes it very gentle and also suitable for easily reddened skin. Therefore, it can also be used in summer. Suitable in case of skin spots, wrinkles and post-acne scars to even out the complexion with brightening effect. **Formulated with 94% of naturally derived ingredients and enriched with *Regenine*, a mix of fruit acids.**

Manufacturer: PDT cosmetici s.r.l. viale Cavalieri del Lavoro, 45-47 70017 Putignano (BA)

Telephone number: T. +39 080 4931509

Ingredients: Aqua [Water], Glycerin, Propanediol, Mandelic acid, Pyrus malus fruit extract [Pyrus malus (Apple) fruit extract], Tartaric acid, Citrus limon fruit extract [Citrus medica limonum (Lemon) fruit extract], Triticum vulgare bran extract [Triticum vulgare (Wheat) bran extract], Vitis vinifera skin extract [Vitis vinifera (Grape) skin extract], Citric acid, Phenethyl alcohol, Sodium hydroxide, Xanthan gum, Caprylyl glycol, Sodium benzoate, Potassium sorbate.

USE: After facial cleansing, apply the product with a brush to the areas to be treated and avoid the eye and lip contour. Leave on for 3-5 minutes and remove with wool pads soaked in cool water. Complete the treatment with the rebalancing mask with ceramides. It is recommended to carry out a preliminary test on a limited area to evaluate personal sensitivity.

FUNCTIONAL SUBSTANCES

MANDELIC ACID: Alpha-hydroxy acid obtained from bitter almonds, with excellent skin

tolerability. Unlike the other alpha hydroxy acids it has larger dimensions, such as to make it a delicate exfoliant also suitable for sensitive skin, and does not give photosensitization reactions so it can be used even in summer.

REGENINE: Ingredient bioliquefied by a mix of fruit acids (Apple, lemon, grapes) and wheat bran. In vivo and in vitro tests show that this active ingredient promotes skin renewal (55% in three days and 83% in six days) able to softly remove the cornecitis by the stratum corneum.
