Number of resident housing units: **Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house residents of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows residents to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.**	1

Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Overview

The on-site Prison Rape Elimination Act (PREA) compliance audit of the Tomorrows Hope (TH), located in Coalport, Pennsylvania, was conducted on July 11-12, 2019 by U.S. Department of Justice (DOJ) certified PREA Auditor, James L. Roland Jr. from The Nakamoto Group, Inc. The standards used for this audit became effective August 20, 2012. The Auditor conducted an opening meeting, toured the entire facility, interviewed a randomized sample of staff and reentrants and reviewed PREA related staff and reentrant documentation. Upon completion of the audit process, a closing meeting was held with the administrative staff to discuss the audit process, preliminary findings and the post-audit process. Employees at the facility were extremely courteous, cooperative and professional. All areas of the facility were found to be clean and well maintained. During the closing meeting, the Auditor thanked the staff for their hard work and dedication to the PREA process.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Pre-Audit Phase

On June 1, 2019, PREA Audit Notices (in English and Spanish) where sent to the facility to be posted. The Auditor observed these postings during the tour. These notices were posted in the living units, at the main entrance and in the visitation area. These notices were posted for six weeks pre-audit. The Auditor received no correspondence from reentrants prior to the on-site visit.

TH staff members were asked to complete the Pre-Audit Questionnaire (PAQ) also provided to the facility on June 1, 2019. The completed PAQ and supporting documentation was received by the Auditor on July 5, 2019. All documentation was reviewed by the Auditor including educational materials, training logs, posters, brochures, agency policies, institution

supplements, procedures, forms, organizational charts and other PREA related documentation.

On July 11, 2019, the Auditor requested additional information including, but not limited to, staff rosters, inmate rosters, investigations, reentrants self-identified as being gay, bi-sexual, transgender, or intersex (LGBTI), reentrant reports of sexual abuse/sexual harassment, reentrants who are Limited English Proficient (LEP), and additional examples of the TH screening instrument. These documents were provided and reviewed at the time of the audit.

On-Site Audit Phase

The Auditor held an opening meeting on the morning of July 11, 2019 at the Tomorrow's Hope facility with administrative staff. The audit schedule and process were discussed during the meeting. Including the Auditor, those present at the meeting were:

- Chief Executive Officer (CEO)
- Reentrant Manager/District PREA Compliance Manager (PCM)
- Office Manager

The Auditor was provided a private area in which to work and conduct confidential interviews. All requested files and rosters, both staff and reentrants, were made available to the Auditor for review.

Immediately following the opening meeting, a tour of the facility was completed. The Auditor was escorted by the PCM and the Security Supervisor. During the tour, the Auditor reviewed PREA related documentation and materials located on bulletin boards and pertinent entries made in electronic logs. The Auditor assessed camera surveillance, physical supervision and electronic monitoring capabilities. Other areas of focus during the facility tour included, but were not limited to, levels of staff supervision and limits to cross-gender viewing. All signs and postings were in both English and Spanish. Reentrants can shower, dress and use the toilet facilities without exposing themselves to employees of the opposite gender. Informal and formal conversations with employees and reentrants regarding the PREA standards were conducted. Postings regarding PREA violation reporting and the agency's zero-tolerance policy for sexual abuse and sexual harassment were prominently displayed in all living units, meeting areas and throughout the facility. Audit notice postings with the PREA Auditor's contact information were posted in the same areas. The Auditor notice postings were posted 60 days prior to the on-site visit. Unimpeded access to all areas of the facility was provided to the Auditor.

Reentrant Interviews

At the time of the audit there were 72 male reentrants housed at TH. A total of 16 reentrants were interviewed. There were no Limited English Proficient (LEP) or physically disabled reentrants at the facility. One cognitively disabled reentrant was interviewed. Staff indicated there were no gay, bi-sexual, transgender or intersex reentrants at the facility. The Auditor interviewed no reentrants who reported sexual abuse or who reported sexual victimization

during risk screening. No reentrants refused to be interviewed. Interviews were conducted using the Department of Justice (DOJ) protocols to assess a reentrant's knowledge of the PREA and the reporting mechanisms available to them.

Staff Interviews

TH employs a staff of 27 individuals. Fourteen staff interviews were conducted; these interviews included six random staff (from all three shifts) and eight administrative/specialized staff. The administrative staff included the CEO, PCM and Office Manager. The specialized staff included a volunteer, Case Manager, Security Supervisor and a Security Monitor. All staff members have been trained to act as first responders when a PREA related incident occurs.

File Review

Following the interviews, the Auditor reviewed the files requested during the pre-audit phase. The Auditor reviewed personnel files to establish compliance with PREA training mandates and background checks. The facility has no contractors. In the event a contractor would be required within the facility, all contractors would be escorted by staff. Screening and intake procedures were evaluated by reviewing random reentrant files which included a vulnerability assessment instrument.

