

Shore Stoves

**Crafting Warmth, Comfort, and Style
in Every Home**

Based in the heart of St Austell, Cornwall, Shore Stoves was founded from a passion for quality craftsmanship and a love of creating warm, inviting spaces. With over 12 years of experience as a HETAS-certified engineer, I decided to take the leap and set up Shore Stoves – a local business built on expertise, trust, and attention to detail.

Over the past decade, I've worked with countless homes across Cornwall, helping families enjoy the simple pleasure of a roaring fire. At Shore Stoves, our aim is to deliver a top-notch, professional service, from installation to aftercare, ensuring every stove we fit performs beautifully and safely.

Whether it's a classic wood burner or a sleek, modern stove, each installation is approached with the same care and precision. We take pride in combining traditional craftsmanship with modern efficiency, offering a friendly, reliable service that keeps our customers coming back year after year.

For us, it's more than just fitting stoves – it's about bringing warmth, comfort, and style into your home.

centrepiece for
your home.

ACR Stoves

British design. modern performance. Timeless style.

ACR Woodpecker WP4

Compact yet powerful, the WP4 is a cast-iron wood-burner delivering 4.3 kW of heat with 75% efficiency. DEFRA-approved and EcoDesign Ready, it's ideal for small to medium spaces. Features top or rear 5" flue outlet, generous glass window, and classic matt black finish. Optional direct air kit and log-store version available.

Dimensions: H 464 mm × W 373 mm × D 360 mm | Clearances: Sides 550 mm, Rear 450 mm

ACR Malvern II – 5 kW Wood / Multi-Fuel Stove

Built with a steel body and cast-iron door, the Malvern II combines traditional styling with modern performance. DEFRA-approved and EcoDesign Ready, it's suitable for burning both wood and smokeless fuels, even in smoke-controlled areas. Perfect for medium-sized rooms, it blends clean lines with dependable efficiency.

Dimensions: H 551 mm × W 491 mm × D 331 mm | Output: 5 kW | Efficiency: 84% (net) | Flue: 125 mm top or rear outlet

ACR Malvern - 5 kW Wood / Multi-Fuel Stove with Log Store

The Malvern II LS offers the same outstanding 5 kW output and efficiency as the Malvern II, with the added benefit of an integrated log store for extra practicality and visual balance. Its steel body and cast-iron door ensure durability, while the large viewing window creates a welcoming focal point. EcoDesign Ready and DEFRA-approved for smoke control zones.

Dimensions: H 464 mm × W 373 mm × D 360 mm | Clearances: Sides 550 mm, Rear 450 mm

ACR Buxton – 5 kW Wood / Multi-Fuel Stove

Built with a steel body and cast-iron door, the Buxton delivers 5 kW output and is EcoDesign-Ready and DEFRA-approved for wood and smokeless fuel use. Features a large glass viewing window, Airwash cleaning system, and matt black finish.

Clearances: Sides 450 mm, Rear 350 mm. Dimensions: H 596 mm × W 520 mm × D 363 mm. Flue: 125 mm (5")

ACR Tenbury T400 – 5 kW Inset Wood / Multi-Fuel Stove

Designed to fit standard 16-inch fireplace openings, the Tenbury T400 features a steel body with a cast-iron door, offering both durability and modern styling. With a nominal output of 5 kW and high efficiency of up to 82.9 %, it meets EcoDesign standards and is DEFRA-approved for wood or smokeless fuel. Built-in air-wash system keeps the viewing window clear, while installation is streamlined thanks to its 125 mm (5") top-flue configuration.

Dimensions: H 588 mm × W 472–473 mm × D 334 mm | **Clearances:** Sides 150 mm, Rear 300 mm, Above 500 mm

ACR Oakdale – 5 kW Multi-Fuel Stove

Durably built from cast iron with traditional styling, the Oakdale combines heritage looks with modern efficiency. With a nominal output of 5 kW and net efficiency up to 83.8%, it's EcoDesign Ready, DEFRA-approved for wood and approved fuels, and perfectly suited to small-to-medium sized rooms.

Dimensions: H 550 mm × W 440 mm × D 370 mm • **Flue:** 125 mm (5") top or rear outlet
|Clearances: Sides 400 mm, Rear 300 mm.

ACR Neo 1P – 5 kW Wood-Burning Stove

The Neo 1P delivers a striking contemporary look with a pedestal base, large viewing window and premium build from steel (with a cast-iron door). With a 5 kW nominal output, 125 mm (5") flue outlet (top or rear), and an impressive efficiency of approx. 79.4% it's EcoDesign Ready and DEFRA-approved for use in smoke-controlled zones.

Dimensions: H 1 055 mm × W 490 mm × D 390 mm

Clearances to combustibles: Sides ~350 mm, Rear ~300 / 350 mm (or less with optional rear heat shield).

ACR Osprey 5 – 5 kW Wood-Burning Stove

The Osprey 5 brings contemporary elegance to your home with its sleek steel body, large viewing window and modern styling. With a 5 kW output and up to approximately 83 % efficiency, it's EcoDesign Ready and DEFRA-exempt – ideal for wood in smoke-controlled zones. Top or rear 5" (125 mm) flue outlet, and compact footprint makes it perfect for stylish spaces.

