

SOOTHING FACE CREAM

LIQUORICE

PRODUCT INFORMATION SHEET

GENERAL INFORMATION

Product description: homogeneous emulsion

Manufacturer: PDT Cosmetici s.r.l. viale Cavalieri del Lavoro, 45-47 70017 - Putignano (BA)

Telephone number: T. +39 080 4931509

Ingredients: Aqua [Water], Cetearyl isononanoate, Cetearyl alcohol, Glycerin, Dicaprylyl ether, Squalane, Aloe barbadensis leaf juice, Borago officinalis seed oil, Panthenol, Tapioca starch, Butyrospermum parkii butter [Butyrospermum parkii (Shea) butter], Helianthus annuus seed oil [Helianthus annuus (Sunflower) seed oil], Lecithin, Hypericum perforatum flower/leaf/stem extract [Hypericum perforatum (Saint John's Wort) flower/leaf/stem extract], Avena sativa leaf/stalk extract [Avena sativa (Oat) leaf/stalk extract], Glycyrrhetic acid, Glycyrrhiza glabra root extract [Glycyrrhiza glabra (Licorice) root extract], Calendula officinalis flower extract (*), Tocopheryl acetate, Saccharomyces ferment lysate filtrate, Ruscus aculeatus root extract (*), Glucose, Tocopherol, Ascorbyl palmitate, Parfum [Fragrance], Benzyl alcohol, 1,2-Hexanediol, Sodium stearoyl glutamate, Cetearyl glucoside, Acrylates/C10-30 alkyl acrylate crosspolymer, Xanthan gum, Salicylic acid, Sodium hydroxide, Tetrasodium glutamate diacetate, Citric acid, Sorbic acid, Sodium benzoate, Potassium sorbate, Alpha-isomethyl ionone. *bio/organic

USE: apply the product to face and gently massage until completely absorbed.

FUNCTIONAL SUBSTANCES

LIQUORICE EXTRACT: it reduces redness and has soothing action with whitening effects on skin areas with hyper-pigmentation, because it limits melanin production. It is therefore effective in the treatment of skin spots and in soothing the effects of sunburn. Its cicatrizing effects that make it suitable for treating acne and pimples are also known. Recent studies have shown that it is very useful for fighting wrinkles, in particular those caused by photo-aging following excessive exposure to sunlight.

PANTHENOL: it is converted into pantothenic acid in the skin and has strong moisturizing, soothing, restructuring and energizing effects. It promotes the energy metabolism of skin cells and their optimum nutrition.

BORAGE SEED OIL: this oil is very rich in Omega-6 polyunsaturated fatty acids extracted from borage seeds with first cold pressing. It also contains a large amount of important minerals including calcium, potassium and tannins. All of these compounds work

as precursors to the phospholipids that make up cell membranes. Borage seed oil is used for all skin problems. It is an excellent ally in cosmetics as it counteracts skin aging and has regenerating action on dry skin, while counteracting skin inflammation.

18-B-GLYCYRRHETINIC ACID: pentacyclic triterpenoid acid is obtained from the liquorice plant (Glycyrrhiza glabra). Thanks to its properties, it is used in cosmetics for sensitive and delicate skin, and is effective as soothing agent in products for children, aftershave and after-sun products, products for inflamed skin prone to redness, atopic and seborrheic dermatitis and irritation.

TOCOPHEROL: Vitamin E and its esters have excellent antioxidant effects, because they are able to attenuate the reactivity of free radicals, thus blocking the cascade of events which cause oxidative stress damaging cells.

SHEA BUTTER: it is rich in triglycerides and has emollient, moisturizing and regenerating properties. It makes the skin firm and supple and has antioxidant action thanks to vitamin E.

RUSCUS EXTRACT: it improves microcirculation, has toning action on blood vessel walls and improves

SOOTHING FACE CREAM

LIQUORICE

PRODUCT INFORMATION SHEET

peripheral circulation.

CALENDULA OFFICINALIS: rich in triterpenes, flavonoids, polysaccharides, carotenes and phytosterols, it has excellent soothing properties. Flavonoids have antiphlogistic effects on sensitive skin and inflammation, stimulate reepithelialization, accelerate epidermal turnover and promote the dermal fibroblast activity while facilitating collagen synthesis.

ALOE VERA GEL: it contains polysaccharides with D-glucose and D-mannose, phytosterols, vitamins,

enzymes, trace elements and amino acids. Aloe juice basically moisturizes and soothes the skin. Its gel creates a protective film on the skin enabling its moisturizing action. Aloe reduces skin redness and has soothing and cicatrizing properties.

FERMENTED OAT: oat extract enhanced by hyper fermentation treatment has soothing properties. It inhibits IL-1 α release and prevents dry skin.

HYPERICUM: thanks to hyperin, it has soothing, antinflammatory, cicatrizing and re-epithelizing properties.

WARNINGS

- Keep out of reach of children.
- Keep away from heat and direct sunlight.
- Avoid direct contact with eyes and mucous membranes.
- Close the container after use.
- Not suitable for children under 3 years of age.

STORAGE

Optimum conditions: store the product in well-ventilated and dry place, away from light and heat sources, at temperatures between 15 °C and 25 °C.

TRANSPORT

Optimum conditions: the product should be carried at temperatures between 15 °C and 25 °C, away from light and heat sources.

Special provisions: the product is not classified as dangerous. Therefore, transport does not have to follow the provisions of ADR (road), RID (rail), IMO (sea), ICAO / IATA (air).

(For cosmetic products that can be classified as dangerous - e.g. flammable perfumes, aerosol products, hair dye products, hair removal products, etc. - transport must be carried out by authorized companies, in accordance with ADR / RID / IMO / ICAO / IATA provisions. In these cases, the product must be transported in suitable containers of compatible material. The staff must also be trained at a level matching their duties and responsibilities in accordance with regulations relating to the transport of dangerous goods.)

ACCIDENTAL CONTACT OR MISUSE MEASURES

Eye contact: in case of accidental contact, rinse with plenty of water. If eye irritation persists, seek medical advice.

Ingestion: in case of ingestion of excessive amounts of product, seek medical advice.

DISPOSAL CONSIDERATIONS

Empty containers may be disposed of after use in accordance with the labelled instructions.

OTHER INFORMATION

Unless otherwise specified, the list of ingredients is not intended to be definitive for the preparation of the label. The information and instructions above are based on our knowledge at the time of preparation of this sheet.
