PURIFYING-OXYGENATING
INTELLIGENT TREATMENT

Purifying TREATMENT

Ground-breaking facial oxygenating hygiene with the Cosmetic Drone Technology and pure oxygen.

DETOXIFYING DOUBLE ACTION

Externally:

- It helps get rid of contaminants that grow and amass all over our skin, without the need of any specific machinery.

Internally:

- It eliminates toxins generated by the cell and it reduces future formations of toxins.

INTELLIGENT OXYGENATING ACTION

- To provide pure oxygen directly to the cell.
- It improves the cell breathing process.
- It encourages the movement of oxygen in the skin.
- Reprograms cells so that its metabolism functions 100% of times.

RESULTS

The activity of those cells receiving oxygen is tripled and the division of cells increases by 20%.

The skin is deeply cleansed, looking radiant and thoroughly purified due to the exclusive combination of its purifying-detoxifying action and its oxygenating agents, which makes the skin improve it at all levels.

The PURIFYING TREATMENT is recommended as part of our beauty ritual in order to maintain an adequate facial hygiene and it is seen as a treatment which prepares your skin for the forthcoming products to enhance its potential due to its exclusive action.

PROFESSIONAL INTELLIGENT FACIAL TREATMENT **PURIFYING TREATMENT**

WHAT IS IT?

PURIFYING is an exclusive **purifying-oxygenating** beauty plan that revolutionizes facial skincare protocols with **Cosmetic Drone Technology** and **pure oxygen**. Purifying Treatment is much more than cleansing; it is a revolutionary treatment that purifies the skin at all levels without needing complementary products. Externally, it eliminates the layer of superficial pollutants and it eases the removal of blackheads. Internally, it detoxifies the cells, oxygenates and energizes them, prolonging their life and allowing them to function 100%.

PURIFYING TREATMENT combines medical technology and professional cosmetics to oxygenate and purify the skin, allowing it to breathe once again.

PURIFYING TREATMENT

WHO IS IT SUITABLE FOR?

It is aimed at all skin types, including those with a delicate, reactive or damaged skin, who want to have an adequate facial hygiene and enhance the effects of the forthcoming beauty product – no matter whether it is for specific or everyday use. Unisex formula. To be used all year round.

ACTIVE INGREDIENTS WITH A PURIFYING-DETOXIFYING ACTION

FUTURE PEEL: innovative **chemical peeling** with a **detoxifying action** made of 3 non-aggressive acids (malic acid from the apple, citrus acid from the lemon and tartaric acid from the grape), natural extracts and silk protein.

It eliminates toxins and pollutants in the skin without being aggressive. It encourages the regeneration of skin. It does not cause photo sensitivity so it can be used all year round.

The outcome is a clean and renovated skin with a silky feel.

PURIFYING TREATMENT

OPEN PORE: advanced **purifying** technique made of natural oils, hydrolysed oat and natural surfactants that provide the latest quality in skin cleansing.

The perfect blend of its components helps the skin treated to be micro-relaxed, dilating the pore and softening the blackhead to ease its removal. It cleanses them in depth without the need of additional machinery or other techniques that may have negative side effects on the skin.

OPEN PORE helps the elimination of sebaceous contaminants inside the pores, as well purifying the surface of the skin in depth.

D+E CELL COMPLEX: **detoxifying** cell complex made of the *Mirabilis Jalapa* plant.

It eliminates toxins that a cell produces naturally. These toxins are amassed inside preventing the cell from working properly. Due to its revolutionary detoxifying action, it lengthens the life of a cell.

PURIFYING TREATMENT

ACTIVE AGENTS WITH AN OXYGENATING-ENERGIZING ACTION

CHLORELLA DRONE-TECH: innovative active ingredient made of the COSMETIC DRONE TECHNOLOGY with micro encapsulated *Chlorella* (algae rich in chlorophyll, vitamins, proteins and essential amino acids).

It is an avant-garde technology which lets the active ingredients select the objective (fibroblast) directing its action straight to it, liberating the encapsulated substance and multiplying exponentially its effectiveness.

The **energizing-oxygenating action** of the CHLORELLA DRONE-TECH, lets the cell successfully transform the energy into metabolic light. That is to say, energy that benefits the cutaneous cells. Thanks to this process, the energy levels of the cell are raised, allowing it to work at its best (100%).

This active ingredient has been designed by medical technology to maximize the effectiveness of our skin.

PURIFYING TREATMENT

ACTIVE OXYGEN: it is a revolutionary system which liberates pure oxygen.

Its **oxygenating action** increases the influx of nutrients in the area of skin where the product is applied. It exponentially increases the metabolic activity, optimizes the process of cell reproduction (it helps the creation of perfect cells) and it improves cell breathing process.

Since it provides PURE OXYGEN, the skin gets just what it needs in order to have a new revival.

OXY-MOVER: vegetal complex consisting of the *Nasturtium* plant.

It improves the movement of oxygen allowing the cell to receive big amounts of it. This innovative active ingredient lets the oxygen reach all the cells, keeping clear of the hypoxic stress created by the scarcity of oxygen that accelerates the deterioration of cells.