Dimensions: H 1000 mm × W 550 mm × D 400 mm | Distance to combustibles: Sides 350 mm, Rear 300 mm

Beltane Stoves

Crafted for warmth. Designed for everyday living.

Beltane Chew – 4.6 kW Wood / Multi-Fuel Stove

Crafted from steel with a classic appearance, the Chew delivers a nominal output of 4.6 kW and efficiency around 80%. It's EcoDesign Ready and DEFRA-approved for use in smoke control areas. Features a 125 mm (5") top or rear flue outlet, large viewing window, air-wash system, and option for either wood or smokeless fuel use.

Dimensions: H 606 mm × W 490 mm × D 320 mm | Distance to combustibles: Sides 500 mm, Rear 150 mm

Beltane Brue Convector Plus – 3.2 kW Wood / Multi-Fuel Stove

Built from durable steel and designed for smaller spaces, the Brue Convector Plus combines modern performance with classic styling. This compact freestanding stove boasts an A+ energy rating (~86% efficient) and is DEFRA-approved for smoke control areas. It features a 125 mm (5") top or rear flue outlet, convection panels to reduce required side clearances, and a matt black finish.

Dimensions: H 524 mm × W 380 mm × D 303 mm | Distance to combustibles: Sides 200 mm, Rear 100 mm.

Beltane Brue Logstore – 3.2kW

Wood / Multi-Fuel Stove

A compact yet efficient log-store model from Beltane, crafted from steel with a generous glass window and built-in storage base to keep kindling and logs ready to hand. EcoDesign Ready, DEFRA-approved for wood or smokeless fuel use—ideal for modern and traditional homes alike.

Dimensions: H 632 mm × W 380 mm × D 303 mm | Clearances: Sides 200 mm, Rear 100 mm

Beltane Brue – 3.2 kW Wood /

Multi-Fuel Stove

Compact yet efficient, the Brue is crafted from steel and built for smaller rooms. The model features a large viewing window, air-wash system to keep the glass clear, and meets EcoDesign standards while being DEFRA-approved for use in smoke control zones. Designed with interchangeable 5" (125 mm) flue outlet (top or rear) for installation flexibility.

Dimensions: H 524 mm × W 380 mm × D 303 mm | Distance to combustibles: Sides 480 mm, Rear 770 mm

Beltane Holford Inset – 5 kW Inset Wood / Multi-Fuel Stove

A cast-iron convection inset stove designed to fit a standard 16" fireplace opening (or higher on the wall with a 4-sided trim). With a 5 kW output and efficiency of 80.4% (Energy Rating A+), the Holford Inset is EcoDesign-ready and DEFRA-approved for wood or approved multi-fuel use.

Dimensions: H 645 mm × W 500 mm × D 345 mm | Distance to combustibles: Sides 350 mm, Top 500 mm

Beltane Holford Landscape – 4.8 kW Inset Wood-Burning Stove

A wide-format inset stove offering a broad panoramic fire view. Built from cast-iron, with a sleek 4- or 3-sided frame and a 4.8 kW nominal output (efficiency 81.2%, Energy Rating A+). DEFRA-approved, EcoDesign-ready, designed for modern installations and smaller hearths.

Dimensions: Inset body H 410 mm × W 533 mm × D 370 mm (Building-in: H 420 mm × W 545 mm × D 380 mm) | Distance to combustibles: Sides 200 mm

Charnwood Stoves

Hand-built on the Isle of Wight – made to warm the heart.

Charnwood Country 4 – 5kW Wood-Burning Stove

Crafted from a steel body with a cast-iron door and a large viewing window, the Country 4 offers traditional styling with modern performance. Rated output approx. 4.8-5 kW, with net efficiency up to 84%. DEFRA-approved and EcoDesign ready. Flue outlet 125 mm (5"), top or rear.

Dimensions: H 545 mm × W 416 mm × D 326 mm | Distance to combustibles: Sides 480-600 mm, Rear 550-700 mm (or 150 mm with optional heat shield)

Charnwood C-Four – 4.9 kW Wood-Burning Stove

Crafted with a steel body and cast-iron door, the C-Four delivers a nominal output of 4.9 kW (range 2-5.5 kW) and operates with excellent efficiency (around 82%). It's EcoDesign Ready and DEFRA-approved, making it suitable for use in smoke-controlled zones. Features include top or rear 125 mm (5") flue outlet, choice of eight colour finishes, optional log-store or high legs, and a large viewing window for superior flame visuals.

Dimensions: H 560 mm × W 416 mm × D 373 mm (low legs) | Distance to combustibles: Sides 500 mm, Rear 370 mm (with optional rear heat-shield: Rear 175 mm)

Charnwood C-Five – 5 kW Wood-Burning Stove

Built with a steel body and cast-iron door, the C-Five delivers a nominal output of 5 kW and achieves up to 82% efficiency, with an A+ energy rating. It's EcoDesign Ready and DEFRA-approved for wood burning in smoke-controlled areas. Features include a 125 mm (5") flue outlet (top or rear), choice of eight colour finishes, optional log-store, high legs or store stand.

