

# Compression load cell PR 6201 and mounting kits PR 6001, PR 614x

The all-round weighing solution for silo and vessel weighing

**GERMAN  
QUALITY**  
German Quality

The load cell of the PR 6201 serie is specially designed for weighing silos, tanks and process vessels. Their unique construction principle, in conjunction with the FLEXLOCK mounting kits, allows for movement to be tracked with a negligible effect on the weighing result.

The right solution for all of these applications:

Weighing

Filling and dosing

Fill quantity control
