

Bill Hodnett's Fertilizing Formula

Cattleyas and Dendrobiums

The Combo - Per gallon add

- 1 oz. Maxicrop,
- 1 oz. Horticulture Molasses and ¼ tsp. Pro-Tekt
- After mixed, add 1 squirt of Mild dish soap per gallon

Use this Combo each time you fertilize.

Week 1 – 1 tsp. 20-20-20 + Combo

Week 2 – 1 heaping tsp. Epsom Salts

1 heaping tsp. Potassium Nitrate 13-0-46 + Combo

Week 3 – 1tsp. 20-20-20 + Combo

Week 4 – 1 tsp. Bloom Buster 10-52-10 + Combo

(Fall-Winter use an even tsp. and Spring-Summer use a heaping tsp.)

To lower the PH to a reading between 5-6 use distilled white vinegar.

Chemical treatments -Tom Wells Combo is per one gallon of water Orthine 1 tsp (thrips) and Thomyl 1.5 tsp (leaf spot rot)

Dithane 1.5 Tbs. (soft rot) Spray two times 7-10 days apart.

For prevention spray one time each month.
