CHRISTOPHER PRIOR
Village Attorney

September 26, 2024

Dear Residents,

I hope this message finds you well. Like many of you, I have been eagerly anticipating the curb-to-curb restoration of our roads. Today, I'd like to provide an important update that will significantly enhance the safety and reliability of our village's infrastructure.

Recently, National Grid has determined that several areas within our village require gas main repairs. To prioritize the long-term safety of our community, they have determined that replacing three gas mains is necessary before proceeding with road restoration. This proactive step is vital to safeguarding our community and preserving the longevity of our infrastructure. While this adjustment means a shift in our timeline, addressing these needs now will help prevent future disruptions and ensure the durability of our newly restored roads.

I understand that many of you were looking forward to the completion of the Water Authority of Western Nassau County project and the beautification of our village. Although this extension may feel like a setback, it ultimately serves our long-term safety and collective well-being.

We greatly appreciate your understanding and patience as National Grid completes this essential work. Together, we are building a safer, stronger, and even more beautiful village for everyone to enjoy.

Thank you for your continued support and commitment to our community.

Sincerely,

Porscha Lyons
Highways & Roads Commissioner
