Animal Control & Care Academy

2025 / 2026 Training Catalog

The importance of an Animal Control agency to a community is paramount. Whether measured by the number of Animal Control personnel involved, the portion of budget allocated to animal services, or the reality that the Animal Control Officer has over 4 times more public contacts than a police officer, Animal Control employees are the mainstay of Animal Control work. The way in which these individuals carry out their duties affects not only the quality of life for animals, but also the citizens' perceptions of Animal Control. The Animal Control & Care Academy was established to provide animal control training opportunities at the city, county, state and national level. ACCA programs are unique in that the training is specific to Animal Control employees focusing on staff safety and professional service at an affordable price.

ACCA brings the training to the agency, saving taxpayers hundreds of dollars in travel-related expenses. You can "build" a program based upon what you feel your agency or staff would most benefit from. Pick and choose the topics and the number of days for training. We are flexible in our offerings. Your agency can also purchase blocks of training for your staff - you can select the topics later. This is a simple way in which to annually budget for in-service training. Training blocks may be acquired in 8 hour increments.

Want to host some ACCA training? Each hosting agency receives 2 complimentary registrations for every 10 paid registrations. ACCA handles much of the work and we can promote the training to area agencies and provide registration forms. All we request from the hosting agency is the meeting space and audio/visual support.

Call us or e-mail – we are here to help with your training needs!

Thanks,

Mark Kumpf, CAWA
CEO / Master Instructor

Frequently Asked Questions

How much does it cost to host a course?

Hosting a course costs nothing – zero. Unless you incur some expense for the training room or marketing the program at the local level, hosting a course will cost you and your agency nothing at all. The fee for the course, that you host, is generated from other registered students (as well as any staff members that you might register).

How many free registrations do I receive for hosting?

The hosting agency receives 2 complimentary registrations for every 10 paid.

What is the minimum number of students for a course?

Generally, we would like a minimum of 10 paid students in order for the hosting agency to earn their comps. However, the minimum number of students depends upon the course, its location, and how far we have to travel to reach your area.

What do you expect from us?

We ask that you assist us in promoting the course, which is basically making a few phone calls, sending e-mails, or sending faxes to neighboring agencies. ACCA will also promote the training to area agencies, via mailers and electronics means, and provide registration forms. We also ask that you assist us with the logistics. If a training room is required for the course, we ask that you help us secure the use of a room and the necessary a/v equipment. A recommendation of area hotels, to accommodate students who might require overnight accommodations, is also appreciated.

What does Animal Control & Care Academy provide?

ACCA will handle all of the class inquiries, registrations, invoicing and payments.

How much advance time is necessary to host a course?

We would like to offer as much advance notice to agencies as possible, but we generally need at a minimum of 8 weeks in order to plan and promote courses. In-house courses may be scheduled without the lead time as availability permits.

How do we get started?

Contact us at 937-825-6709 or mkumpf@accacademy.net. If you have a course in mind or if you haven't decided yet, we can discuss your training needs, and the logistical requirements of the various courses. We can also review your staff's scheduling in order to allow as many employees as possible to attend the training.

In-House Training

In-house training allows your agency to have a “private” course for your staff only. The number of participants will be determined by you, so the minimum of students typically required for a course would not apply. Your agency would be responsible for the course fee, limited to a mutually-agreed upon number of participants. Both ACCA and your agency would agree on a set price for the training and ACCA would deliver the course for that cost. Our expenses would still be our responsibility. By offering in-house training, we can more easily customize a course to the specific needs of your agency.

Host Requirements

Meeting Space

The hosting agency would provide a meeting room which will accommodate a maximum number of students committed to the program. The meeting room should be set classroom style for at least 30 people. If available, a stand-up podium is also requested along with a table off to the side for equipment.

Audio/Visual Requirements

The following equipment would be needed in the meeting room by 7:30 am each day:

- A Projection Screen.
- A table for a laptop, along with electrical power, placed in the front of the meeting room.
- An LCD projector.
- Speakers for sounds, and wireless Internet access (if available).

How to Build Your Program

Your agency can “build” a program based upon what you feel your staff would most benefit from. Pick and choose the topics and the number of days for training. We are flexible in our offerings. You can also take advantage of our already “built” courses, which are described within this catalog. For the most part, the cost is \$175 per day, per student. Begin building your program by determining the duration of the training – decide on how long you want the program to be – 1, 2, 3, 4 or 5 days. Then fill those days with 4 and/or 8-hour blocks from the catalog. You may also combine smaller blocks (i.e.: 1 - 3 hours) in order to fill an 8-hour day.

Costs for Instruction

Costs for programs vary by length and deliverables. ACCA provides instructors, speakers, training manuals, tests and all necessary items for our trainings included in the registration cost or as part of our custom program quotations.

Four Day Certification Pre-Built Courses:

\$595 per course with testing and certification.

*May be compressed to Three days for certain courses. Fee remains \$595

Three Day Certification Pre-Built Courses:

\$450 per course with testing and certification.

Two Day Certification Pre-Built Courses:

\$350 per course with testing and certification.