Dimensions: H 560 mm × W 485 mm × D 398 mm | **Distance to combustibles:** Sides 500 mm, Rear 400 mm (reduces to 175 mm with optional heat shield)

Charnwood Aire 3 – 3.6 kW Wood-Burning Stove

The Aire 3 is a modern compact stove built from steel with a cast-iron door, designed for smaller spaces while still offering premium style and performance. With a rated output of 3.6 kW (range 1.5–5 kW), an impressive net efficiency of 86%, and EcoDesign & DEFRA approval for use in smoke-controlled areas, it's a versatile choice. Top or rear 125 mm (5") flue outlet.

Dimensions: H 500 mm (Low) / 610 mm (Store Stand) × W 384 mm × D 344 mm | **Distance to combustibles:** Sides 310 mm, Rear 250 mm (Reduced Rear 100 mm with optional heat shield)

Charnwood Aire 5 – 5 kW Wood-Burning Stove (Store Stand Option)

Built with a steel body and cast iron door, the Aire 5 delivers a full 5 kW of heat with an outstanding 84% net efficiency, and is EcoDesign Ready and DEFRA-approved for use in smoke control zones. Features include a 150 mm (6") top or rear outlet, versatile colour choices, and two height options (low stand or store stand).

Dimensions: H 600 mm (Low Stand) / H 755 mm (Store Stand) × W 470 mm × D 426 mm |
Distance to combustibles: Sides 350 mm, Rear 350 mm (or 100 mm with optional heatshield)

Charnwood Aire 7 – 7 kW Wood-Burning Stove

Designed for larger rooms and open-plan living, the Aire 7 features a striking large-picture viewing window and premium build quality. With a 7 kW nominal output, 82% net efficiency, and full EcoDesign & DEFRA approval, it's ideal for performance and aesthetic.

Includes steel body, cast-iron door, interchangeable top/rear flue (150 mm / 6") and available in eight colour finishes

Dimensions: H 600 mm (Low Stand) / 755 mm (Store Stand) × W 535 mm × D 428 mm | **Distance to combustibles:** Sides 420 mm, Rear 360 mm (or 110 mm with optional heat-shield)

Charnwood ARC 7 – 7 kW Wood / Multi-Fuel Stove

A high-output Multi-Fuel stove built with a steel body and cast-iron door, the ARC 7 delivers 7 kW of heat and features modern styling with traditional durability. EcoDesign Ready and DEFRA-approved for use in smoke control areas.

Dimensions: H 832 mm × W 502 mm × D 449 mm | Distance to combustibles: Sides 270 mm, Rear 150 mm (with heat-shield/insulated flue)

Charnwood Arc 5 – 5 kW Wood / Multi-Fuel Stove

This modern steel-bodied stove features a cast-iron door and delivers a rated output of 5 kW (range 2-7 kW). EcoDesign Ready and DEFRA-exempt for burning wood in smoke-controlled zones. Large viewing window, Cleanburn airwash system, and available in eight colour options.

Dimensions: H 733 mm (Low Stand) × W 453 mm × D 445 mm | Distance to combustibles: Sides 300 mm, Rear 200 mm (with heat shield: 80 mm)

Charnwood Island Two BLU – 8 kW Wood / Multi-Fuel Stove

A mid-sized model in the Island collection, the Island Two BLU combines steel body and cast-iron doors with a twin-door design and large window for an expansive flame view. Rated at 8 kW output (range 5-11 kW) and achieving ~82% net efficiency, it's EcoDesign Ready and DEFRA-approved for wood or multi-fuel use. Offers top or rear 150 mm (6") flue outlet and optional convection panels.

Dimensions: H 675 mm × W 614 mm × D 448 mm | **Distance to combustibles:** Sides 450 mm, Rear 500 mm (reducible to ~325 mm with optional heat-shield)

Charnwood Skye 5 – 5 kW Wood / Multi-Fuel Stove (Low or Store Stand)

With a rated output of 5 kW (range 2-7 kW) and efficiency up to approx. 86%, the Skye 5 is EcoDesign Ready and DEFRA-approved for use with wood (and multi-fuel where permitted). Built with a steel body and cast-iron door, it delivers modern performance with a landscape profile and extensive customisation. Top or rear 125 mm (5") flue outlet, choice of eight colour finishes, and available in low-stand or store-stand configurations.

Dimensions: H 623 mm (Low) / H 808 mm (Store Stand) × W 509 mm × D 390 mm | **Distance to combustibles:** Sides 300 mm, Rear 270 mm

Charnwood Bay 5 VL – 5 kW Landscape Inset Stove

A contemporary inset model featuring a wide landscape viewing window and clean-lined design. Built from steel with a cast-iron door and VLAZE vitreous enamel surround, this stove delivers 5 kW output (range 2 – 7 kW) with up to 81% net efficiency. EcoDesign-Ready and DEFRA-approved for wood burning in smoke-controlled zones. Flue outlet diameter: 150 mm (6") top or rear. Available in eight finish colours.

