

AMMOCANAUDIO

BATTLE TRANNY

Welcome to our latest Military Music Box

Our new case is an exciting extension of the Combat Wombat series.

It features 5.0 Bluetooth 15 hour runtime on a single charge and fantastic portability and sound.

Oh, and it looks great also!

AMMOCANAUDIO

- Charging port
- Charger

•To Play

- Turn **UNIT On/Off** switch to **ON**
- Connect Phone, Tablet or compatible audio player via Bluetooth (kebidu)
- Adjust audio levels with your Input device or on the Media Player. Press and hold, Up or Down.
- When not in use. Turn UNIT ON/Off switch to OFF.

•To Recharge

- Plug the charger into the charging port.
- Supplied with your Box is a mains powered Lead Acid battery charger designed for 12V batteries. Features intelligent automatic charge controller to stop charging (light on the back of the charger comes on when battery is fully charged). This feature allows you to leave the charger connected to the battery without risk of overcharging and know your battery is always ready to go. You can charge and play your box at the same time.

• When to recharge?

- Each Box is fitted with battery status meter. You may charge your box at anytime, however once battery indicator is 'EMPTY' or reading less than 10 volts. Charging is essential for Battery health.

- On/Off Switch
- Battery Status Meter

AMMOCANAUDIO

Bluetooth Connectivity

- Press **Mode** button until “Blue” appears on screen. Connect to Phone or device via Bluetooth menu...connect. Your device will be named “Kebidu”.
- In Bluetooth operation it is **IMPORTANT** to have the device (mobile or tablet) volume at it’s highest. This eliminates any Bluetooth connectivity Static.

TROUBLESHOOTING

BATTERY

The majority of issues that we need to address, involve the battery.

The Battery is a Lead Acid battery that likes to be charged. Your charger is a switching charger that once the battery is charged it will switch off. So please charge often.

BLUETOOTH

•Bluetooth can be paired with many devices, yet only connected to 1 device at a time. Bluetooth will also connect automatically with a paired device within range. Always remember that if you cannot connect to your unit, there is a good chance it is connected to another device. Turn Bluetooth off on that device and try again.

•To listen to the radio on your Battle Tranny we suggest 1 of the many apps available both on iTunes and the Play store or 1 of the many stations that have their own app (ABC 3AW etc).