One Day / Half Day Skills Certification Courses:

\$225 per course with testing, practical & certification.

One Day General Instruction Courses:

\$175 per course with certificate of attendance, no testing or certification.

Custom Courses with user selected topics and days:

Call for Quote

In-house Only Custom Training:

Conference Presentations:

Call for Quote

Program Evaluations & Consulting Services Available by Contract.

ACCA has implemented a \$50 late registration fees for all registrations received seven (7) days or less from any program state unless otherwise pre-approved.

ACCA will offer a full refund or credit for a future class for cancellations received seven (7) days prior to a course start. After that time, a credit for future classes will be provided. Payments must be received within 30 days of class conclusion or late fees may apply. ACCA accepts credit card payments via PayPal, checks, direct EFTs, and purchase orders. No show / no call students are not eligible for a refund and credit will be issued for future classes on a case by case basis.

ACCA can offer training on virtually any topic related to animal control, shelter operations, animal welfare or basic safety. We have many presentations in inventory and can create custom presentations on request including agency or animal law specific materials. Any pre-built course topic is also able to be combined into a custom program of materials.

ACCA Pre-Built Courses

Basic Animal Control Officer Certification

DESCRIPTION

The ACCA Basic Animal Control Officer Certification program is designed for Animal Control Officers at the federal, state, and local levels, Police Officers, and Sheriff's Deputies responsible for animal control and all of its many facets. In addition, those people interested in a career in the animal control/care field are welcome to attend. No previous animal control experience is required. Successful completion of the Basic Animal Control Officer Certification shall include a minimum passing score of 80% on written examinations and mandatory attendance during all training. The course is comprised of eight separate blocks of instruction to include: Laws and Enforcement Procedures; Interpersonal Communication; Officer Safety and Protection; Basic Animal Control Officer Investigations; Evidence Law and Collection; Courtroom Presentation and Testimony; Report Writing; Canine Behavior and Aggressive Dogs; and Safe Animal Handling/Capture and Restraint Equipment. The ACCA Basic Animal Control Officer Certification program has been carefully researched and offers the most current animal control-related information available.

For specific course descriptions, please refer to those sections located within the catalog.

Day 1

Laws and Enforcement Procedures – 8 hours

Day 2

Interpersonal Communication – 4 hours

Officer Safety and Protection – 4 hours

Day 3

Basic Animal Control Officer Investigations – 4 hours

Evidence Law and Collection – 2 hours

Courtroom Testimony and Report Writing – 2 hours

Day 4

Canine Behavior and Aggressive Dogs – 4 hours

Safe Animal Handling/Capture and Restraint Equipment – 4 hours

COURSE FEE

The ACCA Basic Animal Control Officer Certification course costs just \$595 per student for the complete 4-day course. Hosting agencies receive 2 complimentary registrations for every 10 paid registrations. NOTE: This course may be compressed to three (3) days with all areas covered, regular fee applies.

ACCA Pre-Built Courses

Advanced ACO/HLEO Certification Course

DESCRIPTION

The course is comprised of the following blocks of instruction:

Animal Attack Investigation and Reporting - In this class, we will address the differences between an animal attack and an animal bite, the necessity of conducting thorough animal attack and animal bite investigations, the basic steps in conducting an animal attack and animal bite investigation, the basic forensics involved in determining whether injuries are bites or scratches, and common rabies quarantining. We will also discuss common procedures of reporting rabies exposures to the state department of health and some general options in declaring that attacking animal a potentially dangerous or dangerous animal.

Animal Crime Scene Photography, Videography and Sketching - Because animal laws are becoming more complex and courts and lawyers are demanding more evidence, animal crime scene investigation is becoming more important. This is a basic course designed to provide an understanding of the equipment, basic techniques and basic principles involved in conducting crime scene photography, videography, and sketching of animal crime scenes.

Animal Hoarding Investigations - During this course, we will address the typical types of animal hoarders, mental health concerns associated with animal hoarders, physical health concerns for humans and animals in a hoarder environment, and service agencies that might be available to assist hoarders. We will also discuss the primary methods of intercedence, challenges associated with hoarder cases such as the volume of animals and the costs associated with mass animal impoundment of hoarder animals. We will discuss the psychology of animal hoarding, investigating hoarding allegations, MASS Animal impounds, and methods of reducing recidivism.

Illegal Animal Fighting - During this section, we will focus on various types of Blood Sports and investigations. We will discuss the Federal Animal Welfare Act, the federal Animal Fighting Prohibition Enforcement Act, and various state statutes, which prohibit dog fighting, cock fighting, bull or bear baiting, and more. We will discuss the types of animal fighters, equipment and medical supplies frequently used during Blood-Sport activities, and various collateral crimes and activities often associated with dogfighting, cockfighting, Siamese fighting fish (also known as Betta) and Finch fighting.

Livestock and Exotics Cases - During this block of instruction we will focus on strategies for the capture, restraint, and handling of large animals such as cattle and horses as well as exotic animals, such as snakes and other reptiles. We will discuss the Use of Force Continuum as it applies to capture, restraint, and handling of animals, large animal equipment and preparation planning and animal and officer safety. Lastly, we will discuss investigative techniques commonly used in livestock or exotic animal neglect or abuse investigations and livestock or exotic animal exhibit inspections.