Investigations

During the current auditing period, there was one reported allegation of sexual abuse/sexual harassment. This investigation is ongoing, with no outcome by the date of filing this report. All criminal investigations are conducted by the Pennsylvania State Police (PSP), in conjunction with the Pennsylvania Department of Corrections (PDOC). The CEO and the PCM are responsible for receiving verbal and telephonic referrals 24 hours a day, seven days a week. Additionally, abuse investigation outcomes and general protective services assessment outcomes are submitted to, reviewed and finalized by the CEO and the PCM. No reentrant correspondence was received by the Auditor prior to the visit.

Closeout

A closing meeting was held with the Auditor and the administrative staff on the morning of July 12, 2019. Discussions centered on the audit process, preliminary findings, and the post-audit process. The Auditor thanked the staff for their hard work and dedication to the PREA process.

Facility Characteristics

Tomorrows Hope opened its doors in 2008, originally licensed as a homeless shelter for veterans. It has transitioned to its current operational configuration, as a transitional housing center for homeless veterans, parolees and parolee veterans. Tomorrows Hope is a contract provider for the Lebanon Veterans Administration Medical Center (VAMC), Lebanon, Pennsylvania; Butler VAMC, Butler, Pennsylvania; Pittsburgh VAMC; and the Pennsylvania Department of Corrections.

Tomorrows Hope provides a safe, secure and nurturing environment. They strive to provide client-centered, transitional care for reentrants by providing intensive individualized case management and goal planning.

Tomorrows Hope is three-building, 110 bed transitional housing center, located in Beccaria Township, Clearfield County, Pennsylvania. The buildings provide open barrack style living to the reentrants at the facility. All buildings comply with current building and occupancy codes of Clearfield Co. Pennsylvania.

Tomorrows Hope is a secure facility with remote controlled gate access at the main entry point to the facility. The main entry point utilizes 2-way communication to verify entrance into the facility. Perimeter lighting is optimized from dawn to dusk. Camera monitoring systems are located within the facility and are monitored from the security office. Playback and recording modes are available on each system.

Tomorrows Hope reentrants complete a PREA Risk Assessment Tool (PRAT) within 72 hours of their intake. The results of the assessment are utilized in determining housing. Staff members are aware of the social history of the offenders and use this information in both

program referrals and housing assignments. PREA Risk Assessment Tools are administered, as necessary, throughout the reentrant's stay at Tomorrows Hope. That information is utilized to ensure the safety of the reentrant and that adequate programming has been provided.

Tomorrows Hope utilizes an Activity Planner provided by the Bureau of Community Corrections. This tool determines the amount of time each reentrant is permitted to be out of the facility per day (unit time). Most reentrants are out of the facility for eight to fourteen hours per day, depending on their employment status. Reentrants are also granted furloughs and passes to leave the facility for recreation and family reunification.

Reentrants are monitored on-site by Pennsylvania Board of Probation and Parole agents. This ensures they are participating in all mandated treatment, to include drug and alcohol, mental health and any necessary specialized treatment.

Evidence Reviewed (on-site visit, documentation, staff and reentrant interviews):

1. TH Pre-Audit Questionnaire
2. Policy 3.17 - 215 - Cross Gender Viewing
3. PREA Training Curriculum
4. PREA Training Acknowledgement
5. TH Post Orders
6. Interviews with the following:
    a. Staff (Specialized/Random)

Policies and documentation address this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Staff interviews indicated they received cross-gender pat search training during initial and annual training. The Auditor observed that each unit has individual shower stalls for privacy. The facility has implemented a policy that all staff working the shift will announce themselves prior to walking the units to allow reentrants the opportunity to prepare themselves from a privacy perspective. The reentrants interviewed acknowledged they can shower, dress and use the toilet privately, without being viewed by staff of the opposite gender. Staff, along with reentrants interviewed, indicated that employees of the opposite gender announce their presence before entering a unit. Staff members were aware of the policy prohibiting the search of a transgender or intersex reentrant for the sole purpose of

determining the reentrant's genital status. During the past 12 months, there were no exigent circumstances that required cross-gender viewing of a reentrant by a staff member at Tomorrows Hope.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

4. Interoffice Communication RE: Translation Services
5. Policy 3.17 - 216 - Reentrants with Disabilities
6. Interviews with the following:
    a. Staff (Specialized/Random)

TH takes appropriate steps to ensure reentrants with disabilities and reentrants with Limited English Proficiency (LEP) have an opportunity to participate in and benefit from the facility's efforts to prevent, detect and respond to sexual abuse and sexual harassment. PREA handouts, bulletin board postings and reentrant handbooks are in both English and Spanish. These documents were submitted to and reviewed by the Auditor. Interviewed staff members were aware of the policy that, under no circumstances, is any reentrant interpreter or assistant to be used regarding PREA issues. Where interpreters are necessary, yet unavailable, the contracting authority will be notified for assistance and, in the meantime, a case manager is assigned and will use Google Translate or other online translation programs to review intake and handbook information, to include all PREA information, training and procedures. TH also has an agreement with a local private translation services vendor to interpret, if it is required. At the time of the audit, there were no LEP reentrants, no reentrants with physical disabilities and no reentrants who were unable to understand the PREA. The review of documentation and staff and reentrant interviews support a finding that the facility is compliant with this standard.

