## ULTRAINTENSIVE ANTI-AGING CREAM

### PRODUCT INFORMATION SHEET

#### GENERAL INFORMATION

**Product description:** Homogeneous emulsion

**Manufacturer:** PDT cosmetici s.r.l. - Viale Cavalieri del Lavoro, 45-47 - 70017 Putignano (BA)

**Telephone number:** T. +39 080 4931509

**Ingredients:** Aqua [Water], Caprylic/capric triglyceride, Cetearyl alcohol, Olea europaea fruit oil [Olea europaea (Olive) fruit oil], Prunus amygdalus dulcis oil [Prunus amygdalus dulcis (Sweet almond) oil], Ceteth-2, Ethylhexyl stearate, Cetareth-25, Glycerin, Panthenol, Acetyl hexapeptide-8, Sodium hyaluronate, Hydrolyzed elastin, Hydroxypropyl cyclodextrin, Tocopherol, Pinus pinaster bark extract, Tocotrienols, Elaeis guineensis oil [Elaeis guineensis (Palm) oil], Phytosterols, Parfum [Fragrance], Xanthan gum, Lauryl alcohol, Myristyl alcohol, Disodium EDTA, Diglycerin, Pentylene glycol, Benzoic acid, Bis-ethylhexyloxyphenol methoxyphenyl triazine, Dehydroacetic acid, Sodium hydroxide, Ethylhexylglycerin, Triethyl citrate, BHA, Caprylyl glycol, Squalene, Disodium phosphate, Sodium phosphate, Phenoxyethanol, Dimethicone, Propylene glycol, Cyclopentasiloxane.

#### FUNCTIONAL SUBSTANCES

**HYALURONIC ACID:** it belongs to the GAGs and is present in the dermis where it has a structural function because it is able to bind many water molecules, thus keeping the skin elastic and moisturized. Being a large molecule, it cannot penetrate the epidermis, so it stays on the surface while creating a moisturizing and protective layer with long-lasting action.

**OLIVE OIL:** rich in polyunsaturated fatty acids such as oleic, linoleic, palmitoleic and myristic acids, it has protective, anti-wrinkle and refatting action, as well as important effects on skin trophism, stimulating the restoration of epidermis and dermis. Thanks to vitamin E and carotenoids, it has antioxidant properties, protects the skin from the harmful effects of free radicals and prevents the effects of skin aging. This emollient oil deeply nourishes the skin and regulates its natural hydration. It has soothing action on skin redness and irritation and is well tolerated by very sensitive skin.

**PINUS PINASTER EXTRACT:** it keeps skin hydration and elasticity and is able to inhibit the release of

inflammatory mediators with soothing action.

**SWEET ALMOND OIL:** rich in fatty acids, it is well integrated with the hydrolipidic film and hinders cutaneous water evaporation. It has moisturizing and emollient properties and excellent elasticizing action.

**PEPTIDES:** they reduce and prevent fine lines and signs due to micro-contractions of the skin. They smooth the skin and reduce wrinkles and micro-ridges. Peptides facilitate new collagen production, strengthening and re-densifying tissues.

**PANTHENOL:** it is converted into pantothenic acid in the skin and has strong moisturizing, soothing, restructuring and energizing effects. It promotes the energy metabolism of skin cells and their optimum nutrition. Thanks to its soothing action, it is featured in emollient products, because it reduces both erythema and dermatitis.

**CICLODEXTRIN:** extraordinary oligosaccharide of plant origin with tightening and elasticizing effects. It has moisturizing properties like sugars and creates a fine, supple and resistant film on the skin, smoothing out wrinkles. It smooths skin ridges, making the skin soft and bright.

# RIGENERA

## ULTRAINTENSIVE ANTI-AGING CREAM

### PRODUCT INFORMATION SHEET

**ELASTIN:** it has film-forming properties and moisturizing action. It's very rich in amino acids and provides a significant increase in skin hydration, elasticity and turgor. With collagen and mucopolysaccharides, it is the backbone of the

dermis. Elastin acts on the horny layer with a film reducing TEWL, keeping the skin healthy.

**GLYCERIN:** humectant, it retains water into the epidermis while reducing dehydration.

#### WARNINGS:

- Keep out of reach of children.
- Keep away from heat and direct sunlight.
- Close the container after use.
- Avoid direct contact with eyes.
- Do not disperse the container into the environment.

#### STORAGE

**Optimum conditions:** store the product in well-ventilated and dry place, away from light and heat sources, at temperatures between 15 °C and 25 °C.

#### TRANSPORT

**Optimum conditions:** the product should be carried at temperatures between 15 °C and 25 °C, away from light and heat sources.

**Special provisions:** the product is not classified as dangerous. Therefore, transport does not have to follow the provisions of ADR (road), RID (rail), IMO (sea), ICAO / IATA (air).

*(For cosmetic products that can be classified as dangerous - e.g. flammable perfumes, aerosol products, hair dye products, hair removal products, etc. - transport must be carried out by authorized companies, in accordance with ADR / RID / IMO / ICAO / IATA provisions. In these cases, the product must be transported in suitable containers of compatible material. The staff must also be trained at a level matching their duties and responsibilities in accordance with regulations relating to the transport of dangerous goods.)*

#### ACCIDENTAL CONTACT OR MISUSE MEASURES

**Eye contact:** in case of accidental contact, rinse with plenty of water. If eye irritation persists, seek medical advice

**Ingestion:** in case of ingestion of excessive amounts of product, seek medical advice.

#### DISPOSAL CONSIDERATIONS

Empty containers may be disposed of after use in accordance with the labelled instructions.

#### OTHER INFORMATION

The information and instructions above are based on our knowledge at the time of preparation of this sheet.
