Three Action Peel with $\alpha\beta$ -HA TECHNOLOGY

$\alpha\beta$ -HA
GLYCOLIC · LACTIC · SALICYLIC

*Intelligent chemical peel for professional use only with
high regenerating and enhancing power.*

THE PERFECT STEPPINGSTONE TO ADVANCED
PROFESSIONAL TREATMENT.

Three Action Peel $\alpha\beta$ -HA TECHNOLOGY

The secret to an extraordinary result from the first session

Exfoliating gel that fuses alpha and beta hydroxy acids (AHAs + BHA) to act on the skin at three different levels. Its action intensively purifies the face, blurs and/or eliminates imperfections, and accelerates skin regeneration to improve hydration, elasticity and firmness.

Three Action Peel formulated with **$\alpha\beta$ -HA Technology** is based on salicylic acid, lactic acid and glycolic acid: 3 acids that act together on the skin at three different levels.

Its multi-action formula makes it an advanced facial and body preparation, and the ideal preliminary step to boost the action of the professional treatments applied afterwards and achieve extraordinary results.

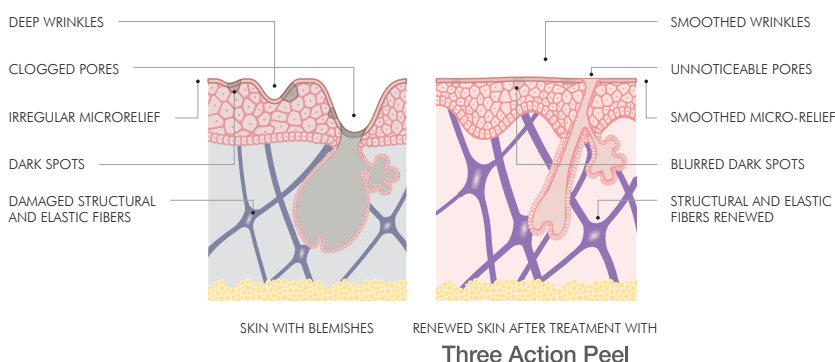

$\alpha\beta$ -HA TECHNOLOGY

[8% Glycolic Acid] + [2% Lactic Acid] + [1% Salicylic Acid].

- **GLYCOLIC ACID (AHA)**: active ingredient with an exfoliating-renewing action that penetrates deeply, eliminating aged cells and intensely stimulating skin renewal. The results on the skin are immediate and long-lasting. Continued use significantly reduces wrinkles and other signs of aging.
- **LACTIC ACID (AHA)**: exfoliating-moisturizing active ingredient that removes the layer of dead skin cells, improving the microrelief, while at the same time penetrating the skin at mid-depth, fixing water molecules inside the skin and increasing the skin's protective barrier, which prevents dehydration and protects it against the appearance of signs of aging.
- **SALICYLIC ACID (BHA)**: highly exfoliating-purifying active ingredient that acts on the surface and inside the pore, eliminating surface cells and stagnant sebum inside the pore. It actively refines pores and purifies the skin.

Three Action Peel

“The secret to perfectly prepared skin.”

ACTIONS

- 01 **Eliminates aged cells and** melanin build-up.
- 02 Intensively **cleanses and purifies** the face.
- 03 **Stimulates** cellular renewal.
- 04 **Increases collagen** production.
- 05 **Strengthens** the skin's protective barrier.
- 06 Directly **moisturizes** the face.

RESULTS

- ✓ Smooths the skin microrelief. Imperceptible pores.
- ✓ Faded age spots. Bright and unified tone.
- ✓ Intensely moisturized skin.
- ✓ Smooths wrinkles, fine lines and skin imperfections.
- ✓ Strengthens skin against signs of aging.
- ✓ Increases the penetration of active ingredients of any facial and body treatment applied afterwards, improving results.

WHO IS IT SUITABLE FOR?

Ideal for all skin types, even sensitive skin. Recommended for any age, especially young and/or acne-prone skin, or as a preventive treatment to improve the signs of aging.

INSTRUCTIONS FOR USE

Apply to the face with the help of a brush, avoiding the eye area, or to the area of the body to be treated (décolleté, arms, back, legs, etc.) and leave on for 5-10 minutes. Then massage with the fingertips (sensitive skin) or with a gauze pad moistened with water and rub in circular motions for about 3 minutes to remove dead skin cells. Finally, remove with plenty of water. Follow with professionally recommended treatment.
