MesoluxTM
Facial, body and hair treatments

SISNEO BIOSCIENCE[®]

Mesolux

is a medical-aesthetic device for the transdermal introduction of active ingredients into the skin by means of aesthetic electroporation.

It is used to combat wrinkles, stretch marks, acne, flaccidity, cellulite, seborrhea, alopecia, localized adiposity and breast firming.

- Non-invasive
- Painless
- Almost instantaneous benefits