ACCA Pre-Built Courses

Advanced ACO/HLEO Certification Course

DESCRIPTION (continued)

Obtaining and Executing Search Warrants - In this block of instruction we will discuss the history and legal basis for search warrants, search warrant applications, the warrant itself, and the warrant return. We will discuss the common property legal descriptions, curtilage and areas to be searched. In addition, we will discuss the basic steps in executing a search warrant and provide examples of search warrants used in several states.

Officer Safety in the Field - All animal care and control professionals should strive to survive the day and go home happy, healthy, and whole. Employers also want their employees to be safe and injury free. During this course, we will discuss general safety issues such as how to avoid slip, trip, and fall injuries, proper lifting techniques and body mechanics, stress management, and compassion fatigue. We will discuss basics of vehicle and emergency driving safety, confrontation communication, and some basic self-defense tactics.

Proactive Animal Control - In this class, we will discuss public perception versus reality of animal control, methods of improving public relations, and the public's view on animal control. This course will offer a basic understanding of common animal control programs designed to provide improved customer service in the field to the human and animal residents of a community, to include complaint responses, alternative options, and solutions. It will also cover handling pets from emergency medical situations, domestic violence situations, or the death of the owner.

Using Forensics in Animal Cruelty Investigations - During this class we will discuss the history of forensic sciences for use in solving human-on-human crimes as well as the modern application of the various forensic sciences in animal neglect, abuse, and cruelty investigations. We will discuss the use of forensic botany, chemistry, dactyloscopy, entomology, and geology in animal cases and how geomorphology, odontology and podiatry, serology, and toxicology can be applied to animal related investigations.

COURSE FEE

The ACCA Advanced ACO/HLEO Certification Course costs just \$595 per student for the complete 4-day course. Hosting agencies receive 2 complimentary registrations for every 10 paid registrations. NOTE: This course may be compressed to three (3) days with all areas covered, regular fee applies.

ACCA Pre-Built Courses

Shelter Technician Certification

DESCRIPTION

The ACCA Shelter Technician Certification program is designed to prepare individuals with the fundamental skills needed to work in an animal shelter. Additionally, it is a valuable training for field services staff and management whether you operate or contract with a shelter to house your animals. The course is comprised of the following blocks of instruction:

Animal Care in a Sheltering Environment – This course will offer a basic understanding of effective practices in daily animal care in a sheltering environment, to include feeding and watering practices, proactive health care, socialization and daily exercise designed to improve the animal's quality of life in the sheltering environment and improve the animal's overall welfare.

Animal Disposition Options – This course will offer a basic understanding of the various forms of animal disposition options available to most animal sheltering facilities and offer program overviews which can provide for increases in the likelihood of a positive disposition, to include: adoption options and programs; animal rescue-transfers and rescue programs; animal redemptions; and humane euthanasia. This course also provides and overview of effective animal rescue coordination programs and animal rescue network development.

Animal Identification – Breed and Description – This course will offer a basic understanding of how to effectively identify an animal's breed and provide effective descriptions which are essential for proper intake record-keeping and for increasing the likelihood of a positive disposition for animals in the care of an animal sheltering facility, to include breed characteristics, coat colors and patterns, commonly found markings, as well as ear and tail types.

Animal Shelter Design and Operations – This course will offer a basic understanding of animal shelter facility maintenance, sanitization, and management that offers enhanced animal health and welfare. While many states have regulations, which specify the minimum standards of animal shelter facilities upkeep and maintenance, this course will discuss many of the most common areas of animal facilities maintenance which might be viewed as best practices for ensuring animal health and welfare, to include such topics as noise and light levels; corrosion control; animal housing arrangements; and more.

Animal Shelter Record-Keeping – This course will offer a basic understanding of the paperwork and record-keeping necessary for effective animal shelter operations, animal care, animal dispositions, and customer service in an animal sheltering environment, to include: animal intake forms, medical intake evaluations, Lost and Found Reports, animal temperament and behavior evaluation forms, animal adoption contracts, animal rescue transfer contracts, owner relinquishment forms, and several more examples.

Canine and Feline Behaviors and Assessments – This course will offer a basic understanding of common dog and cat behaviors in an animal sheltering environment and provide an overview of the variety of assessment programs. Dogs and cats will often act differently in a sheltering environment than they will at home or in their normal environments. This course will discuss methods of reducing these animal's stress levels so that more effective assessments of their behaviors can be made.

Disease Exposures in a Sheltering Environment – This course will offer a basic understanding of disease exposures which might be encountered in an animal sheltering environment, to include zoonotic diseases and commonly communicable animal diseases. Animal shelter workers are often at risk of exposure to various diseases and are generally charged with reducing or preventing the spread of animal illnesses and diseases from one animal to another (cross-contamination) in the shelter. This course will discuss basic information on the various diseases; common signs and symptoms; how the illness is spread; and methods of prevention.

