DEVITALIZED skin is characterized by a lack of regeneration, uneven tone and poorly vascularized epidermis. The skin is also poorly oxygenated and malnourished.

VULNERABLE skin cannot adequately protect itself from environmental factors such as pollution, solar radiation, etc.

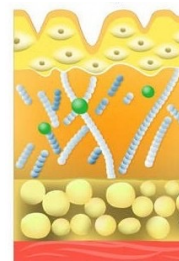

This results in an altered skin barrier, loss of elasticity, premature wrinkles and dehydration, among other skin concerns.

NORMAL SKIN

DEVITALIZED SKIN

This is due to a decrease in essential components such as collagen, elastin and hyaluronic acid, as well as a lack of vitamins and minerals in the correct concentrations.

The signs of devitalized skin include:

- Wrinkles and expression lines due to slower cell regeneration.
- Loss of elasticity and firmness due to decreased collagen and elastin production.
- Dark spots due to an increase in the size of melanocytes, the cells responsible for skin pigmentation.
- More fragile blood vessels.
- Dryness and tightness due to sebaceous glands producing less sebum.
- Lack of radiance also due to hormonal changes.

## WHO IS IT SUITABLE FOR?

Facial treatment suitable for all skin types, even sensitive skin. Especially recommended for dull, devitalized and lackluster skin that needs an instant vitality boost.

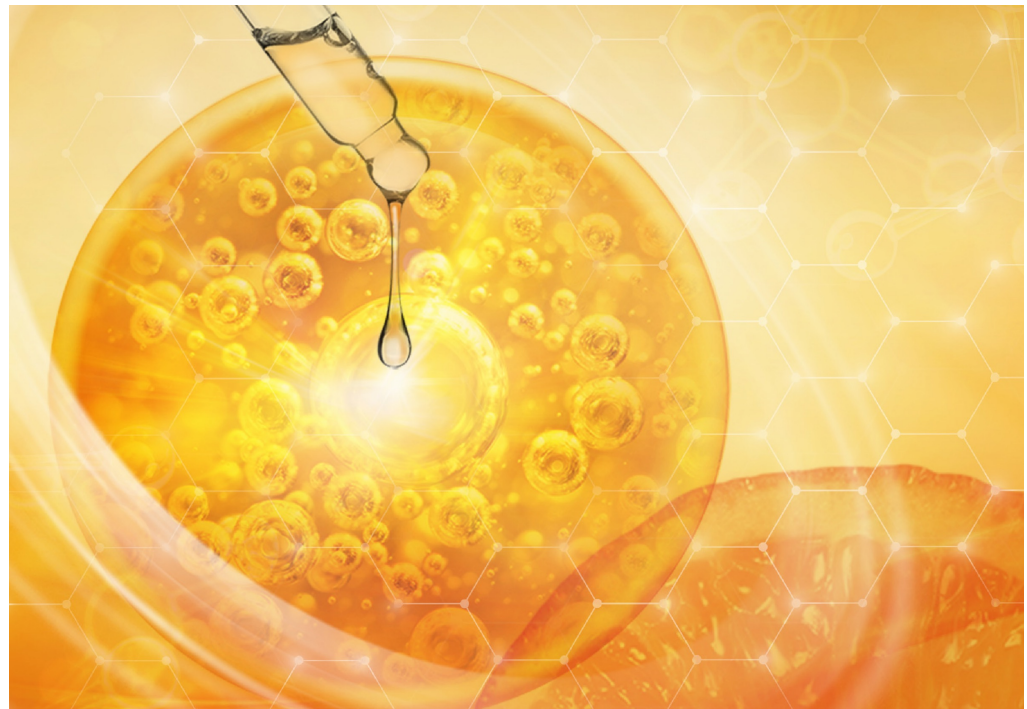

## HOW DOES IT WORK?

### SKIN SENSATIONS Treatment

#### With VITAMIN PEPTIDE SYSTEM

- ANTI-AGING action.
- Ultra-REVITALIZING power.
- VITAMIN-RICH and REMINERALIZING.
- Improves the skin function, restoring a healthy appearance.
- Prevents and reduces the first signs of aging: fine lines, expression lines, etc.
- Restores the hydrolipidic film for even, hydrated, toned and radiant skin that's full of vitality.