D-RIBOSE: **energizing-oxygenating** active ingredient made of ribose, a substance which is naturally present in all our cells and whose

PURIFYING TREATMENT

intervention is key in the metabolism of the ATP (molecule in charge of storing energy inside the cell).

The amounts of ATP inside the cell are limited. Its size decreases as the molecule faces aging and high stress levels. D-RIBOSE reverts this process and lets the body synthesise new ATP thanks to the ex novo creation of new molecules, increasing cell life.

Thanks to the increase of energy, the cell improves its process of cellular breathing, thus having an increase in the amounts of oxygen that it receives.

PURIFYING TREATMENT

TREATMENT PHASES

PURIFYING TREATMENT

INTELLIGENT TREATMENT

PHASE_01

PEEL Phase.

Chemical innovative peeling made of the **FUTURE PEEL** (which combines malic acid, citric acid, tartaric acid, natural extracts and wheat bran) and **SILK PROTEIN**.

Action: it cleanses and detoxifies our facial skin without damaging it. It eliminates pollutants while it regenerates our skin, keeping an optimum level of moisturizing.

Result: clean, renovated and healthy skin that has a sublime silky touch.

PURIFYING TREATMENT

How to apply: 10 minutes approximately.

Apply half the ampoule with a brush on the face and neck. Allow to work by letting it be completely absorbed – it takes 4 to 5 minutes. Apply the other half manually by massaging on the surface and then switch to digital massaging. This is what we call the “gommage” phase. Remove by using cotton pads wet with clear water.

PHASE_02

CLEANSING-PURIFYING Phase.
A state-of-the-art cleansing.

Enriched emulsion made of the complex and innovative **OPEN PORE**, which revolutionizes facial hygiene techniques.

PURIFYING TREATMENT

Action: it micro-relaxes the skin area, dilating the pore and softening the blackheads to ease its removal. It eliminates sebaceous substances accumulated inside our skin. In the event that extraction is not necessary, we would also apply the content of the vial, given that the OPEN PORE dilator effect promotes better penetration of all the active ingredients that we subsequently apply.

Result: a clean and deeply purified face.

How to apply: 8 minutes approximately.

Apply the product on your face skin. Allow it to work during 4-5 minutes and massage the most problematic areas of our skin. Remove with cotton pads wet with clear water.

Face mask made of **ACTIVE OXYGEN** and **D-RIBOSE**.

Action: it has a revolutionary oxygenating method which stimulates the cells to breathe, increasing the influx of nutrients in the skin.

Result: a radiant, energized and lit up skin.

How to apply: 6-8 minutes approximately.

Apply all the content with a brush or manually by massaging it until it turns into foam. Keep the foam present on the skin by massaging it with the tip of your fingers – which you will have previously wet in clear water. Remove with cotton pads wet with water.

Fase ENERGIZANTE DRONE-TECH.

Intelligent serum made of the **CHLORELLA DRONE-TECH, D+E CELL COMPLEX** and **OXY-MOVER**.

Action: it increases the energy levels of the skin, eliminates pollutants inside the cell and improves the movement of oxygen.

Result: dermic cells packed with high energy levels. The cell metabolic rhythm is stimulated, functioning at 100%. Invigorated skin which is intensely improved at cell level.

How to apply: 10 minutes approximately.

PURIFYING TREATMENT

Apply half the ampoule by massaging actively to help it penetrate better (it usually takes around 3 minutes, but it will depend on the type of skin). Then apply the remaining content in the booster by gently massaging the face and neck until it is fully absorbed.

PHASE_05 GREEN MASK 2025

REFRESHING AND HYDRATING.

Peel-off face mask rich in minerals and moisturizing active ingredients. The face mask is made of seaweed complex that along with mint provide the skin with an intense cooling effect that calms, soothes and closes up pores worked in the previous phases. This face mask should be used whenever

PURIFYING TREATMENT

we want to give our skin a cooling, soothing and moisturizing effect.

How to apply: 20 minutes.

1. Pour the content of the GEL (1st) and POWDER (2nd) into a bowl.
2. Use a spatula (plastic preferably) to quickly mix both components until you get an homogeneous paste. You should not take longer than 30 seconds to do this.
3. Use the same spatula to apply and spread the face mask on your skin. Do not take too long as the mask starts to set 4 minutes after you have mixed it. Unlike other masks, you can cover your lips and eyes.
4. Allow the face mask to work during 15-20 minutes.
5. Remove the face mask in one piece, from top to bottom.

Hydro-oxygenating cream made of **D-RIBOSE** and **HYALURONIC ACID**.

Action: thanks to its energy intakes, it lets the cell receive more oxygen and improves cell respiration as a whole. The hyaluronic acid, which has a low molecular weight, gives intense energy and acts as a wrinkle filler from the inside of our skin.

Result: a face intensely oxygenated, moisturized and unwrinkled. The skin has a bright and vibrant look.

PURIFYING TREATMENT

How to apply:

Use half of the content in the ampoule, apply it and massage it on the face and neck until it is fully absorbed.

Give the remaining content in the booster to the client.
