

CASMARA

With the passage of time epidermal regeneration becomes less effective. The skin loses its elasticity and smoothness causing the appearance of unsightly skin blemishes and wrinkles.

The **CASMARA** laboratory has developed the ultimate cosmetic line to prevent the passage of time from being reflected in your skin.

ACTION

- Argilerine®: "Botox effect" a safe alternative to botulinum toxin.
- Powerful cellular regenerator.
- Intensive wrinkle-filling from within.
- Improvement of the micro-contour of the skin.

RESULTS

After a 28-day treatment period with **RENOVATING** the wrinkles and expression lines are softened. A regenerated and younger-looking skin, smooth and without imperfections.

Unisex formula, for a renewal effect on mature skin types.

CASMARA
