

SOLID
TECHNICAL SOLUTIONS

Dear Professionals,

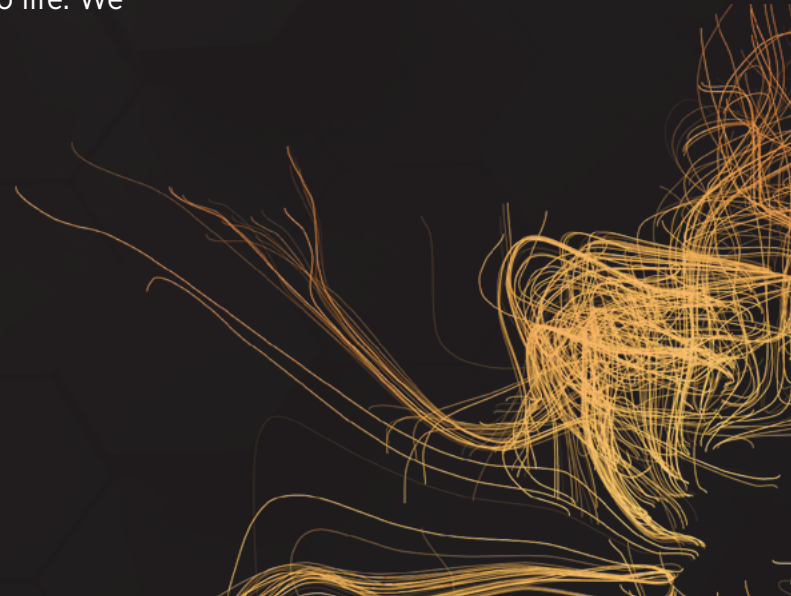

At Solid Technical Solutions, we continue to shape the event industry with our innovative technologies and professional service approach. Founded in 2016 through the merger of three leading companies, our journey has been guided by principles of quality, trust, and collaboration. With offices in Istanbul and Budapest, we provide creative solutions for both local and international projects, breaking boundaries along the way.

Our sound, lighting, video, and backline solutions aim not only to meet technical needs but also to bring dreams to life. From dry rental services to bespoke show designs, we approach every project with a unique perspective, creating excellence in every detail.

This catalog is not just a showcase of the services we offer but also an invitation to be part of this journey. With cutting-edge technology, talented teams, and a customer-focused approach, we are here to turn your events into unforgettable experiences.

Thank you for choosing us and allowing us to bring your visions to life. We look forward to collaborating on future projects.

Best regards,

RIGGING

We integrate modular roof and truss systems like Prolyte's advanced designs (B100RV, S52SV), the versatile Slick Maxi Beam and Minibeam Trusses from Total Solutions Group, and Sixty82's M39 and RIGGING trusses, which are renowned for their strength and flexibility. Additionally, Tyler GT Plus® pre-rig trusses allow us to reduce setup time while maximizing efficiency.

What truly sets us apart is our ability to go beyond standard solutions. With our fully equipped in-house metal workshop, we create custom components that meet the exact needs of your project. Whether it's specialized steel frames or innovative structural modifications, we have the tools and expertise to make your vision a reality.

At Solid Technical Solutions, every project we undertake reflects our passion for innovation, precision, and excellence. By combining advanced systems with custom solutions, we ensure that each project not only meets but exceeds industry standards.

Trust Solid Technical Solutions to elevate your event with structural integrity, creative solutions, and exceptional design-all while staying true to our core values of SOLID.