ACCA Pre-Built Courses

Shelter Technician Certification

DESCRIPTION (continued)

Emergency Animal Sheltering – This course will offer a basic understanding of animal sheltering operations during emergency conditions such as Mass Animal Impounds or Disaster Animal Sheltering.

Proactive Animal Sheltering – This course will offer a basic understanding of common animal sheltering programs designed to provide improved customer service to both the human and animals residents of a community, to include quality customer service, handling pets from emergency situations like domestic violence or the death of the owner, common courtesy sheltering services, and more.

COURSE FEE

The ACCA Shelter Technician Certification course costs just \$450 per student for the complete 3-day course. Hosting agencies receive 2 complimentary registrations for every 10 paid registrations.

ACCA Pre-Built Courses

Comprehensive Animal Management Certification

DESCRIPTION

The course is comprised of the following blocks of instruction:

Advanced Case Supervision - Handling complex cases as a supervisor is a different world. This segment focuses on the myriad of cases that require oversight and direction. How to handle a case as a manager, not a line officer.

Basic Budget Planning - Money management, basic purchasing tips and how to submit requests are covered.

Disciplinary Investigations - Basic steps for violations of workplace rules and regulations are covered including how to conduct interviews, document findings and write-up counseling statements, reprimands, personal improvement plans and disciplinary findings from a generic standpoint.

Equipment, Vehicles and Operational Needs - Recommendations for basic equipment, vehicles and supplies are provided along with information on how to maintain that on a daily basis. "How to" fix animal control equipment and where to get supplies are also covered.

Evaluating Staff - How to create & maintain performance standards along with how to document monthly, yearly and probationary periods. Phraseology, techniques and tips for completing these tasks and related paperwork.

Interviewing and Selection - How to find the best choices for the job. Skills in reviewing applications, posting jobs and creating interview questions are covered.

Managing Generational Employees - This segment covers the types of generational employees in the workplace and how best to manage them to get high performance.

Meetings: Individual, Specific Groups, Entire Staff - How to schedule meetings and set agendas is offered in this segment. Managing attendance, determining needs and outcomes for effective meetings.

Policy and Procedures: Review and Development - How to create, review, implement and update policies and procedures are discussed with examples & sample materials to build on provided.

Pushing Paperwork: Reports, Memos and Correspondence - How to compose and handle routine as well as complex correspondence is reviewed. Letter, e-mail, telephone, or text? Picking the best means is half the battle. Public records & records retention schedules are mentioned in addition.

Supervising Daily Operations - Scheduling, handling leave requests, motivating & directing employees are part of everyday operations.

Training and Staff Development - Training needs assessments and evaluating skills are covered here. How to arrange in-house, contractor and related training is reviewed.

Transition from Staff to Supervisor - This segment shares information on how to move from staff to supervisor. Information on confidentiality, challenges and changes that come with moving up in the chain of command.

Workplace Harassment and Violence - This section covers the generic subjects and highlights practices to avoid as well as how to mitigate instances in the work environment.

COURSE FEE

The ACCA Comprehensive Animal Management Certification course costs just \$450 per student for the complete 3-day course. Hosting agencies receive 2 complimentary registrations for every 10 paid registrations.

ACCA Pre-Built Courses

Advanced Animal Management Certification

DESCRIPTION

Following the CAMC, this course offers advanced training and guidance for supervisors, managers and directors in a variety of challenging and complex areas. The segments provide a more in-depth discussion and additional tips for managing complex animal services operations. CAMC is not required to take this course.

The course is comprised of the following blocks of instruction:

The Three R's (Recruitment, Retention, Removal) – Current workforce environments have made attracting qualified staff difficult. Once hired, keeping those staff on payroll can be even more challenging. In some cases, removing problematic staff is the hardest challenge of all. This section covers hiring strategies, employee engagement practices and dealing with adverse employment outcomes.

Bargaining Units – Union & labor negotiations are common in many areas. Navigating the intricacies of contracts, grievance procedures, memorandums of understanding and disciplinary issues are covered in this section with examples and suggestions to familiarize the attendee with the union environment.

Great Expectations - This section focuses on pregnancy in the workplace. Duty assignments, uniforms, medical accommodations and restrictions are explained. The Pregnant Workers Fairness Act (PWFA) and other standards are covered and special emphasis on animal services specific situations are detailed.

On Call Employees - This segment covers the types of on-call and emergency duty situations that animal services employees may be assigned. The difference between "Waiting to Engage" and "Engaged to Wait" is explained with attention to the Fair Labor Standards Act (FSLA) as it applies to animal services.

OSHA for Animal Services – This section covers workplace Occupational Safety and Health requirements for shelters and field staff. Areas including hearing mitigation programs, ergonomics and others are explained.

Enhanced Equipment & PPG: The animal control environment continues to become more hazardous with a variety of situations placing officers and shelter staff in danger. This section covers both defensive equipment recommendations and justifications including how to appropriately respond to both staff and administration regarding ballistic vests, OC spray, baton / Bitestick, Taser, Chemical Capture and Firearms.