Policies and documentation address the components of this standard. The facility puts forth its best efforts to educate the reentrants regarding the PREA. Reentrants receive information during the intake process including a PREA packet and Reentrant Handbook, printed in English and Spanish. A staff member conducts an education program regarding the PREA for all reentrants within 30 days of their arrival at the facility. Most PREA education is conducted with 24 hours of arrival to TH. The program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies and reporting modalities. Reentrants also view a comprehensive orientation video that explains the facility's zero-tolerance policy and covers the reentrant's right to be free from sexual abuse, sexual harassment and retaliation. There are PREA posters displayed throughout the facility and in each housing unit and a "Hotline" telephone number, which may be called to report sexual abuse or sexual harassment. Since the "Hotline" telephone number is an 800-toll-free number, reentrants can call from any of the available telephones. The mailing address is listed in the Reentrant Handbook and posted in each housing unit for reentrant correspondence concerning any sexual abuse or sexual harassment allegation. There is also a translation language line available to LEP reentrants. The Auditor was provided a random sampling of Admission and Orientation (A&O) Checklists/Signature Sheets to verify that reentrants, admitted during the auditing period, received the PREA education and relevant written materials. All reentrants are required to acknowledge, in writing, completion of PREA education. During the interview process, randomly selected reentrants indicated they received information about the facility's rules

against sexual abuse/sexual harassment, when they arrived at the facility. They further indicated they were advised about their right not to be sexually abused/sexually harassed, how to report sexual abuse/sexual harassment, and their right not be punished for reporting sexual abuse/sexual harassment. Reentrants were aware of available services outside of the facility for dealing with sexual abuse.

Policy addresses the requirements of this standard. Facility policy requires the use of a screening instrument to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping reentrants at a high risk of being sexually abused/sexually harassed separate from those reentrants who are at a high risk of being sexually abusive. Facility policy also requires all reentrants to be screened within 72 hours of arrival; however, they are routinely screened on the day of arrival. Risk management staff review all relevant pre-sentence documentation and information from other confinement facilities and reassess a reentrant's risk level, as necessary, within 30 days of arrival. Facility policy prohibits reentrants from being disciplined for refusing to answer, or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history and perception of vulnerability. Housing and program assignments are made on a case-by-case basis and reentrants are not placed in housing units based solely on their sexual identification or status. Interviews with risk management staff and a random review of risk screening assessments support the finding that the facility is compliant with this standard.

Policies, screening forms and interviews address the requirements of this standard. Facility policy requires the use of a screening instrument to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping reentrants at a high risk of being sexually abused/sexually harassed separate from reentrants at a high risk of being sexually abusive. Housing and program assignments are made on a case-by-case basis and reentrants are not placed in housing units based solely on their sexual identification or status. Based on information provided by the facility, no LGBTI reentrants were housed in TH at the time of the audit. Additionally, no reentrant indicated sexual victimization or abusiveness during risk screening. All the reentrants mentioned above were interviewed in support of this standard. During the audit, risk management staff indicated transgender and intersex reentrants would be reassessed biannually and the reentrants' own views with respect to their safety would be given serious consideration. Additionally, all reentrants are given the opportunity to shower separately from other reentrants. Staff and reentrant interviews, the review of supporting documentation and the Auditor's observations support the facility being in compliance with the standard.

b. Reentrants

Policies, the PREA Notices and Reentrant Handbook address the requirements of the standard. A review of supporting documentation and staff/reentrant interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately and from a third party) for reentrants to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations. There are posters and other documents on display throughout the facility which explain reporting methods. Staff members promptly accept and document all verbal, written, anonymous, private and third-party reports of alleged abuse. Reentrants may report sexual abuse/sexual harassment by using the PDOC website, phoning the PREA "Hotline" number, contacting the Pennsylvania Ombudsman Office, Passages Victim Advocacy Center, or contacting facility staff. Family and friends also have access to these methods of reporting. All interviewed reentrants confirmed awareness of the multiple methods of reporting sexual abuse/assault allegations. Interviews with staff and reentrants, observation of posters addressing reporting methods and an examination of policy/documentation confirm that TH is in compliance with this standard.