Dimensions: H 474 mm × W 685 mm × D 350 mm | Distance to combustibles: Sides 190 mm

Charnwood Bay 5 BX – 5 kW Freestanding Multi-Fuel Stove

A stylish addition to the Bay range, the Bay 5 BX transforms the inset body into a freestanding stove with a sleek lace-style surround and optional bench, centre or store stand. With a 5 kW nominal output (range 2-7 kW) and net efficiency of ~81%, it's EcoDesign Ready and DEFRA-approved for wood burning. It features a 150 mm (6") top flue outlet and long log capacity up to 463 mm.

Dimensions: H 556 mm × W 688 mm × D 403 mm | Distance to combustibles: Sides 150 mm, Rear 270 mm (reduces to Side 100 mm / Rear 130 mm with insulated flue)

Charnwood C-Four Inset – 5 kW Wood / Multi-Fuel Stove

Designed to fit seamlessly into a standard fireplace opening, the C-Four Inset is built from steel with a cast-iron door and glass viewing window. It delivers a nominal output of 5 kW (range 2-5.5 kW) with ~80% efficiency, and is EcoDesign Ready and DEFRA-approved for wood & multi-fuel use. Features include a 125 mm (5") top flue outlet, external-air compatibility, and options for eight finishes.

Dimensions: H 590 mm × W 485 mm × D 383 mm | Distance to combustibles: Sides 280 mm, Rear 310 mm

Charnwood Haven – 6.6 kW Wood-Burning Range Cooker

The Haven blends the charm of a traditional range cooker with modern clean-burn technology. Built with a steel body, cast-iron hotplate and oven, it delivers a 6.6 kW output (range 5-7 kW) and is EcoDesign-Ready and DEFRA-approved for wood combustion. Features include large viewing window, hotplate cooking surface, integrated thermometer and choice of legs or store-stand.

Dimensions: H 800 mm × W 751 mm × D 628 mm (High Legs) | Clearances: Side 500 mm, Rear 400 mm

Charnwood Cooking Plate Kit

Turn your stove into a multifunctional focal point. The cast-iron cooking plate kit fits Charnwood stoves with rear flue outlets and comes with four removable trivets – perfect for simmering, frying and warming in open-plan living areas. Available in two sizes to suit existing 5" or 6" flue connections.

Available for 5" (125 mm) or 6" (150 mm) Flue Outlets

Charnwood Colour Options

Available in eight premium finishes – Matt Black, Blue, Green, Almond, Gunmetal, Pewter, Brown and Bronze. Each colour offers the same exceptional build quality, letting you choose a finish that perfectly complements your home and style.

Small in size but big on personality, the Ekol Apple Pie is built for flexibility, efficiency, and charm. Constructed from solid steel and cast iron, it's perfect for cabins, tiny homes, garden rooms, or cosy corners of any living space.

Fully EcoDesign Ready and DEFRA-approved, this compact stove delivers impressive performance and a crystal-clear flame view through Ekol's advanced air-wash system.

With a range of custom options — including oven and hotplate attachments, side and top shelves, short or logstore base, and various colour finishes — the Apple Pie can be tailored to suit any space or style.

Dimensions: H 470 mm × W 380 mm × D 350 mm
Distance to combustibles: Sides 400 mm | Rear 500 mm

Hunter Stoves

Built to last. Designed to warm every home.

Hunter Herald 4 Eco – 5 kW Wood-Burning Stove

A modern take on a British classic, the Herald 4 Eco blends timeless design with advanced efficiency. Crafted from steel with a cast-iron door, it delivers a steady 5 kW output and up to 80% efficiency. Fully EcoDesign Ready and DEFRA-approved, it's engineered for clean, reliable performance and a beautifully clear flame view — perfect for adding warmth and character to any home.

Dimensions: H 553 mm × W 413 mm × D 343 mm
Distance to combustibles: Sides 400 mm | Rear 450 mm

Hunter Herald 5 Eco – 5 kW Wood-Burning Stove

The Herald 5 Eco takes everything loved about the traditional Hunter design and brings it up to modern EcoDesign standards. Built from durable steel with a cast-iron door, it delivers a powerful 5 kW output with up to 78% efficiency. Fully EcoDesign Ready and DEFRA-approved, this model features a large viewing window, advanced airwash system, and simple controls — perfect for medium-sized rooms and classic or contemporary interiors alike.

Dimensions: H 595 mm × W 505 mm × D 410 mm
Distance to combustibles: Sides 600 mm | Rear 800 mm

Hunter Allure 4 – 5 kW Wood-Burning Stove

Compact and contemporary, the Allure 4 is designed to deliver stunning flame visuals and exceptional efficiency. With a powerful airwash system, EcoDesign Ready certification, and DEFRA approval, this stove brings warmth and style to any home. Built from durable steel with a large glass window, it's ideal for modern or traditional interiors alike.

Dimensions: H 600 mm × W 444 mm × D 340 mm
Distance to combustibles: Sides 500 mm | Rear 600 mm

Hunter Allure 5 – 5 kW Wood-Burning Stove

Blending contemporary design with powerful heating performance, the Allure 5 delivers up to 5 kW of heat with effortless control and efficiency. Its wide glass window showcases the fire beautifully, while the EcoDesign Ready and DEFRA-approved construction ensures a clean, efficient burn. The Allure 5 is crafted from durable steel with a large firebox — perfect for medium-sized rooms needing warmth with a modern edge.