Crisis Communications – Real world examples highlight this section on dealing with the media, the public and the agency in crisis situations. Information on response strategies, drafting press releases and managing emergencies for animal control field and shelter agencies are provided to enable management to understand and respond appropriately in animal related events.

Incident Command Systems - Training needs assessments and FEMA / Homeland Security issues are covered in this section. The requirements and options available for animal services staff can

Show Me the Money - This section covers basic grant funding and suggestions for seeking outside funds to support various aspects of animal services functions including disaster prep, education, spay / neuter programs, vaccine clinics and more.

COURSE FEE

The ACCA Advanced Animal Management Certification course costs just \$450 per student for the complete 3-day course. Hosting agencies receive 2 complimentary registrations for every 10 paid registrations.

Animal Basic First Aid And Emergent Care

DESCRIPTION

This course is designed to provide Animal Control Officers & Shelter Staff with a broad range of skills to provide both basic and emergent care for animals in the shelter of field. It includes background knowledge on illness, injury and routine care that is applicable across the operational field. The primary focus is on dogs and cats; however, additional information on other animals will be covered in brief. This course will:

- Provide recommendations for First Aid Kit for pets including supplies, equipment and medications.
- Provide basic guidance for the administration of routine care & emergency care. Identify common pet illnesses & injuries.
- Provide animal handling tips for capture & restraint,
- Instruction on animal cardio pulmonary resuscitation (CPR).

This course includes both classroom and practical instruction.

DURATION

This is a 16-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$350.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

This course is NOT intended to confer any specific authority or ability to diagnose, treat or act in a veterinary capacity. It is provided as guidance to allow basic & emergent care for animals to insure they are able to be transported to and examined by a licensed veterinarian. Animal Control agencies MUST have a consulting veterinarian and an established Veterinary Client Patient Relationship (VCPR) as this course is intended to augment, supplement and support the skills needed to provide care in consultation with and with the approval of a local veterinarian licensed to practice in the state where the officer or shelter staff member is employed.

Animal Hoarding Investigations

DESCRIPTION

A compulsive hoarder may often accumulate a large number of animals, failing to provide minimal standards of nutrition, sanitation and vet care, and fails to act on the deteriorating condition of the animals, the environment, or the negative impact on their own health and wellbeing. Such behaviors may be part of an overall mental health issue. Students will develop an understanding on how to document the scene for possible cruelty or neglect; evaluate possible intervention strategies including criminal, civil and regulatory and mental health; the need to prepare for a pre-hoarding event or large scale rescue sheltering plan; and how laws restricting the number of animals can be effective tools.

DURATION

This is a 1-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Basic Animal Control Officer Investigations

DESCRIPTION

This course will detail the role of the Animal Control Officer in performing investigations and to identify the common types of investigations and variations between them. Participants will become familiar with scene assessment and the common tools and resources used in investigation procedures and case development. Complaint procedures, interview techniques and the types of forms and reports used for documentation will also be explained.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$90.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Baton / Bitestick Certification

DESCRIPTION

The Baton / Bitestick Certification program is a hands-on program regarding the use of the tactical baton (bite stick) as a defensive tool to provide an Animal Control Officer with non-lethal force for dealing with aggressive animals and humans. Use of a bite stick for personal protection from animals and humans should be in accordance with agency training, policies, and procedures. The course will familiarize the Animal Control Officer with the practical use of the friction-lock and lever-lock baton. The training and instruction will cover the following topics: Safety; Legal Concepts; Use of Force Options; Documentation; Portation (mode of carry); and Practical Use and Retention of the ASP™ baton. The course includes both classroom and practical training.

DURATION

This is an 8-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$225.00 per student; discounted pricing available when combined with other ACCA training modules. Class is limited to 20 participants.

CLASS INFORMATION

All certification materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ASP™ certificate of completion. Dress is casual, appropriate footwear is required (no flip-flops, sandals).

The practical portion of instruction requires a two (2) minute self-defense drill. Students on light or modified duty, pre-existing injuries or conditions that prevent full use of arms, hands, legs and intense exertion may be unable to complete this requirement. Please contact ACCA – BEFORE – registering for this course.

Canine Behavior and Aggressive Dogs

DESCRIPTION

Within the United States, about 4.5 million people are bitten each year by dogs. Almost 1 in 5 of those victims require medical attention from their dog bite injuries. In the 14-year period of 2005 through 2018, dogs killed 471 people. These are staggering statistics and it takes responsible dog owners and public education and awareness about dog bites in order to prevent these needless attacks. This course will offer Animal Control Officers a basic understanding of dog behaviors in a field environment, to include:

- Assisting ACO's to recognize and respond to hazardous situations associated with dangerous or potentially dangerous dogs.
- Providing instruction in the principles of dog communication and in the tools, techniques and equipment that can be used to avoid, repel or handle aggressive dogs.
- Understanding the general characteristics of common dog bite scenarios.
- Identifying the presence of dogs on a property and the techniques for making such a presence known.
- Develop an understanding of the different forms of canine aggression.
- Understanding the different methods in which dogs communicate aggression or friendly moods and intention.
- Knowing how to apply a "force continuum" in selecting an appropriate response to dogs.
- Understanding techniques for minimizing personal injury in the event of an attack.
- Becoming familiar with resources to assist in officer-related animal bites.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$90.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Challenging Encounters in Animal Control

DESCRIPTION

Animal Control Officers encounter a variety of animal “interested” groups and individuals. Dealing with these people can present obstacles to education, enforcement and achieving compliance. This class covers strategies for dealing with everything from activists to elected officials with stops for “hoarders”, animal welfare groups and administrators. Students will be provided with ideas on how to safely and effectively interact with a variety of persons in the animal realm.