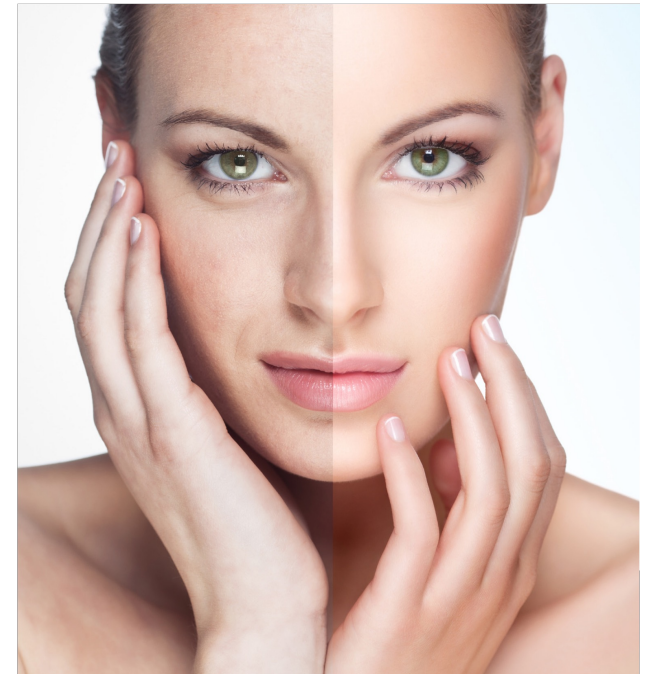

## SKIN SENSATIONS TREATMENT ACTIONS:

REVITALIZING treatment due to its high vitamin and mineral content, as well as other essential elements for healthy skin (water, peptides, nutrients, soothing agents, etc.).

The “shot” of vitality the skin needs.  
Its high-tech active ingredient release system is comparable to treatments in medical-aesthetic clinics.

A true beauty cure in itself.  
The vitamin and mineral cocktail the skin needs.

Suitable for all ages and skin types. Even for the most sensitive and delicate skin and skin in need of a vitality boost.

## "ULTRA-REVITALIZING POWER FOR YOUR SKIN"

Highly revitalizing anti-aging, remineralizing, rehydrating and vitamin-rich facial treatment formulated with high-penetration bioavailable vitamins, minerals and trace elements. Its innovative blend of active ingredients and cutting-edge technologies enhances the skin's natural processes, correcting and preventing the signs of aging.

A powerful "shot" of vitality that restores the radiance and balance lost over time.

## COMPETITIVE ADVANTAGES

- **PREMIUM SINGLE-DOSE TREATMENT.**

*Facial treatment in 5 single-dose phases + 1 algae peel-off face mask. Cutting-edge blend of active ingredients backed by efficacy tests, which act synergistically on the skin.*

- **MAXIMUM EFFICACY FROM THE FIRST SESSION.**

*Advanced single-dose facial treatment with natural active ingredients (vitamins, minerals, etc.) and pioneering technologies for extraordinary results, comparable to a virtual mesotherapy session.*

- **SENSORY COSMETICS.**

*A sensory treatment providing advanced care and unique sensations thanks to its evolution of delicate textures.*

- **COMPLETE FACIAL ACTION.**

*Unique cosmetics that expertly treat the skin, providing extraordinary care to even the most delicate areas.*

## REVITALIZING ANTI-AGING TREATMENT

Skin Sensations  
VITAMIN PEPTIDE SYSTEM

*High-penetration vitamins and minerals that strengthen the skin against the passage of time. The treatment provides an instant powerful anti-aging action that intensifies the skin's natural processes to protect itself against the passage of time and the external factors that cause it to age, for radiant, intensely revitalized skin that's full of life.*

THE PROTOCOL IS 100% EFFECTIVE WHEN THE SALON TREATMENT IS USED IN  
COMBINATION WITH THE HOME-USE COSMETICS.

## MAIN ACTIVE INGREDIENTS

**COPPER:** Fermented with *Saccharomyces cerevisiae* yeast. This process increases the bioavailability of this mineral, improving its benefits in the skin.

- Copper is a cofactor of multiple enzyme reactions that allow many vitamins to be assimilated.
- It increases the bonding of collagen and elastin bridges, which boosts skin firmness and elasticity.

## APPLICATION METHOD

- 10 minutes approx.
- Apply this gel over the face and neck with the fingertips. Spread gently until the product becomes more fluid in texture, achieving an oily consistency.
- Then, with the fingertips or a damp brush, use circular movements for a couple of minutes to help cleanse the skin, until you achieve a milky emulsion.

