Bills Alternative LLC

BILLS ALTERNATIVE LLC CORP

Capability Statement

Enabling Technologies | Specialized IT Solutions | Strategic Consulting

CORE COMPETENCIES Bills Alternative LLC provides high-level technical consulting and project management with a focus on **Enabling Technologies** and **Life Sciences**. We specialize in bridging the gap between complex legacy systems and modern IT solutions through our flexible "Hands On / Hands Off" service model.

- **Enabling Technologies:** Specialized IT solutions designed for accessibility and support for the disabled.
- **A/V & IT Integration:** Expert remote and on-site coordination for audio-video and information technology systems.
- **Systems Retrofitting:** Modernizing and upgrading legacy systems to meet current performance and compliance standards.
- **Strategic Project Management:** Full-lifecycle management using a hybrid of remote oversight and on-site implementation.

DIFFERENTIATORS

- The **"Hands On / Hands Off"** Approach: We offer the agility of 100% remote consulting (phone/web) alongside the reliability of coordinated on-site subcontractor management.
- **Legacy Expertise:** Unique ability to retrofit and integrate older hardware with modern, government-funded technology initiatives.
- **Niche Focus:** Dedicated expertise in Life Sciences and technology solutions aimed at improving quality of life for disabled populations.
- **Agile Execution:** As an independent contractor-led firm, we provide faster turnaround times and lower overhead than larger consulting firms.

COMPANY DATA

- **UEI:** LGZ4PG731C49
- **CAGE Code:** 1A5V3
- **Socio-Economic Status:** Small Business
- **Primary NAICS:** 541512 (Computer Systems Design Services)
- **Secondary NAICS:** 541611, 541690, 541990
- **Location:** West Columbia, SC (Serving clients nationwide via remote consulting)

PAST PERFORMANCE HIGHLIGHTS

Dental Specialists of North Florida | Medical IT & A/V Integration

- **Scope:** Designed and deployed integrated IT/AV systems for a high-volume surgical center.
- **Result:** Established 100% system reliability in a regulated medical environment, ensuring seamless data flow between surgical and administrative zones.

Dunn's Chapel | Institutional Communication Retrofit

- **Scope:** Modernized aging A/V infrastructure to bridge legacy hardware with modern HD digital standards.
- **Result:** Engineered "Future-Proof" accessibility solutions that increased user engagement and system uptime for large-scale assembly.

Multiple Private Sector Partners (e.g., Todd Beauchamp, Dale Vogel)

- **Scope:** Provided "Hands Off" strategic consulting for technology procurement and system design.
- **Result:** Delivered scalable technology roadmaps that optimized workflows and reduced long-term maintenance costs for diverse professional settings.

Contact & Registration Data

- **Service Area:** South Carolina, North Carolina, and Federal Nationwide
