

## Create Behaviour-Supporting Seating Plans in Minutes

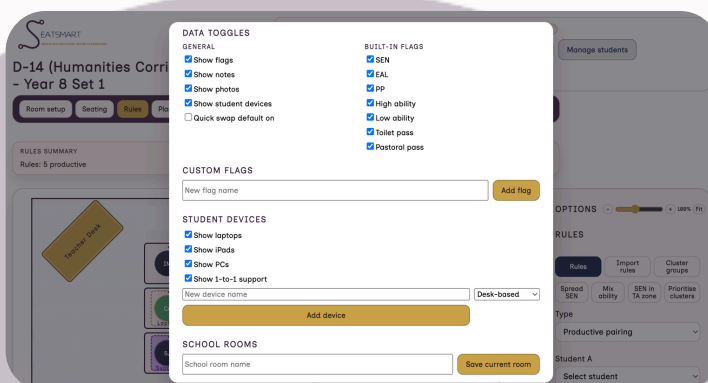

SeatSmart is a modern classroom seating plan tool built for UK schools.

Create effective seating plans quickly using automatic sync from school systems or manual class list upload for smaller settings.

## Why Schools Use SeatSmart

- Save hours of seating-plan admin each term
- Support consistent behaviour routines
- Create multiple layouts for different lesson types

## Built with UK teachers across primary and secondary schools

## Key Features

- Automatic sync from Microsoft Teams or Google Classroom
- Manual upload for smaller settings
- Behaviour, SEN and grouping rules

## Setup & Support

Setup time: Under 30 minutes

Training: Not required – guidance videos included

Support: Fast email support

Unlimited staff users included.