DURATION

This is a 1-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Chemical Immobilization Certification

DESCRIPTION

Chemical Immobilization offers an alternative to the use of lethal force in response to animals that represent a danger to the public. This course will certify officers to chemically immobilize commonly-encountered animals, such as dogs, wildlife, exotics and agriculture animals. Humane techniques and methods, drugs and delivery devices, and deployment protocol (what qualifies an animal for chemical immobilization) will be discussed. This course includes both classroom and practical training.

DURATION

This is an 8-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own). For states requiring 16 hours, a supplemental practical exercise form is provided to complete and confirm total hours required.

COURSE FEE

\$225.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual, appropriate footwear is required (no flip-flops, sandals).

Students will handle a variety of chemical capture gear provided ACCA and offered by Pneu-Dart, Inc. Students are encouraged to bring their own gear but **DO NOT BRING CHEMICALS**. If your gear is powder charged, please contact ACCA **BEFORE** bringing to confirm range capability will allow the use of cartridge fired darts.

This class has been approved by the West Virginia Law Enforcement Professional Standards Program for 8 hours of law enforcement continuing education credit.

Community Cooperation – Education & Outreach

DESCRIPTION

Animal Control Officers are often tapped to address civic leagues, community groups and administration. This instruction offers tips, guidelines and information on developing and speaking for a variety of functions and organizations. Effective communication is key to improving and enhancing your agency's image and often can make a difference in support and funding. Students will work on creating and presenting to the group to get firsthand experience in dealing with diverse community agencies.

DURATION

This is a 1-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Courtroom Testimony and Report Writing

DESCRIPTION

When should court preparation start? What should be done on the day of court? This block of instruction will focus on courtroom preparation and testimony from the initial call until the court date, to include when/why you should seek out your prosecutor before court; important things that should be done during your testimony; recognizing defense tactics and how to avoid them; and courtroom professionalism and dress standards/appearance. This course also includes instruction on how to write fact-based, unbiased, clear, grammatical reports as a record of the event and a tool for prosecution.

DURATION

This is a 2-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Dangerous Encounters For Law Enforcement: Canine Contact Training (DEFLEC²T)

DESCRIPTION

This course was developed to assist armed law enforcement officers (police, sheriffs & ACOs) in making critical decisions related to animal involved firearms utilization. The course covers animal behavior recognition, critical animal incident response, animal aggression de-escalation techniques, alternative equipment for dealing with aggressive animals, legal issues and justification for use of force, as well as post-incident recommendations for animal care, interacting with animal owners, report writing and public relations response. .

DURATION

The full course is a 4 hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own). This course is also available as a roll-call program with the ability to provide briefings for officers at roll call as well as part of annual in-service training options.

COURSE FEE

\$90.00 per student; discounted pricing available when combined with other ACCA training modules. Course fee is also customizable for roll-call or in service training. This course may be combined with other programs to create a 8 hour day of instruction.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Diversion - Alternative Enforcement Programs

DESCRIPTION

Integrating additional enforcement strategies can strengthen and improve Animal Control operations. This course offers students a variety of innovative ideas that provide revenue enhancement, improved license compliance and alternatives to traditional citations. These are not replacements for existing programs, but rather they are additions that generate positive results.

DURATION

This is a 1-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Euthanasia By Injection

DESCRIPTION

This course will offer an understanding of the principles of Euthanasia By Injection (EBI) focusing on companion animals commonly encountered by animal control and housed in animal shelters. The course covers animal physiology, chemicals, drugs and equipment used in EBI. Compassion fatigue, stress and related challenges are part of the curriculum. Student instruction includes classroom presentation and practical instruction on venipuncture utilizing clinical models and simulated animals. NO LIVE ANIMALS are used in this training.

DURATION

This is an 8-hour or 16-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own). In states with 16 hour requirements, an extended 2 day course is offered. In states where a veterinarian is required, ACCA will provide a contract veterinarian for a portion of the course and to confirm certification competency.

COURSE FEE

\$250.00 per student for 8 hour course, \$400 per student for 16 hour course.

CLASS INFORMATION

This class is limited to 20 participants. All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Evidence Law and Collection

DESCRIPTION

The key to a successful outcome in any animal-related investigation is the recognition and collection of evidence. The first responder's initial actions are critical to animal crime scene investigations. This course will discuss the importance of numerous types of evidence and to identify, process, and preserve the crime scene and items of evidence found in them. The course will demonstrate the challenges that are faced when presenting veterinary and animal crime scene evidence in a court of law. The goal is to help students be more comfortable with the process of collecting and presenting evidence in such cases, and to learn how to avoid some of the common mistakes that might make such testimony ineffective.