Dimensions: H 600 mm × W 494 mm × D 340 mm
Distance to combustibles: Sides 600 mm | Rear 700 mm

Hunter Allure 7 – 7 kW Wood-Burning Stove

Powerful, stylish, and built for larger spaces, the Allure 7 combines high performance with striking modern design. The wide viewing window offers a captivating flame picture, while EcoDesign Ready and DEFRA-approved technology ensures low emissions and excellent efficiency. Strong steel construction, easy air controls, and smooth lines make the Allure 7 a statement piece in any home.

Dimensions: H 630 mm × W 544 mm × D 360 mm
Distance to combustibles: Sides 650 mm | Rear 750 mm

Hunter Halo 5 Radial – 5 kW Wood-Burning Stove

A striking blend of form and function, the Halo 5 Radial delivers modern efficiency with timeless style. Featuring a gently curved steel body and wide glass window, it provides an exceptional flame view and radiant heat output of 5 kW. Fully EcoDesign Ready and DEFRA-approved, it offers clean combustion, simple air controls, and contemporary detailing — perfect for both modern and traditional homes.

Dimensions: H 642 mm × W 470 mm × D 408 mm
Distance to combustibles: Sides 550 mm | Rear 600 mm

Jøtul Stoves

Timeless Norwegian craftsmanship. Built to endure.

Jøtul F100 Eco – 5 kW Wood-Burning Stove

A compact classic with traditional Norwegian styling, the F100 Eco combines cast-iron strength with refined detailing. It offers a generous view of the flames through its distinctive Gothic-arched window, while delivering efficient, reliable heat output. EcoDesign Ready and DEFRA-approved, this stove is built to last a lifetime — a perfect fit for cottages, snug living rooms, or period homes.

Dimensions: H 570 mm × W 528 mm × D 336 mm

Distance to combustibles: Sides 450 mm | Rear 150 mm

Jøtul F200 Eco – 5 kW Wood-Burning Stove

A modern evolution of a timeless design, the Jøtul F200 Eco brings Scandinavian craftsmanship and clean lines together in a refined cast-iron form. With its broad viewing window, elegant curves, and superior build quality, it's designed for efficient, comfortable heat with long burn times and easy control. EcoDesign Ready and DEFRA-approved, the F200 Eco delivers reliable performance and understated style — a perfect centrepiece for any home.

Dimensions: H 755 mm × W 561 mm × D 472 mm

Distance to combustibles: Sides 450 mm | Rear 150 mm

Jøtul F602 Eco – 5 kW Wood-Burning Stove

A true classic reimagined for modern living, the Jøtul F602 Eco is one of the most celebrated stove designs in history. Combining traditional cast-iron craftsmanship with updated clean-burn technology, it delivers reliable 5 kW performance in a compact, timeless form. EcoDesign Ready and DEFRA-approved, it features a distinctive front air control, removable hotplate for simple top cooking, and Jøtul's signature durability — making it both beautiful and practical.

Dimensions: H 640 mm × W 320 mm × D 540 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Jøtul F105 R – 5 kW Wood-Burning Stove

Bold, compact, and full of character, the Jøtul F105 R combines Scandinavian style with outstanding efficiency. Its distinctive rounded form and large glass window create a striking flame view, while the sturdy cast-iron body ensures exceptional heat retention and durability. EcoDesign Ready and DEFRA-approved, this stove is designed for efficient, clean burning and everyday practicality — a stylish statement piece for both modern and traditional homes.

Dimensions: H 690 mm × W 410 mm × D 325 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Jøtul F162 – 5 kW Wood-Burning Stove

Minimalist, elegant, and unmistakably Scandinavian – the Jøtul F162 blends clean lines with advanced heating performance. Its cast-iron construction, modern pedestal design, and large glass door make it a stunning focal point for any living space. Fully EcoDesign Ready and DEFRA-approved, it offers efficient, low-emission heating with long burn times and easy operation. Built to last a lifetime, the F162 perfectly represents Jøtul's blend of innovation and tradition.

Dimensions: H 903 mm × W 450 mm × D 447 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Jøtul F136 – 5 kW Wood-Burning Stove

The Jøtul F136 combines striking Scandinavian design with efficient, eco-friendly performance. Its elevated firebox and large panoramic glass provide a beautiful flame view, while the solid cast-iron construction ensures lasting heat and reliability. EcoDesign Ready and DEFRA-approved, this compact stove offers outstanding efficiency and low emissions – a perfect fit for contemporary homes that value both style and substance.

Dimensions: H 1090 mm × W 410 mm × D 396 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Mendip Stoves

Designed in Britain. Built for real homes.

Mendip Loxton 3 – 4.2 kW Wood / Multi-Fuel Stove

Compact, efficient, and beautifully made, the Mendip Loxton 3 Mk4 brings modern British design and everyday practicality together. Built with a high-quality steel body and cast-iron door, it delivers a steady 4.2 kW output with smooth air control for effortless operation. EcoDesign Ready and DEFRA-approved, the Loxton 3 is perfect for smaller rooms or snug spaces where performance and style matter most.