#### ACTIVE INGREDIENTS:

- CHONDRUS CRISPUS.
- AFRICAN BIRCH.

#### ACTIONS

- Film-forming and remineralizing effect.
- Increases collagen synthesis.
- Antioxidant

## MAIN ACTIVE INGREDIENTS

**CHONDRUS CRISPUS:** This red alga lives in the deep sea and is therefore exposed to extreme environmental conditions.

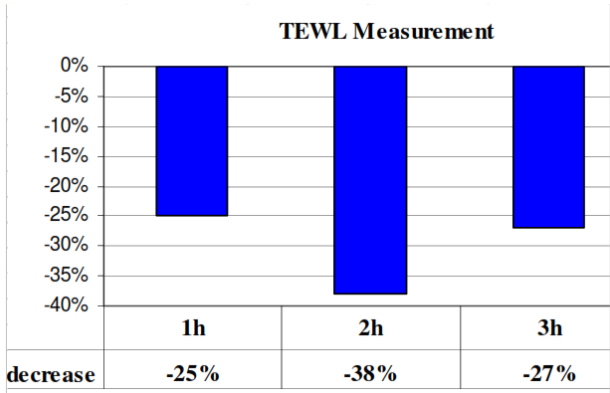

- Forms an even, continuous film over the skin and has a long-lasting action due to its biomimetic properties between skin proteins and carrageenans.
  - Strengthens the epidermal function.
  - Stimulates keratinization due to its skin mineral content, particularly calcium and magnesium.
- Protects against external aggressors as it's a coenzyme that stimulates epidermal resistance.

## MAIN ACTIVE INGREDIENTS

**AFRICAN BIRCH EXTRACT:** From the bark of the *Anogeissus leiocarpus* tree, also known as African Birch, which mainly grows in Burkina Faso, Mauritania and Senegal.

It's rich in tannins, especially ellagitannin, which acts by:

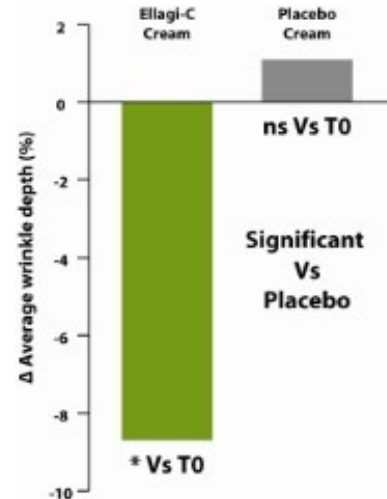

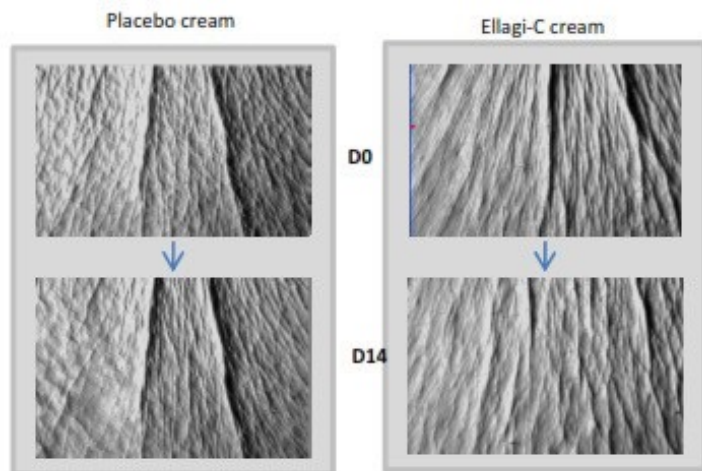

- Increasing Vitamin C absorption by the fibroblasts and stimulating collagen synthesis.
- Inhibiting MMP-2 and MMP-9 activity (proteins that degrade the Extracellular Matrix), thus protecting the epidermal junctions.
- Providing an antioxidant activity, as it limits the formation of Reactive Oxygen Species (ROS), which reduces oxidative stress and premature skin aging.

## MAIN ACTIVE INGREDIENTS

**VITAMINS A + C + E:** Advanced vitamin complex with 3 key vitamins for balanced skin.

Technologically innovative phase with VITAMIN PEPTIDE SYSTEM: a biotechnological release system that binds plant peptides to pure vitamins.

