

The Boule' Scholars Club

"Mentoring Young Men Towards Excellence"

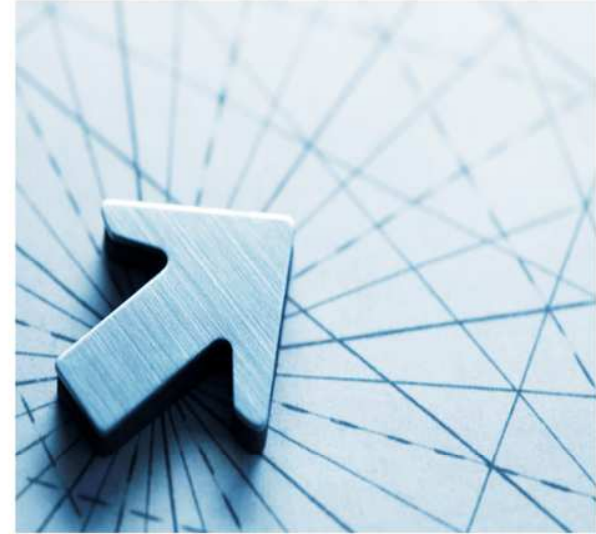

Academics

Being Smart gives you more Options

Leadership

A positive model to influence and guide others

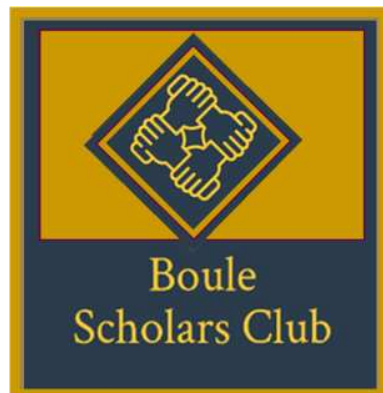

Service

Give Back to Community

Join the Club to become a Boule' Scholar!

The goal of the Boule Scholars Program is to encourage critical thinking, instill confidence, and empower young black men to accomplish their academic and personal goals. Our program is structured around a set of fundamental life skills that are proven to facilitate success. We aim to supplement the students' academic experience with the exploration of a wide variety of professional career paths. As well as provide models that they may see themselves capable of becoming leaders both in their communities and professional lives. We expect and reward Academic Excellence!