Dimensions: H 560 mm × W 370 mm × D 305 mm
Distance to combustibles: Sides 450 mm | Rear 150 mm

Mendip Loxton 5 Mk4 – 5 kW Wood / Multi-Fuel Stove

A perfect blend of practicality and style, the Mendip Loxton 5 Mk4 delivers dependable warmth with contemporary design. Built with a robust steel body and cast-iron door, it offers a generous 5 kW output and excellent control through its advanced air system. EcoDesign Ready and DEFRA-approved, this model burns cleanly and efficiently, while the large glass window provides a clear, captivating flame view — ideal for modern or traditional homes alike.

Dimensions: H 580 mm × W 430 mm × D 370 mm
Distance to combustibles: Sides 450 mm | Rear 150 mm

Mendip Churchill 5 Mk4 – 5 kW Wood / Multi-Fuel Stove

Elegant curves meet outstanding performance in the Mendip Churchill 5 Mk4. Its large, gently curved glass window gives a panoramic view of the flames, while the steel body and cast-iron door ensure lasting durability. Delivering a steady 5 kW output, it's EcoDesign Ready and DEFRA-approved for clean, efficient burning in any setting. The Churchill 5 is designed for homes that value style, comfort, and quality – a modern classic built for everyday living.

Dimensions: H 575 mm × W 480 mm × D 370 mm
Distance to combustibles: Sides 450 mm | Rear 150 mm

Mendip Churchill 8 Mk4 – 8 kW Wood / Multi-Fuel Stove

Powerful and beautifully designed, the Mendip Churchill 8 Mk4 combines elegant styling with impressive heat output. Its curved glass door offers an exceptional flame view, while the advanced air control system ensures clean, efficient burning every time. Delivering a robust 8 kW output, this EcoDesign Ready and DEFRA-approved stove is ideal for larger rooms or open-plan living spaces – bringing warmth, performance, and timeless design together.

Dimensions: H 655 mm × W 570 mm × D 410 mm
Distance to combustibles: Sides 500 mm | Rear 150 mm

Mendip Churchill Double-Sided – 8 kW

Wood / Multi-Fuel Stove

A statement piece from every angle, the Mendip Churchill Double-Sided stove is designed to connect and heat two rooms with style. Featuring curved glass windows on both sides, it provides a stunning view of the flames wherever you sit. With a heat output of 8 kW, this EcoDesign Ready and DEFRA-approved model combines contemporary design with practical efficiency, making it a perfect centrepiece for open-plan or dual-aspect living spaces.

Dimensions: H 705 mm × W 580 mm × D 490 mm
Distance to combustibles: Sides 500 mm | Rear 150 mm

Mendip Woodland – 5 kW Wood / Multi-Fuel Stove

Inspired by the Mendip Hills, the Woodland is built for performance, efficiency, and rural charm. Crafted from steel with a cast-iron door, it delivers a 5 kW output with exceptional control and clean burning. Winner of the Best Wood-Burning Stove under 5 kW at the Hearth & Home Awards, it's EcoDesign Ready and DEFRA-approved, combining stylish design with real-world practicality. The large glass window offers a superb flame view, bringing warmth and atmosphere to any space.

Dimensions: H 655 mm × W 570 mm × D 410 mm
Distance to combustibles: Sides 500 mm | Rear 150 mm

Mi Fires

Modern efficiency, clean design, and unbeatable value.

Mi-Fires Skiddaw – 5 kW Wood-Burning Stove

Compact, efficient, and built for everyday reliability, the Mi-Fires Skiddaw is one of the UK's most popular 5 kW stoves. Its clean design, large viewing window, and smooth air controls make it effortlessly simple to use. With EcoDesign certification and a clean, efficient burn, it's perfect for modern homes, smaller rooms, and tighter fireplace openings – offering great performance at a great price.

Dimensions: H 553 mm × W 388 mm × D 333 mm

Distance to combustibles: Sides 400 mm | Rear 150 mm

Mi-Fires Grisedale – 5 kW Wood-Burning Stove

A larger, more spacious version of the popular Skiddaw, the Mi-Fires Grisedale offers the same clean, modern styling with a wider firebox and bigger flame picture. Built from high-grade steel with robust air controls, it delivers reliable 5 kW heat output, excellent efficiency, and a clear viewing window thanks to its effective airwash system. EcoDesign Ready and DEFRA-approved, it's ideal for medium-sized rooms or homes wanting a slightly larger stove without increasing output.

Dimensions: H 605 mm × W 430 mm × D 340 mm

Distance to combustibles: Sides 400 mm | Rear 150 mm

Mi-Fires Derwent (Medium) – 5 kW

Wood / Multi-Fuel Stove

Available in three sizes, the Derwent Medium offers the perfect balance of flame view and performance. Built with a durable steel body and solid cast-iron door, it provides efficient heat and dependable everyday use. EcoDesign Ready and DEFRA-approved, it delivers a clean burn with simple, effective air control – ideal for modern and traditional homes alike.

Dimensions: H 502 mm × W 438 mm × D 283 mm
Distance to combustibles: Sides 600 mm | Rear 850 mm

Mi-Fires Coniston Inset – 4.9 kW

Multifuel Stove

The Mi-Fires Coniston Inset is a compact 4.9 kW multifuel stove, offering a clean, flush finish and efficient EcoDesign performance. Built with a steel body and cast-iron door, it's perfect for standard openings and is also available in a larger size.

