FUNCTIONAL SUBSTANCES:

BiOI-C: bioliquefied extract from OLIVA CORATINA (Puglia, Italy) vegetable water. Molecular Bioliquefaction® Technology is an enzyme-based patented technology that makes it possible to recover 100% of plant bioactive compounds in a completely bioavailable and highly effective active form. Thanks to this technology, BiOI-C is very rich in phenolic compounds and has antioxidant and dermoprotective properties. Efficacy tested at the Department of Industrial Chemistry of Bologna.

MALLOW EXTRACT: mucilage from leaves and flowers mainly consists of L-rhamnose,

L-arbinose, L-galactose, D-glucose and galacturonic acid. Together with anthocyanins (malvine and malvidin), vitamins A, B1 and C, they are the active ingredients of this plant. Thanks to its high content of mucilage, it has moisturizing and emollient action and reduces skin redness. It has decongestive and soothing effects on mucous membranes. It is also used in shampoo, bubble bath and intimate wash, where mucilage limits the irritant action of the foaming base.

SURFACTANTS: skin-friendly and biodegradable.

FLOVEOLIVE AND MALLOW SHOWER GEL

PRODUCT INFORMATION SHEET

WARNINGS:

- Keep out of reach of children.
- Keep away from heat and direct sunlight.
- Close the container after use.
- Avoid direct contact with eyes.
- Do not disperse the container into the environment.
- Not suitable for children under 3 years of age.
- Any change in colour due to the presence of natural ingredients does not affect the quality of the product.

STORAGE

Optimum conditions: store the product in well-ventilated and dry place, away from light and heat sources, at temperatures between 15 °C and 25 °C.

TRANSPORT

Optimum conditions: the product should be carried at temperatures between 15 °C and 25 °C, away from light and heat sources.

ACCIDENTAL CONTACT OR MISUSE MEASURES

Eye contact: in case of accidental contact, rinse with plenty of water. If eye irritation persists, seek medical advice.