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. - If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time (the maximum allowable extension of time to respond is 70 days per 115.252(d)(3)) , does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? 115.252 (e)

- Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.)
  ☒ Yes ☐ No ☐ NA

- After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.). ☒ Yes ☐ No ☐ NA

- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

    a. Staff (Specialized/Random)
    b. Reentrants

Reentrants may file a grievance; however, all allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred to the PCM. Reentrants are not required to use an informal grievance process and procedures also allow a reentrant to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. Additionally, policy prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision. Policy states that there is no time frame for filing a grievance relating to sexual abuse or sexual harassment. Allegations of physical abuse by staff shall be referred to management, in accordance with procedures established for such referrals. Policy addresses the filing of emergency administrative remedy requests. If a reentrant file the emergency grievance with the facility and believes he is under a substantial risk of imminent sexual abuse, an expedited response is required to be provided within 48 hours. There is no prohibition that limits third parties, including fellow reentrants, staff members, family members, attorneys and outside victim advocates in assisting reentrants in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of reentrants. There were no grievances filed involving PREA related issues during the past 12 months. There were no grievances alleging sexual abuse that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by reentrants in which the reentrant declined third-party assistance. Reentrants are held accountable for manipulative behavior and false allegations. Generally, disciplinary action would be taken if a grievance was filed in bad faith.

1. TH Pre-Audit Questionnaire
2. Policy 3.17 - 271 – Criminal and Administrative Agency Investigations
3. Interviews with the following:
    a. Staff (Specialized/Random)

Policy addresses the components of this standard. All investigations are referred to the Pennsylvania State Police (PSP) by the PDOC Management Organization Center (MOC) to determine if prosecution will be pursued. The CEO serves as the facility liaison and provides requested information to outside investigative agencies, as well as access to the reentrant. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the individual's status as reentrant or staff. The agency does not require a reentrant who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation. There was one PREA sexual abuse/sexual harassment allegation investigated at TH during the auditing period and that investigation is ongoing. Reentrants are notified of the

outcome of an investigation. Compliance with this standard was determined by a review of policy/documentation and staff interviews.

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.278 (a)

115.278 (f)

3. Policy 3.11 Code of Conduct
4. Reentrant Handbook
5. Interviews with the following:
    a. Staff (Specialized/Random)

Policy addresses the requirements of this standard. The policy defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The program identifies reentrants engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Non-consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between reentrants does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the reentrant's disciplinary history and the sanctions imposed for comparable offenses by other reentrants with similar histories. Reentrants are subject to disciplinary sanctions pursuant to the formal disciplinary process defined by policy. The facility does not discipline reentrants who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. The disciplinary process considers whether a reentrant's mental disabilities or mental illness contributed to the reentrant's behavior when determining what type of sanction, if any, should be imposed. If mental disabilities or mental illness is a factor, the facility considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. Compliance with this standard was determined by a review of policy/documentation, an examination of the reentrant discipline process and staff interviews.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Reviewed (on-site visit, documentation, staff and reentrant interviews):

This was the second PREA audit of this facility. The Auditor was allowed access to all areas of the facility and had access to all required supporting documentation. The Auditor was able to conduct private interviews with both reentrants and staff. The Auditor was provided supporting documentation before and during the audit. Notifications of the audit posted throughout TH allowed reentrants to send confidential letters to the Auditor prior to the audit. No confidential letters were received by the Auditor as a result of the audit postings.

Evidence Reviewed (on-site visit, documentation, staff and reentrant interviews):

Tomorrows Hope has fully implemented all policies, practices and procedures outlined in the PREA standards. The Auditor reviewed applicable standards and, through the review of supporting documentation, interviews with staff, reentrants and the observation of physical evidence, concluded that this facility fully meets and substantially complies in all material ways with the PREA standards for the relevant review period. Facility policies are directly tied to the PREA standards and staff expectations. The facility's leadership is fully committed to eliminating sexual abuse/sexual harassment, as evidenced in the realistic staffing analysis and staff's on-going efforts to ensure all policies, procedures and practices comply with the Prison Rape Elimination Act. PREA training for staff and reentrants is documented and all stakeholders receive the appropriate level of training and are knowledgeable of the intent of the PREA and the tools available to ensure prevention, detection, reporting and response to sexual abuse incidents. Sexual abuse and victimization propensity screening is well established and tracked in an organized fashion. Referrals for mental health counseling are integrated in the intake and allegations of sexual abuse processes. Medical networks for the reentrants are established in the community. The public has access to reporting mechanisms

and the agency PREA trends data via the agency website. Tomorrows Hope currently complies with all applicable PREA standards and no corrective actions are required.