DURATION

This is a 2-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

This class is certified for instruction in Tennessee and Maryland. ACCA will submit for approval in states requesting & requiring Veterinary Board or Board of Pharmacy Approval.

Field Training Officer Certification

DESCRIPTION

This course will provide Animal Control Professionals who specialize in on-the-job training the opportunity to gain recognition for their education and professional dedication to the field-training concept. Field training develops new employees into professional and ethical members of the organization. Agencies lacking a properly functioning field-training program are open to discredit and liability. A properly organized, supervised, and functioning field-training program is critical to the development of an agency. The course is specific to the Animal Control profession, and requires mandatory participation from all students in role-playing and training exercises. The course includes a sample agency Field Training Manual.

DURATION

This is a 16-hour course. 10-minute breaks each hour, 1-hour lunch break each day (lunch on your own).

COURSE FEE

\$350.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Handcuffs – Arrest and Control Certification

DESCRIPTION

The ASP™ Handcuff – Arrest and Control Certification program is a hands-on program regarding the use of handcuffs. Although many Animal Control Officers do not have arrest powers, ACO's may be required to assist law enforcement officers in certain situations. This course is designed to provide the ACO with a clear understanding of the conditions in which restraints may be used, justification for use, and how to document these actions. The course goes into great depth on Portation (Carrying), Presentation (Drawing), and Handcuff application techniques. The course includes both classroom and practical training.

DURATION

This is a 8-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$225.00 per student; discounted pricing available when combined with other ACCA training modules. Class is limited to 20 participants.

CLASS INFORMATION

All certification materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ASP™ certificate of completion. Dress is casual, appropriate footwear is required (no flip-flops, sandals).

Illegal Animal Fighting

DESCRIPTION

The illegal animal fighting workshop addresses both dog fighting and cockfighting activity. The course covers officer safety considerations, the history of animal fighting, applicable state and federal laws, search warrants and warrantless entries, investigation techniques, evidence collection and impoundment of animals, agency and task force coordination for successful case prosecution.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$90.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Interpersonal Communication

DESCRIPTION

For Animal Control professionals, communication skills are the most important of all the skills necessary to succeed in our profession. Being effective at communicating equates into becoming successful. Being an ineffective communicator usually results in poor interpersonal relationships, citizens' complaints, and possibly even injury or death on the job. This training offers practical tools and strategies for improving an ACO's verbal and nonverbal communication skills.

DURATION

The course is offered in a 4-hour format. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$90.00 per student; discounted pricing available when combined with other ACCA training modules. Class is limited to 40 participants.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Investigative Techniques for Cruelty and Neglect Complaints

DESCRIPTION

Students in this course will learn techniques to improve their ability to investigate and prepare cases regarding cruelty and neglect situations encountered in the field. Students will learn how to determine a valid complaint; determine how the situation fits the elements of the law; review the Tufts Animal Care and Condition (TACC)/Purina Assessment Scaling; identify exigent circumstances; understand the importance of narrative reports, veterinary examinations, and scene documentation; and prepare case files and suggested possible charges for the prosecutor. Students will also learn how to differentiate between a situation that is correctable with education and when situations require enforcement action.

DURATION

This is an 8-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$175.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Laws and Enforcement Procedures

DESCRIPTION

Whether an animal regulatory agency is large or small, made up of many officers or just one part-time officer, it operates under authority granted by a specific set of laws. This authority begins with the United States Constitution and is contained within state constitutions. States may enable cities or counties to address their animal problems by enacting ordinances. This course is designed to establish a working knowledge and understanding of the common laws relating to animal control and field services. The topics include leash laws; noise complaints; sanitation issues; limit laws; cruelty and neglect; tethering; license requirements; rabies control; prohibited conduct; vicious and dangerous dogs; and citation servicing protocols.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$90.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Lifting & Loading for Animal Control

DESCRIPTION

Students will be given instruction on body mechanics, safety, individual lifting techniques, team lifting techniques, alternatives to lifting, loading & transporting techniques, and mechanical assistance options. Lifting will cover both objects & animals in static and dynamic scenarios. While general areas are covered, this course is designed and intended for animal care professionals and covers domestic animals with guidance on wildlife/livestock. The class will include physical/practical exercises (pass/fail) and a written comprehension test (80% passing score). A certificate of completion will be provided with passing score.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$225.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Officer Safety and Protection

DESCRIPTION

This course will offer an understanding of the principles of officer safety, to include: personal protective equipment recommendations; health risks associated with animal control work; challenges associated with driving animal control service delivery vehicles; vehicular traffic risks; injury prevention related to the loading/unloading of animals on the vehicle; evaluating risks while on private property; contact considerations with citizens/violators; understanding the Safety Zone, to include proper distance, proper stance, and having an escape route; developing a survival mindset; and evaluating behavioral indicators of assaults.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$90.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Oleoresin Capsicum Aerosol Training (OCAT) Certification