This innovative formulation of vitamins increases:

- STABILITY
- PENETRATION
- ABSORPTION of topically applied vitamins.

By increasing stability and penetration, the bioavailability is comparable to a facial vitamin mesotherapy treatment.

**VITAMINS A+C+E:** *Together, they form a natural potent antioxidant and anti-aging system.*

**VITAMIN A:** *Essential for the skin, helps mature keratinocytes and regulate the cell turnover cycle.*

**VITAMIN C:** *Stimulates collagen formation, has an antioxidant action and helps even the skin tone.*

**VITAMIN E:** *Antioxidant function and protects cell membranes.*

## MAIN ACTIVE INGREDIENTS

**MANGANESE:** Formulated in a highly purified manganese salt molecule, which imitates the activity of 2 natural skin enzymes.

Plays a key role in neutralizing oxygen free radicals, as it acts like Superoxide Dismutase (SOD) and Catalase.

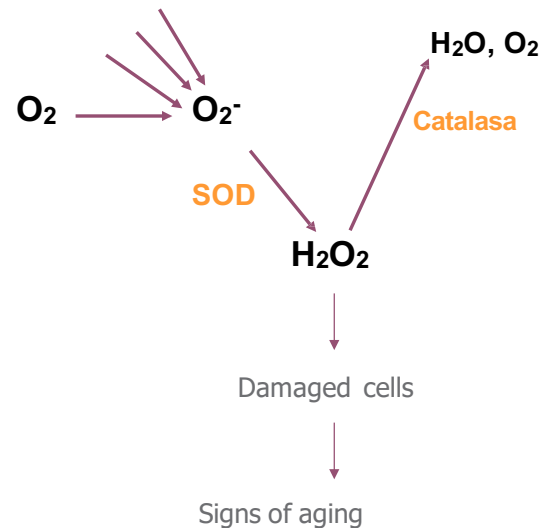

Provides an oxygenating action and can regenerate to continue working.

## MAIN ACTIVE INGREDIENTS

**V. HYALURONIC:** Biotechnological polysaccharides.

- More hydrating than Hyaluronic Acid.
- Film-forming action, prevents dehydration. Prolonged hydration.
- Stimulates keratinocyte proliferation.

**Action mechanism:**

*Stimulates Sirtuin-1 synthesis, which increases cell longevity:*

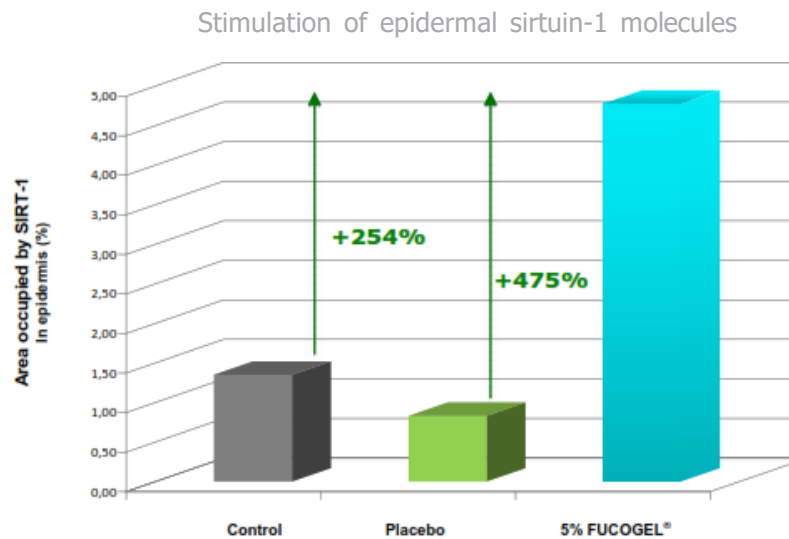

- Activates cell differentiation.
- Increases cell renewal.
- Strengthens the skin barrier function.

*Also forms a film with hydrating properties, which provides long-lasting hydration.*

## MAIN ACTIVE INGREDIENTS

**OAT PROTEINS, MINERALS AND TRACE ELEMENTS:** Trace elements are chemical elements found in tiny quantities in living organisms (trace = very little).