Dimensions: H 590 mm × W 435 mm × D 350 mm

Mi-Fires Tinderbox – 5kw Wood-Burning Stove

The Mi-Fires Tinderbox is a modern, clean-burning wood stove available in three sizes, making it perfect for everything from small snug rooms to larger living spaces. With a steel body, cast-iron door, and EcoDesign efficiency, it delivers strong performance and a bright, clear flame view.

Dimensions (Tinderbox Medium): H 605 mm × W 430 mm × D 340 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Mi-Fires Tinderbox – 5kw Multifuel Stove

The Mi-Fires Tinderbox Multifuel offers the same modern styling and clear flame view as the woodburner model, with the added versatility of burning both wood and solid fuels. Available in three sizes, it's EcoDesign Ready, efficient, and ideal for a wide range of room sizes and fireplace openings.

Dimensions (Tinderbox Medium): H 605 mm × W 430 mm × D 340 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Mi-Fires Tinderbox Logstore – 5kw Wood-Burning Stove

The Mi-Fires Tinderbox Logstore adds practical storage and extra height to the popular Tinderbox design. With its clean lines, large flame view, and EcoDesign efficiency, it's a stylish and functional choice – available in three sizes to suit a range of rooms and installations.

Dimensions (Tinderbox Logstore Medium): H 830 mm × W 430 mm × D 340 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Mi-Fires Solway – 5kw Multifuel Stove

The Mi-Fires Solway is a sleek, efficient multifuel stove with a modern slimline design and a clear, bright flame view. Built with a durable steel body and cast-iron door, it delivers excellent EcoDesign performance while fitting beautifully into both traditional and contemporary interiors. Available in three sizes, it suits everything from smaller snugs to larger living spaces.

Dimensions (Solway Medium): H 605 mm × W 430 mm × D 340 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Mi-Fires Ovale – 5kw Wood-Burning Stove

The Mi-Fires Ovale is a sleek, elliptical woodburner with a tall viewing window and elegant curved design. Built from strong steel with a smooth, contemporary finish, it offers a bright flame picture and efficient EcoDesign performance. Its modern shape makes it a perfect statement piece for open-plan rooms and stylish living spaces. Availability on logstore, logstore with door, or pedestal

Dimensions: H 900 mm × W 450 mm × D 380 mm
Distance to combustibles: Sides 450 mm | Rear 200 mm

Mi-Fires Rondo – 5kw Wood-Burning Stove

The Mi-Fires Rondo is a striking cylindrical woodburner designed to offer a full 180° flame view in a sleek, contemporary form. Built from high-quality steel with smooth, modern lines, it delivers efficient EcoDesign performance and a beautifully clean burn. Available with three interchangeable bases — Pedestal, Logstore, or Logstore with Door — the Rondo can be tailored to suit any room layout or style, making it one of the most versatile stoves in the Mi-Fires range.

Dimensions (Solway Medium): H 605 mm × W 430 mm × D 340 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Mi-Fires Poppy – 5kw Wood-Burning Stove

The Mi-Fires Poppy is a compact, modern woodburner designed to offer efficient heating in smaller living spaces. With its clean lines, tall viewing window, and simple air controls, it delivers an easy, reliable burn while still giving a bright, attractive flame picture. EcoDesign Ready and built with a strong steel body and cast-iron door, the Poppy is ideal for cottages, snugs, and rooms where space is limited but style still matters.

Dimensions: H 560 mm × W 390 mm × D 320 mm
Distance to combustibles: Sides 400 mm | Rear 150 mm

Mi-Fires Firepod Logstore – Wood-Burning Stove (5 kW)

The Firepod Logstore marries retro charm with modern performance. Cast-iron construction, large viewing window, and built-in log-storage base. Designed for efficient heat with an output of 5 kW, an ECODesign compliant 78.8% efficiency, and full DEFRA approval – ready for installation in smoke-controlled zones.

Dimensions: H 747.5 mm × W 459 mm × D 375 mm
Distance to combustibles: Sides 400 mm | Rear 400 mm

Stovax Stoves

British design. Exceptional performance. Built to last.

Stovax Stockton 3 – 3.75 kW Wood / Multifuel Stove

Compact yet powerful, the Stockton 3 is designed to fit neatly into a standard 22" (560 mm) high × 16" (405 mm) wide fireplace opening. With a durable steel body and cast-iron door, it delivers a heat output of 3.75 kW, a top performance range of up to 5 kW, and efficiency up to 86% – EcoDesign plus and DEFRA-approved for multi-fuel use.

Dimensions: H 510 mm × W 389 mm × D 338 mm
Distance to combustibles: Sides 300 mm | Rear 300 mm

Stovax Stockton 4 – 5 kW Wood / Multifuel Stove

Engineered for optimum performance and flexibility, the Stockton 4 features a steel body and cast-iron door, delivering 5 kW output and up to ~80% efficiency. EcoDesign Plus certified and DEFRA-approved for multifuel use, it offers a versatile fit for both traditional and contemporary spaces.

