FUNCTIONAL SUBSTANCES

AVOCADO OIL: rich in fatty acids, it has regenerating properties perfect for face and body beauty care, thanks to oleic acid, which nourishes the skin and makes it soft, supple and bright, and palmitoleic acid. It contains tocopherols, carotenoids, sterols and phytosterols, which are antioxidant, photoprotective and anti-inflammatory substances improving skin appearance and delaying aging. They also protect and repair tissues.

HEMP OIL: rich in essential fatty acids (ω -3 and ω -6), key components of cell membranes and important mediators of epidermis tone. Excellent source of linoleic, α -linolenic and γ -linolenic acids whose lack causes an increase in TEWL, subsequent dry skin and cracking. Therefore, this precious oil is essential to nourish the epidermis and normalize the keratinization process. It also contains high concentration of vitamin E, the most important antioxidant, which hinders the formation of free radicals responsible for skin aging.

POMEGRANATE EXTRACT: rich in antioxidant substances which protect our body against free radicals and the skin against depigmentation and

cellular senescence. Thanks to ellagic acid, punical acid, anthocyanidins, tannins, vitamins and minerals, it helps regenerate the skin, making it soft, supple and smooth.

OLIVE OIL: rich in polyunsaturated fatty acids such as oleic, linoleic, palmitoleic and myristic acids, it has protective, anti-wrinkle and refatting action, as well as important effects on skin trophism, stimulating the restoration of epidermis and dermis. Thanks to vitamin E and carotenoids, it has antioxidant properties, protects the skin from the harmful effects of free radicals and prevents the effects of skin aging. This emollient oil deeply nourishes the skin and regulates its natural hydration. It has soothing action on skin redness and irritation and is well tolerated by very sensitive skin.

ARGAN OIL: with emollient, moisturizing and elasticizing properties, it stimulates cell renewal and has excellent antioxidant properties.

SHEA BUTTER: it is rich in triglycerides and has emollient, moisturizing and regenerating properties. It makes the skin firm and supple and has antioxidant action thanks to vitamin E.