*They play a key role in the majority of biochemical reactions that occur in the body, are an essential part of enzymes and act as cofactors, increasing the speed of biochemical reactions and reducing energy expenditure.*

## OAT PROTEINS, MINERALS AND TRACE ELEMENTS:

*The skin is an organ that is sensitive to trace element deficiencies. The dermis and epidermis require constant bioavailability of trace elements, as their health suffers without them.*

### OAT PROTEINS, MINERALS AND TRACE ELEMENTS:

*Calcium (Ca): Essential for normal epidermal cell development (prevents them from dying before reaching the surface).*

*Magnesium (Mg): Essential for hyaluronic acid formation. Able to retain water. Improves epidermal hydration.*

*Manganese (Mn): Closely linked to combating free radicals. Antioxidant.*

*Zinc (Zn): Promotes reepithelialization and has soothing and antibacterial properties.*

*Copper (Cu): Key for skin regeneration processes and protects dermal collagen and elastin.*

*Iron (Fe): Essential for energy (mitochondria) and good skin oxygenation.*

*Potassium (K): Regulates water retention in tissues.*

## MAIN ACTIVE INGREDIENTS

**ORANGE BLOSSOM:** Bitter orange blossom extract (*Citrus aurantium* L.).

*Bitter orange is a fruit tree native to south-east Asia, which currently grows along the Mediterranean coast.*

*It has a unique chemical profile, which ensures the quality of the extract and therefore its efficacy.  
the energy expenditure.*

## ORANGE BLOSSOM:

*Skin hydration is conditioned by the balance between diffusion and evaporation, and also by the water-binding ability of the epidermis.*

*Glycosaminoglycans are the most important hydrating components in the Extracellular Matrix. Hyaluronic Acid (HA) is the most important one: it regulates skin hydration thanks to its excellent water-retaining ability.*

## ORANGE BLOSSOM:

*Since HA decreases with age, it becomes difficult to keep the skin hydrated.*

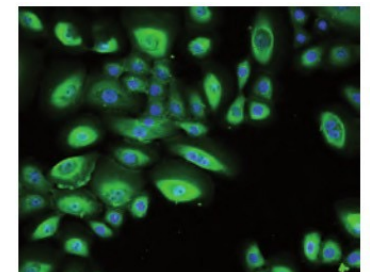

*Keratinocytes in the basal layer produce HA in the epidermis to regulate hydration levels in tissues.*

*Orange Blossom increases HA production by the keratinocytes by 44%:*

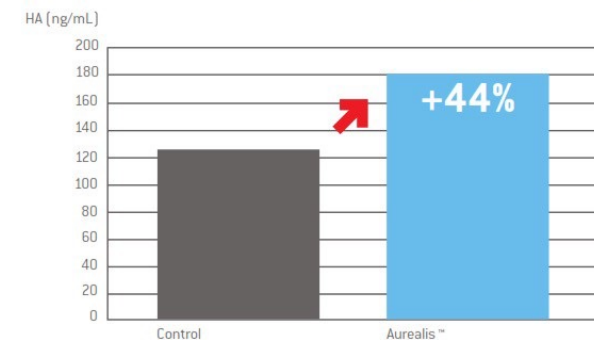

- *Balanced diffusion - evaporation.*
- *Epidermal water retention.*
- *Hydrated skin.*

## MAIN ACTIVE INGREDIENTS

### 24 CARAT GOLD:

*Nourishes and revitalizes the skin by inducing the incorporation of mineral nutrients while preventing skin flaccidity thanks to its immediate tightening effect.*

*It has antioxidant properties and strengthens the skin's protective barrier, protecting it from external aggressions.*

*"The Journal of Investigative Dermatology" reported that experiments undertaken at the University of California showed that gold is beneficial in treating autoimmune diseases and inflammatory processes.*

## MAIN ACTIVE INGREDIENTS

### MAGNESIUM:

*Can improve the permeability of the epidermal barrier due to its ability to “bind” water molecules.*

### CALCIUM:

*Modulates keratinocyte proliferation and differentiation.*

### SODIUM:

*Together with potassium, regulates tissue water balance.*

## ACTIONS

*Thanks to algae carbohydrates and their ability to set, it forms a plastic-like film with a cooling effect that applies a light pressure over the area.*

*This enhances the penetration of the active ingredients applied beforehand, as well as the active elements of the mask itself, leaving the skin feeling rested, with a healthy, youthful appearance.*