Dimensions: H 575 mm × W 389 mm × D 360 mm
Distance to combustibles: Sides 300 mm | Rear 300 mm

Stovax Stockton 5 – 5 kW Wood / Multi-Fuel Stove

The Stockton 5 strikes the perfect balance between size and performance. With a robust steel body and cast-iron door, it delivers a nominal output of 5 kW and efficiency up to 85%. EcoDesign Ready and DEFRA-approved, it accommodates logs up to 330 mm (13") and features clean-burn and air-wash systems.

Dimensions: H 544 mm × W 481 mm × D 335 mm
Distance to combustibles: Sides 300 mm | Rear 300 mm

Stovax Stockton 8 – 8.3 kW Wood / Multi-Fuel Stove

The Stockton 8 offers outstanding heat output and flexibility, with both wood and multi-fuel versions and choices of single or double doors. Built with a steel body and cast-iron door, this EcoDesign Ready and DEFRA-approved model boasts impressive performance for larger rooms while retaining the refined styling you expect from Stovax.

Dimensions: H 620 mm × W 603 mm × D 385 mm
Distance to combustibles: Sides 400 mm | Rear 400 mm

Stovax Huntingdon 30 – 5 kW Wood-Burning Stove

Blending traditional cast-iron styling with modern efficiency, the Huntingdon 30 is a classic 5 kW woodburner with a beautifully detailed arched window and exceptional flame view. EcoDesign Ready and DEFRA-approved, it delivers up to 82.7% efficiency and is ideal for both cottages and period homes, or anyone wanting a timeless centrepiece.

Dimensions: H 592 mm × W 560 mm × D 469 mm
Distance to combustibles: Sides 300 mm | Rear 300 mm

Stovax Sheraton – 5 kW Multi-Fuel Stove

The Sheraton combines timeless cast-iron design with modern efficiency. With a nominal output of 5 kW (range 2.5-7 kW) and up to 79.4% efficiency, this EcoDesign-Ready and DEFRA-approved multifuel stove suits everything from traditional cottages to contemporary homes. Built with heavy-gauge steel and cast-iron construction, the Sheraton features bevelled detailing and a wide viewing window for a striking flame picture.

Dimensions: H 615 mm × W 472 mm × D 372 mm (standard model)
Distance to combustibles: Sides 300 mm | Rear 300 mm

Stovax Futura 5 – 5 kW Multifuel Stove

The Futura 5 blends elegant curves with modern combustion technology. This EcoDesign Plus and DEFRA-approved multifunction stove features a steel body with cast-iron door, a large viewing window, and integrated heat shields to maximize room heat and allow reduced clearances. Available in three sizes, it's suitable for a range of room sizes and installation styles.

Dimensions (Standard): H 588 mm × W 523 mm × D 398 mm
Distance to combustibles: Sides 225 mm | Rear 150 mm

Stovax Vogue Small – 5 kW Wood-Burning Stove

The Vogue Small presents a bold flame view from a compact frame – engineered for both style and performance. With its steel body, cast-iron door, and expansive glass window, it delivers a nominal 5 kW output and up to ~80% efficiency, while being EcoDesign Ready and DEFRA-approved for wood use in smoke control areas.

Optional base options available: plinth base or midline log-store base to suit your space.

Dimensions: W 371 mm × H 497 mm × D 334 mm
Distance to combustibles: Sides 400 mm | Rear 450 mm

Stovax Riva 2 55 – Wood-Burning Inset Stove

The Riva 2 55 combines sleek design with efficiency, delivering a deep firebox and panoramic flame view. Built with a steel body and cast-iron door, this inset model offers a streamlined finish and powerful performance. With EcoDesign Ready and DEFRA-approved certification, it's designed for modern, high-performance installations.

Dimensions: H 466 mm × W 550 mm × D 310 mm
Distance to combustibles: Sides 200 mm | Rear 200 mm

Stovax Studio 500 Freestanding – Wood-Burning Stove

The Studio 500 Freestanding brings contemporary styling and an impressive flame view in a compact, modern format. Designed with clean architectural lines and a wide glass window, it offers a striking centrepiece while delivering powerful EcoDesign-certified performance. With a robust steel body, integrated airwash, and DEFRA-approved clean burning, it's ideal for modern homes wanting a premium freestanding feature.

Dimensions: H 579 mm × W 790 mm × D 380 mm
Distance to combustibles: Sides 250 mm | Rear 200 mm

Stovax Studio 2 Freestanding – 8.5 kW

Wood-Burning Stove

The Studio 2 Freestanding offers an expansive flame view and high heat output, making it a standout choice for larger spaces. Built with a steel body and cast-iron door, it features advanced clean-burn technology (EcoDesign Plus) and is DEFRA-approved for wood burning in smoke control areas.

Dimensions: W 1000 mm × H 504 mm × D 380 mm
Distance to combustibles: Sides 500 mm | Rear 300 mm

Stovax Studio 3 Freestanding – 11 kW

Wood-Burning Stove

The Studio 3 offers maximum impact with widescreen flame visuals, high output and modern architectural styling. Built with a robust steel body and cast-iron door, it's EcoDesign Plus certified and designed for wood-only burning.

Dimensions: H 516 mm × W 1389 mm × D 445 mm
Distance to combustibles: Sides 500 mm | Rear 300 mm