DESCRIPTION

This program will certify students to utilize the Oleoresin Capsicum Aerosol (OC) as a defensive tool to provide an Animal Control Officer with non-lethal force for dealing with aggressive animals and humans. Use of Oleoresin Capsicum Aerosol for personal protection from animals and humans should be in accordance with agency training, policies, and procedures. The course provides instruction and training in the following areas:

- To present principles, skills and techniques of understanding and using OC.
- Control violent and aggressive behavior of humans and dogs.
- Reduce personal injury to officers, individuals and the public.
- Increase an officer's confidence in physically threatening situations.
- Reduce the exposure of civil liability of the officer and the employer for unnecessary or improper force.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$225.00 per student; discounted pricing available when combined with other ACCA training modules. Class is limited to 20 participants. Student exposure to O.C. is not required.

CLASS INFORMATION

All certification materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual, appropriate footwear is required (no flip-flops, sandals).

Performing Animal Exhibitor Inspections

DESCRIPTION

This training provides background, knowledge and understanding related to performing animal exhibitions such as circuses, rodeos, petting zoos and similar atypical animal operations. Topics include inspection criteria, atypical animal abuse recognition, USDA and Federal Animal Welfare Act regulations, dealing with operators and organizations. The course will help clarify and define the roles of ACO's and Law Enforcement within the scope of their employment.

DURATION

This is a 1-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Safe Animal Handling/ Capture and Restraint Equipment

DESCRIPTION

Every day is a different day for an ACO. One of the most unique aspects of the ACO position is that of working with the wide variety of animal species and situations. Safe animal capture and handling is extremely important in order to protect the safety of the officer, the public and the animal. ACCA offers a 4-hour block of instruction that covers the skills and equipment that are necessary when dealing with domestic animals, wildlife, exotics and livestock. This practical course focuses on the animal species commonly handled by ACO's, injury prevention, dangers and risks, capture and restraint methods, equipment, safe loading and transportation.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$90.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Sovereign Citizens

DESCRIPTION

A frightening trend confronting law enforcement, including animal control, involves individuals claiming exemption from the laws of the land. Also known as “travelers” or “free citizens”, these persons pose a serious threat to officer safety and unique challenges to enforcement action. Students will be exposed to the tactics, philosophy and actions of this movement including how to identify involved individuals.

DURATION

This is a 1-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Stress Management/Compassion Fatigue

DESCRIPTION

This course will discuss the impact of stress, to include offering methods on how to minimize or eliminate certain stressors commonly affecting animal control/care workers. The course offers stress “tests” to students for completion in class; defining industry-common stressors; an explanation of positive and negative stress; details on how the human body reacts to stress and the impact of long-term stressors; an explanation of the categories of stress; defining factors in how we handle stress as it relates to age, gender, and other factors; and understanding the suggestions/changes for handling stress as it relates to animal control/care workers.

DURATION

This is a 1-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Understanding the ADA and Service Animals

DESCRIPTION

This training provides background, knowledge and understanding relating to the Americans with Disabilities Act, Service Animals and state laws related to control and licensing for these animals. ACO's and Law Enforcement Officers will be better prepared to apply the laws, regulations and policies that may arise when encountering service animals and their owners. Connect the signs of abuse common to each situation involving people and animals. The topics include the Americans with Disabilities Act (ADA) for government agencies, rights and regulations for service animals, federal and state laws for service animals, and requirements for handling service animals for agencies. The course will help clarify and define the roles of ACO's and Law Enforcement within the scope of their employment.

DURATION

This is a 1-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

Combined with other ACCA training modules to build a complete 8-hour day of training.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Understanding the “Link” in Animal Abuse

DESCRIPTION

This training provides background, knowledge and understanding relating to the interdisciplinary connection among animal abuse, child, elder and spousal abuse, and domestic violence. ACO's and Law Enforcement Officers will be better prepared to connect the signs of abuse common to each situation involving people and animals. The topics include, The LINK, animal abuse recognition, juveniles and animal abuse, mandatory reporting, intervention programs, and SAFE PETS sheltering. The course will help clarify and define the roles of ACO's and Law Enforcement within the scope of their employment.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$90.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.

Utilizing Thermometry for Animal Control

DESCRIPTION

Students will be offered instruction on the basic theory of thermometry; identifying the common types of thermometers; demonstrations on thermometer calibration; identifying the types of investigations that may involve thermometry; identifying hypothermia and hyperthermia in animals; identifying criminal charges related to temperature-related cases; understanding animal seizure laws in temperature-related cases; understanding and preparing a thermometry supplemental report; and understanding officer, agency and governmental liability.

DURATION

This is a 4-hour course. 10-minute breaks each hour, 1-hour lunch break when applicable (lunch on your own).

COURSE FEE

\$225.00 per student; discounted pricing available when combined with other ACCA training modules.

CLASS INFORMATION

All learning materials and any necessary equipment will be provided. Upon successful completion of this class, the student will be issued an ACCA certificate of completion. Dress is casual.
